Nature Loves Bright Colors

We see the truth of this statement in the varicolored flowers, the vivid sunsets, the birds of brilliant plumage. But we never see it so completely as in a child's healthy complexion. How does nature paint this health? Why, in the rosy cheeks, the translucent skin, the smooth red lips of such a woman. And she molds it in firm flesh and rounded contours. The glowing woman is deficient in natural coloring, and she does not even appear to advantage in clothes that would set off her more attractive features. Many women who long for glowing health will find that they, too, can have them—change if they will give a trial to that remedy which brings strength to frail women—Lydia E. Pinkham's Vegetable Compound. Adv.

Can You See Your Ribs?

"It wasn't that I wanted to get fat—no, I just wanted to put on about 15 pounds more flesh, then I'd be just right. I've studied at diets, forged big meals, I've hunted health resorts, been to fine climates, guzzled milk, buttermilk, olive oil, emulsions, swallowed pills, digestion aids, and a score of other 'won't-work' things. Finally, I discovered the name of these things was building up the new red blood cells I needed. I took S. S. S., the greatest red-blood-cell builder, firm-flesh producer, blood-cleanser known. I put on 15 pounds in 2 months, and my nerves, instead of strings, feel like wires. S. S. S. has the world beat!"

S. S. S. is guaranteed purely vegetable in its medicinal ingredients. It has produced amazing results in building up run-down, thin-faced, ambitious men, and in making women of all ages more plump and beautiful, and younger looking. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

S. S. S. Will Build You Up.
