

IRRIGATION TO BE FORUM TOPIC FOR TOMORROW

Medford Chamber of Commerce subject tomorrow—"Irrigated Lands of the Valley" by H. M. Chadwick, engineer of the Rogue River Valley Canal company.

Very few residents of the valley realize the problem which owners of irrigated lands have. A few citizens have given serious thought to the question, but none have offered a constructive solution.

Highly productive crops will have to be cultivated and intensive farming practiced in the opinion of some of the real estate dealers to meet the irrigation charges and to this end they recommend demonstration tracts being established and crop results of each recorded before colonists are asked to come here.

Other real estate operators are of the opinion that colonists should be attracted here, as in former years, with highly colored illustrated literature and a sufficient number of them would settle the lands and work out their own problems.

In the latter case there will be many disappointments and failures, after which they move away with the accompanying unjust criticism of the entire valley.

The time has come when the citizens of the county must help to solve the problem of the irrigated land owner. They must help to make the farmer now on the land more prosperous before others are asked to come here. A prosperous farmer is the best advertiser a community can have and is the solution of further land settlement.

The forum tomorrow will be held at the Medford Hotel at the noon hour.

C. OF COMMERCE ASKS NO CUT ON Q. SILVER TARIFF

The Fordney bill now before the senate finance committee has in it a 35c duty on quicksilver and the committee has in mind a reduction of this to 15c.

The Oregon senators were appealed to by the Medford chamber of commerce to have them appear before the committee and urge the retention of the 35c duty as quicksilver mining is not profitable under a lesser amount. Less quicksilver was mined in 1921 than in any year since the industry was established.

Some of the best quicksilver properties in the United States are located in Jackson county, none of which are in active operation because of it being unprofitable against foreign competition with its cheap labor.

Sensors Stanfield and McNary advised the chamber that they would appear before the committee and urge that no reduction of tariff be made.

EAGLE POINT EAGLETS

By A. O. Kiviat

Thomas Grigsby of Butte Falls was a passenger on the Medford-Butte Falls stage Wednesday.

M. S. Woods, one of the old veterans of the civil war was a business visitor to Medford about the middle of the week, and while there had a sinking spell and fainted while in the Nash hotel and while on his road home, was in a serious, if not a critical condition as he is almost quite helpless at times. A few nights before he went out to the woodshed, near morning to gather some kindling to start a fire, as he could not sleep, and fell down and lay there for about an hour and his wife missed him and became uneasy, got up and went to look for him and when she found him, was not strong enough to get him to the house, so had to go and rouse Mr. R. A. Weidman to help him to bed again. He still persists in going around alone, but one of his neighbors remarked as we saw him tottering along the sidewalk that if he should fall down he could not get up without help. But he is still as plucky as he was while in the army fighting for the preservation of the union.

H. H. Fox of Lake Creek, the milk goat man of that country, was a business caller. He reports that he is still in that line of business and reports that his neighbors, some of them at least thought last fall that they would have hay enough to carry them through with their stock and have a hundred tons of hay left, but rae now putting their cattle on half rations and that the outlook is not good for feed, as the ground is covered with snow almost every morning, and that the past winter has been the hardest we have had up there for years on stock.

Wm. Cotteral and D. L. Rummel were among the diners Wednesday, beside two strangers, whose names I failed to secure, who went away on the stage to Medford, and that night, Walter Parr who lives on Reese Creek came in and spent the night.

Wednesday afternoon the land lady of the Sunnyside hotel, who don't like to see her name in a newspaper, started for Oregon City and Portland for a visit to her two brothers in Oregon City, two in Portland and one in or near Damascus and our son-in-law and family, Grant Shaw, wife and four children, to be gone until she has her visit out, and take a much needed rest.

Earnest Dahack, our barber, has been making some substantial improvements on the tract of land where he has his barber shop, by removing the old low wire fence and putting up a neat four-foot Puge fence in its place.

Miss Ira Tongate of Butte Falls, who has been visiting relatives in Medford, came out on the Medford-Butte Falls stage and was met here by her sister, Mrs. Ed Cowden, and taken out home with her for a visit before going home.

Mr. Renning, the civil engineer, who, I understand, is appointed by the county court to look after and superintend the work on the roads in the rural districts, was a passenger on the Butte Falls stage Thursday, he was armed with quite a bundle of survey equipment, as though he was to lay out some work on a road in the hills. I understand that there is to be considerable money applied on the rural routes this season.

J. Zimmerly of Trail, was a business caller Wednesday, but did not learn anything from him, as I learned some time ago that he had disposed of his interest in the Adamson-Chappell saw mill.

R. D. Hanson and Gus M. Lowe were here for dinner. They are in the employ of Foster & Kleiser in posting ads on the six bulletin boards, Thursday. And so were Alfred and Westy Robinson of Oregon City who have been employed up in the Lake Creek country, and were on their way to their home in Oregon City.

Ed Dutton and Ed Cowden were also business callers.

Mrs. John Rader, who has been here visiting her daughter, Mrs. Roy Ashpole, returned home Thursday.

Mrs. George W. Avrial, of Butte Falls, who has been out to Ashland and had some dental work done, came out Friday afternoon and spent the night at the Sunnyside and so did a lady and little boy of Ashland, who was on her way up to Derby to visit friends. For reasons best known to herself, she requested me to withhold her name. They both went up on the Butte Falls stage.

F. Todd, W. G. McDowell and Mrs. T. F. Todd of Trail came out on the Butte Falls stage and went on up home on the Eagle Point-Trail-Portland stage. Mrs. McDowell is the

Peanut Industry in California Growing

TURLOCK, Calif., March 21.—Many Turlock farmers are considering putting their melon lands into peanuts, believing that a staple product is better than a perishable product.

