

# News of Jackson County

## ROGUE RIVER

The regular meeting of the Ladies' Civic Improvement club met last Friday at the home of Mrs. Fred O'Kelly with a good attendance. After the business matters were disposed of and before adjourning a social chat was enjoyed along with dainty refreshments served by the hostess.

The sewing bee or otherwise the L. O. P. H's and T. O. P. H's met for another of their exciting times last Wednesday evening at the home of Mrs. Joe Burkhardt. Their record of good times and cuts is being kept up.

Mr. Logan Julian returned last Saturday after a few weeks' absence working at Brookings.

A commodious chicken coop is being erected on the Brashers ranch. We hope the chickens will appreciate their lovely view of the river.

Judge Gilmoer gave a very impressive talk at the Presbyterian church last Sunday morning, repeating in part his address given in Medford, on the occasion of the burial of the body of Lester Jacobs, who lost his life in the war.

Mrs. W. H. Striker of Kerby, Ore., and son Keith, are spending a few days with Mrs. A. R. Brashers.

With Medford trade is Medford made

DYE BLOUSE OR  
BABY'S COAT IN  
"DIAMOND DYES"

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

## EAGLE POINT EAGLETS

By A. O. McVitt

Mrs. G. W. Averill and Mrs. Lucina Kincaid who is teaching the Crater Lake school four miles this side of Butte Falls, came out Saturday afternoon on the George Albert motor car, took dinner and Mrs. Kincaid joined her husband, who is boarding at the Sunnyside, and they went on to Medford together in the stage, returning on the Sunday morning stage.

Chris Bergsman and his nephew Carl Bergsman and Noble Zimmerman who have been spending the winter with his parents, Mr. and Mrs. A. R. Zimmerman, engaged in trapping for fur-bearing animals came in on the Saturday afternoon stage and stopped here for a few days. He reports that he was not very successful as there seems to be a scarcity of game this season. Lois Martin who has been trapping on Little Butte also reports poor success in that line of business.

There was the regular Saturday night dance here and the two Hayman brothers, Bruce and C. C. Hayman, who are working on the J. M. Willey orchard came in for supper, attended the dance and took beds and dinner at the Sunnyside and Sunday morning there were quite a number of the young folks who attended the dance and took their morning nap and dinner here.

Sunday afternoon Mr. and Mrs. Roy Conley of Butte Falls, came up from Ashland where they had been to visit Roy's father who is quite feeble, and spent the night.

Prof. Chester L. Ward and Prof. Lowe, two of the teachers in the Butte Falls school came in Sunday afternoon and called for supper on their way to Butte Falls. They had been out to Medford the day before and were trying to get back to their schools and had the promise of a ride on the Albert motor provided the snow was not too deep but they were in doubt as to that but fortunately for them and Mrs. Kincaid they got through and they were able to reach their schools Monday morning.

Aden Haselton, one of our not uncommon visitors and Miss Tedrick, a member of the family who recently purchased the old J. W. Grover place were also here for dinner Sunday.

Wm. Cottrell of Trail, and D. Rummel of Prospect, were here for dinner Monday and Mr. Rummel reports three feet of snow in that section. J. D. Patrick of Brownsboro, a man by the name of Baker of Butte Falls who came out on the stage, and two strangers were here for dinner. It is often the case that people will call for late dinner, sit down and eat and pay for it and start off in a hurry and I fail to learn their names or residence.

We have had another change in the management of the T. E. Nichols store. Mrs. R. A. Weidman who has been the saleslady and manager of the business so far as keeping the books and ordering the goods is concerned has retired and P. J. McPherson, a son-in-law of Mr. Nichols has taken charge of the business. Mrs. Weidman will be greatly missed as she is very popular and seems to be fully competent in that line of business as she has worked in the business for several years before coming to Eagle Point. Mr. and Mrs. Weidman own a fine farm and orchard all under water, and are among the principal dairy people in the neighborhood and in addition to their alfalfa and orchard business are extensively engaged in the poultry business and anticipate adding largely to their flock of hens. We wish them success in the change in business undertaking as well as Mr. McPherson in his new business venture.

Speaking of Mr. McPherson, he gave his subscription yesterday, Tuesday, for the Mail Tribune and the Medford Sun.

I met Ralph Stanley, one of our big cattle men Tuesday morning and asked how they were getting along with their cattle, for there are, as near as I can learn, five brothers, all interested in the cattle business, and he said fine and plenty of hay to last them through. In a short time I met Sam Coy and about the first thing he said was, "I wish that this cold snowy weather would let up for my hay is running low and I want to turn my cattle out and there is no grass and none growing." Then the subject turned on to cattle in general in this section and he said that there were quite a number of stockmen that had already turned out their cattle and others who would have to turn their stock out very soon and that they were getting very poor and spoke of a few of the old pioneer stockmen who used to depend on keeping their stock alive by cutting the large fir and pine trees down so that the cattle could gather the moss off of the limbs and thus sustain life, who have several cows that have to be helped up, and the prospect is that they will lose more by their negligence and stinginess than would have bought the hay to feed

them and thus saved the poor cattle the suffering and the guilty conscience for having neglected to attend to them. Rev. H. G. Adams expects to preach in Brownsboro next Sunday morning and here the same day in the evening. George Fenerby and Mrs. M. Lamney and her son Roland who have rented rooms in the house that Agate Jack Goin has rented for a lodging and work shop for himself and are camping there for a few days until they can secure a job. Mr. Fenerby has a good four-horse team and wagon to use. Polk Mathews has moved out of the Jas. Owens house and gone to Butte Falls, and Dave Smith has moved out of the Findley house and moved into the Owens house. Frank Lewis' confectionery store was broken into Monday night and some \$40 worth of tobacco, cigarettes and money—only a few dollars—taken from the cash register and no clue to the parties who committed the deed. They entered through a window in the rear end of the building.

