Could Hardly Eat Enough to Keep Soul and Body Together and Strength Was All Gone, Says Avery—Friends' Advice Saved Day for Him.

"It was an old friend who told me to take Taniae and he was never a better friend than when he advised me to try it," said T. H. Avery, 567 East Twentieth St., South, Portland, Ore.

"My troubles started two years ago when an attack of flu left me almost helpless. My stomach gave me all kinds of trouble, my appetite was so poor I ate hardly enough to keep body and soul together.

"It certainly was a big and pleasant surprise to me the way Taniae straightened up all my troubles. I feel just like a new man and have more life and energy than in years."

EX-AMBASSADOR WALLACE'S NIECE TO MARRY COUNT

PARIS, Mar. 17.—(By Associated Press.) Hugh Campbell Wallace, former American ambassador to France, and Mrs. Wallace today announced the engagement of their niece, Miss Sally Beecher to Count Jean Bertrand de Lappe.

Miss Beecher is the daughter of the late Theodore Beecher of New York and a grand daughter of former Chief Justice Fuller of the United States supreme court. Miss Beecher has made her home with the Wallaces since the death of her parents. She met Count de Duppe while Mr. Wallace was ambassador to France. He received the medal of the legion of honor and the war cross, and was cited three times for conspicuous gallantry.

It is not known whether the wedding will take place in Paris or in America, as the Wallaces plan to return to their home in Tacoma, Wash., in July.

Hawking and snuffling and also soreness of the mucous membrane go and you will feel fine in almost no time.

Just get one ounce of Peppermint (double strength) add to it a little sugar and enough hot water to make a half pint and you've got an inexpensive remedy better than you can buy ready mixed.

Its soothing, healing action on the membrane is the reason so many people use it for Catarrh and acute nasal colds.

WOMEN AND MEDICINE

In Europe, years ago, a woman named Hildegarde wrote a notable book on medicinal plants. In those days the men were too busy bothering about dogmas of religion and medicine, and the study of herbs was thought beneath their notice.

It was the women, however, who mostly conducted the hospitals and cared for the sick, and thus they learned much of great value. They let the men fight out the questions of theories.

Lydia E. Pinkham's Vegetable Compound, prepared almost fifty years ago by a woman, Lydia E. Pinkham, did then, and does now, relieve the ailments peculiar to women. It is a vegetable compound and of great value for this purpose. This is proven day after day, and in your own neighborhood, by grateful women who have used it.