Interest in the peanut industry was increased here when D. L. Wolfe, who raised peanuts on an experimental plot last year, was advised by a big candy company that his peanuts were larger and better than any grown in Virginia or the south.

Starts Fire With Can Kerosene; May Die

DENVER, Mar. 21.—Corrie Van Raalt, 14 years old, intended to start the kitchen fire at her home today with kerosene. She picked up a two-gallon can of gasoline. The Van Raalt farm house was nearly wrecked by the explosion which followed pouring of the gasoline into the stove and the child was so badly burned she may die.

PURE FOODS

Housewives that realize the value of pure foods—that takes special pride in uniform and wholesome bakings, never fail to use

CALUMET BAKING POWDER

You have positive proof of the purity—contains only such ingredients as have been officially approved by the United States Pure Food Authorities.

Contains more than the ordinary leavening strength—therefore you use less. It goes farther—lasts longer. That's why it is used by more leading Chefs, Domestic Scientists, Restaurants, Hotels, Railroads than any other brand on earth.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

FREE LUNCH BAR DISCOVERED, N. Y. OWNER ARRESTED

NEW YORK, Mar. 21.—Joseph Zetler, 55, awaiting grand jury action on charges that he violated the Volstead law, today is unique in the view of police and prohibition officials as the one known Manhattanite to have resuscitated the pre-war free lunch counter.

Police officers who invaded his Washington street apartment yesterday claim to have found a familiar brass rail before a lengthy mahogany bar with a table standing to one side heavy with relics of free lunch days including the indispensable and now neutral pretzel.

Moreover, claimed the detectives they were served with two drinks of whiskey at a total cost of 25 cents, on payment of which they were invited to partake of the free lunch.

MOVING THE COUNTY ASSESSOR'S OFFICE

Changes are being made in county offices this week. The new county vault has been completed and is ready for occupancy.

The assessor's office is moving into the concrete building across the street from the court house, and the treasurer's office will move into the quarters now occupied by the recorder's office. The county clerk will occupy the rooms formerly occupied by the treasurer, which opens on the vault, and the room now used. The sheriff's office will be enlarged to take in a part of the room used by the treasurer, and the remainder will be used by the county commissioners.

BOOTLEG CASES ARE POSTPONED

All the bootlegging cases scheduled for this term of court have been postponed until the week beginning April 24. This action was taken owing to Attorney George M. Roberts being called east, and owing to Assistant Attorney General Lillyquist being sick with the flu. Lillyquist has been assigned by the attorney general to assist in the prosecution of the bootlegging cases, which include the retrial of the charges against John Goodwin and James (Shine) Edwards, and two or three indictments against Ernest S. (Dud) Wolgamott.

STOCKTON FAVORS THE DAYLIGHT SAVING PLAN

STOCKTON, Calif., Mar. 21.—Endorsement of the daylight saving plan, on condition that the plan be adopted throughout the Pacific coast states before it be put into operation locally, was voted by the Stockton chamber of commerce at a recent session.

This decision followed receipt of a letter from the San Francisco chamber of commerce stating that the bay city favored daylight saving if uniformly adopted along the coast or at least in California, and requesting an opinion of the Stockton chamber regarding it.

Under the plan, all clocks on the coast would be turned an hour forward making the time the same as that in the Rocky Mountain time belt and practically eliminating Pacific standard time.

Chicago Jail Delivery Is Foiled By Warden

CHICAGO, Mar. 21.—The second attempt in two days at a jail delivery was frustrated yesterday when armed guards under Warden Wesley H. Westbrook checked the uprising and forced seventy prisoners back to their cells.

When the prisoners refused to return to their cells after the exercise hour Mr. Westbrook stationed guards with riot guns at advantageous positions, stepped to the front and told the prisoners he would give them ten minutes in which to obey the command, or direct the guards to begin shooting. Watch in hand he told of seven minutes and all of the mutineers had disappeared.

Good for That "Flu" Cough

For quick relief from the wearing coughs that "hang on" after the grippe or influenza, take Foley's Honey and Tar. Mrs. K. D. Drake, Childs, Md., writes: "After an attack of the flu that left me with a severe cough nothing seemed to relieve me till I tried Foley's Honey and Tar, which I can highly recommend." It is also good for croup, whooping cough and colds. It puts a soothing, healing coating over the inflamed surfaces, cuts the phlegm, eases hoarseness, clears the air passages. Sold everywhere.

Women Whip Waitress, State Refuses to Act

ARMORE, Okla., Mar. 21.—The fact that two women took Miss Frookiss Griffin, a waitress, to a lonely spot several miles from here several nights ago, and there whipped her with switches, became known today with the announcement by James H. Mathers, county attorney, that there would be no prosecution.

Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in your blood. There is no getting away from it. Science has proved it. We prove it. You can prove it.

Let S. S. S. Give You An Angelic Skin! Common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Dr. Johnson Says

We believe in advertising because we are not ashamed that we are dentists.

Also it is good business. Our work is quite reasonable. An examination may convince you as much.

The Fordson Farmers' Calendar

THERE'S PROFIT EACH DAY THE FORDSON WAY

1922 SUN 1922 SAT

The Cleanest Farms In Any Community

FORDSON farms have that reputation. Early fall plowing is what keeps these farms free of weeds.

"That's easy to talk about, but how are you going to plow when the ground is so hard and dry, and the weather so hot that a team can't work?" That, probably is your objection to the formula.

"Use a Fordson-Oliver Plowing Outfit," is the answer. Heat and hard soil and dry weather don't bother a bit when you use Fordson power instead of horses. Early fall plowing with a Fordson tractor and an Oliver No. 7 plow will enable you to turn over the soil the time you know it will do the most good.

Over 200,000 Fordson Farmers Use Oliver Tillage Implements
