## RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## ROGUE RIVER

On Friday afternoon the Ladies' Civic Improvement club met at the Library, each member responding to the roll call by giving some other important date in their life and other eventful dates. Mrs. George Lowd took for her subject the dates that are grown. She not only told of their value as a food but demonstrated the fact by serving some delicious stuffed dates such as Mrs. Lowd knows so well how to prepare.

## EAGLE POINT EAGLETS

W. S. Chappell, our shoe cobbler has closed his shop again and gone to Trail to look after his sawmill interests.

Among the callers Saturday for dinner was J. Jodall, representing the Independent Cracker Co., of Portland, and L. Poider, of George Lawrence Co., harness.

Art Smith, one of our prosperous bachelor farmers who has a fine farm and orchard on Big Stickey on the Eagle Point-Phoenix road was here on business last Friday and took dinner at the Sunnyside.

Fred Fredager, another one of our prosperous bachelor friends, who owns a fine pear orchard came out to work in it getting it ready for spraying Friday and spent the night at the Sunnyside, and so did Mr. Gaines, one of the prosperous stock men of the Trail section. He is one of those men who believe that it pays to feed his cattle and consequently has had a part of his cattle on the A. G. Bishop (Hollywood) orchard and ranch and had that day brought out the rest of them as his feed was running low at home. He reports that there are now about 400 head of cattle being fed on that ranch besides two bands of sheep belonging to different parties and that they are looking fine. Our stockmen living back in the hills who have small farms and keep considerable stock but have not the necessary amount of cultivated land to raise hay to feed the whole amount arrange during the summer or fall to have them fed and calculate to have to feed them until about March or perhaps a little longer, and by that means have them ready to thrn out on the foothills where the grass starts early, thus having the cows in good

condition for bringing their calves, and having plenty of milk to give them a good start and getting them ready for the more nourishing grass in the higher hills.

Roy Davis of Derby, came out on the Butte Falls stage and went on out to Medford and Wm. Merrill of Reese creek, came in Saturday evening and remained until Tuesday morning.

Mr. and Mrs. Eldon Fauke of Gazell, Calif., came up to see Roy Stanley about cattle, and Mrs. Fauke visited Mrs. Stanley, thus combining business with pleasure.

A. B. Shelby, a traveling salesman, Carlyle Natwick and his sister, Mrs. Gladys Cooper of Medford, and Mr. Clayton, bookkeeper for C. H. Natwick, railroad contractor of Butte Falls, and M. F. Coleman of Medford. Mr. Coleman came out to see J. D. Patrick on business, who was working at the Sunnyside doing some repair work.

Frank Brandon of Central Point, L. M. Case, C. W. Rose and Frank Haselton, all of Wellen, were also here for dinner Sunday. Mr. Haselton is the foreman on the Antelope orchard, Also Misses Ruby and Mabel Tedrick, who were the guests of Eden Haselton, one of our regular boarders. In addition to them we had quite a number of our town young men here for dinner and supper.

Benj. Edmondson and wife of Butte Falls came out on the railroad truck Monday, took dinner and went on to Medford in the afternoon to visit her mother, Mrs. John Obenchain, formerly of Butte Falls but now sick in Medford. They returned Monday morning and went up home reporting that her mother was improving.

John Greb came in Monday morning to bring his daughter Frances in to meet the Persiat stage. Miss Frances is teaching the Persiat school and came out to see her parents. I mentioned in a former letter that she was here at the time of the teachers council but did not mention her as being present and learned Monday that she came out to attend but found her mother sick so remained with her.

H. L. Heryford and his son George and his two cousins, Mrs. Ira Tugate of Butte Falls and her two children and Mrs. Ed Cowden who lives on their farm about three miles out of Eagle Point came in for dinner Monday. Mr. Heryford and son were on their way to Ashland to have George's arm dressed.

The reader will perhaps remember that I mentioned some two weeks ago his passing through here with a broken arm and now he was on his way to have the old cast taken off as his arm had shrunk so as to require a new one. Mrs. Cowden had come in to meet her sister's children and take them out home with her for a visit.

J. Silas, formerly of Butte Falls but now of Central Point, and Miss Hannah, daughter of Jasper Hannah on the road via the French-Dodge bridge to Trail, were passengers on the Butte Falls stage Tuesday morning. Miss Hannah is attending the Butte Falls high school.

J. W. Berrian, superintendent of the fish hatcheries in Jackson county, and his assistant, Thomas Cingcade, passed through here Tuesday morning on their way to the Butte creek fish trap, and Mr. Berrian called for dinner Tuesday and reports that he has had a good catch and up to date has secured 1,000,000 steelhead eggs and 35,000 cutthroat eggs. He shipped a box of eggs to the Butte Falls hatchery Tuesday morning on the stage.

J. Wattenburg and wife came in Tuesday morning to meet a party who came out on the stage from Medford.

E. A. Denton and family who lived here last season for a while and bought the property that belonged to the late A. J. Daley, but moved back to Ashland to look after business interests there, have returned to their old home in Eagle Point.

Mr. and Mrs. Thomas Vestal of Reese creek and Walter Parr, also of

and Mr. and Miss Waitman, high school; Mr. and Mrs. Tyrrell, Mrs. Fish, Mrs. Myers, grades.

This week's issue of the school paper is very good; one of the prominent features of the paper is a picture and history of the old mill; the purpose of the paper is to give the history of some old landmarks each issue.

The principals of Jackson county and the county school superintendent met at the library last Saturday.

The meeting was called to order by President Hedrick of Central Point, April 28 was set for the field meet, if not suitable, then May 5; Talent grounds were chosen as the place; Mr. Jewett was elected manager and Mr. Henderson of Central Point as assistant manager. Baseball was eliminated and several new stunts were added, especially for the girls.

The school board has purchased some land joining the school grounds.

This is not all, the community is back of this move and will see it through.

Non-Employment Decreases. Washington, March 17.—Reports from widely separated states from Michigan to Texas and from New York to Kansas, show an improvement in the employment situation, according to Colonel Arthur Woods, chairman of the emergency committee of the president's conference on unemployment.

# 1/2 more land cleared per dollar

FOR the cost of the dynamite which cleared one acre of your stump land in 1921, you can now buy enough to clear an acre and a half. "Pacific Stumping," the new Du Pont dynamite, makes this possible. It will do the work of any standard stumping powder, stick for stick. But you get 1/2 more sticks of Pacific Stumping per dollar. "Pacific Stumping" is packed in boxes of 130 sticks; standard stumping powders come in boxes of 85 sticks. Pacific Stumping costs only 50 cents more per box. This makes it actually 2 1/2 cents (30%) less per stick than any other stumping powder. Pacific Stumping is non-freezing even in below-zero weather; and you won't get a headache from using it. Come in the next time you are near our store and let us estimate the cost of your blasting work. We can show you the way to cut your dynamite costs nearly one-half.
