WONDERFUL POWER OF THE MOVING DOLLAR

Can you remember "way back when" the old green dollar showed as clearly what it could do with a little money?

Perhaps you can never see it. Here's how it was done. The green \$1 bill had fifteen to twenty men out in the circus ring.

After he had gotten them lined up he instructed them that they must do exactly as he directed them.

Then, the clown told the crowd that this man owed the next fellow five and he made him pass the bill on.

With a single five-dollar bill he had paid seventy-five dollars worth of debts and had his money back!

That illustrates exactly what makes Pay Up Week a successful plan. A dollar kept busy paying bills will many times its value—and often times has come back to the original holder of it.

Get into Pay Up Week early. Do it before the crowd gets in. Get your share of the cleaning up of frozen business capital, now represented in bank accounts.

National Pay Up Week will be Feb. 10 to 18 in Medford. Prepare to pay all you owe on that week and see how readily people pay you.
