

BETTER DAY AHEAD SAYS 'Y' OFFICIAL IN FINE ADDRESS

Men who attended the Roberts luncheon yesterday were given a intellectual treat as well. Mr. Roberts, who is an International Y. M. C. A. secretary, with headquarters in New York city, brought one of the most thoughtful addresses which has been heard here recently.

With a clear-sighted vision beyond the cynicism and distorted thinking characteristic of multitudes today, Mr. Roberts accepts the present chaotic condition of the affairs of men and nations as what history should have taught us is the inevitable backwash of war; but with the philosopher's steady faith he sees the dawning of the new day.

Mr. Roberts says that when General Sherman made his classic characterization of war, he was not thinking merely of the killing of men, but rather of the conditions through which we are now passing. He apologized for the title saying that "nations are looking to America."

The speaker then laid the responsibility for their preparation for this leadership on the men and women, to guide them patiently and conscientiously through the strange vagaries of adolescence to the threshold of man and womanhood.

Mr. Roberts also spoke both in the Medford and Ashland high schools, seeking to impress indelibly upon the young folks the responsibility which is theirs.

Mr. Roberts goes from here to the Y. M. C. A. convention at San Francisco.

KANSAS AGITATOR BEHIND IN VOTE UNITED MINERS

INDIANAPOLIS, Feb. 18.—The majority in the roll call against seating Alexander Howat and his suspended Kansas following intimated in the convention of the United Mine Workers of America during a speech marked by disorders.

The administration was 69 votes in the majority after the Illinois delegation had cast its vote. The majority then went to 98 on scattering roll calls and with nine small districts left to vote, delegates express doubt of a substantial change.

Mother Jones, 92-year-old organizer, took the convention in hand at the height of the disorders and succeeded in quieting the delegates for the time. This came after a charge that the administration had increased the eligible voting list. Vice President Philip Murray was presiding.

Mr. Murray explained that the committee had accepted credentials that were submitted too late for inclusion in the printed roll call. The explanation apparently was not satisfactory to the Howat men, who continued the noise.

Then Mother Jones made her dramatic appearance. The howls and booms changed almost instantly to cheers and she began addressing the delegates.

Mother Jones praised Howat for his opposition to the Kansas industrial court law and his other work as a member of the miners' union, saying "my desire is to have a million Alexander Howats in the country. Howat is right, she said, had advertised the damnable Kansas law."

CHANGE OF LIFE WOMAN'S TRIAL

Proof That Lydia E. Pinkham's Vegetable Compound is of Great Help at This Period

Metropolis, Illinois.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and I passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, scrubbing, and cooking, all three in two about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines."