Monday evening, to see the local play, "Miss Cherryblossom." Our little community has been greatly saddened by the death of our dearly beloved friend and neighbor, Uncle George Roberts, as he was familiarly known. This is truly a good man gone from our midst, one whom everyone loved and revered. Mr. Roberts has been a resident of Phoenix and vicinity for the past twenty or more years. Has been active in church and Sunday school work. He leaves a good message to cheer the hearts of each of his Christian friends, in that he was waiting with pleasure for the messenger of death. The meetings that have been carried on by Rev. Harrison were brought to a close Thursday afternoon, having resulted in much good to our little community. Quite a number were brought into the fellowship of Christ. And a new interest instilled into those who already profess.

The ladies of the Talent Aid society met at the pleasant home of Mrs. Will High, last Thursday. There was a goodly number present, and all enjoyed a delightful luncheon. The usual amount of good work was accomplished.

## MOVEMENT ON TO BUY GROUND FOR PHOENIX SCHOOL

EDEN VALLEY, March 9.—There is a movement on foot to buy enough land for a field meet ground adjoining the Phoenix school. The ground is to be bought by money raised by popular subscription. Or by those who are public spirited enough to give for that purpose. The sum needed to purchase the three acres has nearly all been subscribed.

The ladies of the Phoenix Ladies' Aid, gave a dinner while the teachers' institute was in session at Phoenix last week, charging 50 cents a plate, which netted them a good sum, and was greatly appreciated by all. Some 40 or more partook of the many good things served by the ladies.

Work has been begun on the new flumes in the canal between Phoenix and Talent. These flumes cross Anderson creek, and the old mining race, and have been in use for many years, and are in a decaying condition.

Mr. and Mrs. Button are selling off their household goods, preparatory to going out to Klamath county, where their son is living. Mr. Button and his wife had thought they would spend the summer on the West Place, but have changed their minds.

We regret to chronicle the death of Mrs. Minnie Anderson Coleman. Mrs. Anderson was for many years teacher in the Talent and Phoenix schools, and spent her girlhood in our midst, her parents being of the valley, as were the parents of her husband, George Anderson, son of the late Mr. and Mrs. E. K. Anderson. To him, the many sorrowing friends of this community, extend deep sympathy.

Among those of our local boys who have received their bonuses are Lawrence French and Ray Coleman, former Talent men, but now of Jacksonville.

Foreman of the Klamath orchards, purchased all of the baled wheat hay which C. Carey had left, hauling it to their orchard east of Medford.

Mr. and Mrs. N. Chandler went to Medford Wednesday to look at a flock of White Leghorn hens, which they contemplate the purchase of.

Celver Furry was out looking at some pasture on Wednesday, with the intention of turning his cattle out on the range soon.

Miss Labertia Gore is reported feeling much better, after having a little trouble with her fractured limb abcessing again. Dr. Pickel was called and opened up the wound, which afforded relief.

Born to Mr. and Mrs. Alfred Hensler, of Fern Valley, February 27, 1922, a son. This is the first son born to Mr. and Mrs. Hensler, there being three daughters born to them.

J. M. Rader sold his beef cattle the last of the week. We are told that Mr. Rader received a very satisfactory price for them.

Reports say that Ralph Bowman, who last week was reported to have the flu developed the Manilla smallpox, and the family home is now under quarantine. However the younger children have been allowed to attend school.

Last week in my items I stated that the cattle being fed at B. N. French's place belonged to Nichols and Ashpole. This was a mistake, I should have said, Mitchell and Dunn.

Born to Mr. and Mrs. Earl Briscoe, of Talent, March 1st, a fine girl baby. Mother and daughter doing well.

Mr. and Mrs. W. S. Stancliff and daughter Vivian, and Leslie Hawk, who is making his home with Mr. and Mrs. Stancliff, were down to Medford

### WISE WOMEN

A famous medical man of ancient times states regarding his writings that they were but a collection of knowledge obtained from the "Wise Woman."

Do you realize that in those times the women, and not the men, knew about the healing properties of medicinal plants, roots and herbs? From the earliest times, women had a knowledge of the treatment of disease and of the healing merit of roots and herbs.

Lydia E. Pinkham's Vegetable Compound was originated by a woman, Lydia E. Pinkham, and is now known and praised by women of all ages. It is prepared from roots and herbs, having medicinal action of great value in the treatment of troubles women so often have. Adv.

## More Reasons Why

## The Hardie Sprayer is doing the work where others fail

With plenty of power, pressure and capacity, you must be able to get at your work in order to do it.

The Hardie All Steel Truck enables you to do so easily. High Wheels: Assures light draft.

Drop Axles: Lowering the tank saves fruit.

Wide Track: Does not tip over, no hillside too steep.

Hardie Stay There Hose Ends: They cannot be blown or pulled out. They save both time and material.

Hardie Diamond Spray Hose: The strongest spray hose made today. Easy to handle. Saves money in the long run.

Hardie Spray Guns: Give you efficiency not obtained in any other device. More Hardie Guns used than all others added together. From the tip of the pole to the nozzle, it is built so you can spray as you like with a Hardie.
