

ASK CITY COUNCIL TO PROVIDE FOR PLANNING BUREAU

What is deemed to be a great step in Medford's future welfare and development, if it is carried out and there seems no doubt that it will be, as it meets with general approval of citizens and city officials, was brought to the city council Tuesday night by O. C. Boggs, acting for the Chamber of Commerce and the Greater Medford club, which ask that the council pass an ordinance to establish a City Planning commission. Such an ordinance will be prepared and without doubt, eventually passed. In accordance with the state law, authorizing such commissions, the planning commission will consist of the mayor, city attorney, city engineer and seven other appointed members, not more than two to be non-residents.

The commission has power and authority to employ consulting advice on municipal problems, a secretary and such clerks as may be necessary, and to pay for their services and for such other expense as the commission may lawfully incur, including the necessary disbursements incurred by its members in the performance of their duties as members out of funds at the disposal of the commission, as authorized by the city council.

To recommend and make suggestions to the city council and to all other public authorities concerning the laying out, widening, extending, parking and locating of streets, sidewalks and boulevards.

The relief of traffic congestion.

The betterment of housing and sanitation conditions.

The establishment of zones of districts limiting the use, height, area and bulk of buildings and structures.

To recommend to the city council and all other public authorities, plans for the regulation of the future growth, development and beautification of the city in respect to its public and private buildings and works, streets, parks, grounds and vacant lots, and plans consistent with the future growth and the development of the city, in order to secure to the city and its inhabitants, sanitation, proper service and use of all public utilities, and transportation facilities.

In general, to study and propose such measures as may be advisable for the promotion of the public interest, health, morals, safety, comfort convenience and welfare of the city, and of the area for six miles adjacent thereto.

"London Follies" at Page Tonight

They can send the London Follies to California any time that they don't need them in England. Provided, of course, that in doing so they guarantee to spare our lives, for we came near laughing ourselves to death last night at the Mason.

Harry Tate is a real comedian—the drollest thing in whiskers and red plastered-down hair, in fact, he's a laugh every fifteen seconds as long as he's on the stage.

He looks like an even break between a desk sergeant in a police station, and the popular edition of John Bull.

His auto-selling incident rambles along in high until the relic finally falls apart and leaves everybody mixed up with the pieces. The golfing incident also makes a topnotch hit.

A lot of Tate's comedy is what is popularly termed nut stuff. All of it refreshingly clean. In fact, there hasn't been a revue here in ages which was so absolutely free from smut as the London Follies are.

The entertainment is exuberant all the way through, which is another way of saying that it is full of pep—Los Angeles Times.

Lillian Coles is a popular song artist, Harry Gibson is an artist in act, acrobatic and magic stuff a la vaudeville, Billie Holland, Connie Brown, Isabelle Dorothy, Len Mence, Harry Beasley, Tom Tweedley and Dean Tribuna are other clever people.

Excellent dancing is done by W. Wania, Marie Dayne has an attractive number, while the chorus steps along with lots of life.

At the Pace theatre tonight.

COMPARE VALLEY IRRIGATION WITH IDAHO AT FORUM

Comparisons as to costs and production of irrigated sections in Idaho and other localities with that of Medford were made by H. M. Chadwick yesterday at the forum of the Medford Chamber of Commerce. In his opinion Medford has an advantage over the other districts on account of a more productive soil.

A map of the irrigated lands in the Medford Irrigation District and the lands being irrigated by the sale of water by the Rogue River Canal Co. was shown in colors. There are 15,000 acres of irrigated lands in these two subdivisions. In addition to this the Talent Irrigation district supplies water to several thousand acres in the area south of the Medford district, which demonstrates that Medford is in the center of one of the best irrigated sections on the coast, which eventually will add to her prosperity and growth.

There are 577 farms in the Medford Irrigation District, 94 of which have an acreage of one acre or less. 129 farms have an acreage of from 1 to five acres, 71 from five to ten, 42 from ten to twenty and 237 from twenty to two hundred and fifty. The owners of more than twenty acres of irrigated land in the district are the ones who have the most difficult task before them to get their large areas under production to get 100 per cent benefit of irrigation.

The forum was well attended and H. W. Paul was the presiding officer.

VOTES COMING SLOW IN C. OF C. ELECTION

Members of the Medford Chamber of Commerce were rather slow in sending in their ballots yesterday and as the polls close tomorrow evening at seven-thirty, an extra effort should be made by those who have not already done so to get their ballot in before that time.

Last year there were a total of 297 votes cast in the final election, but the voting at that time was stimulated by a referendum on the community chest. So far this year 119 members have voted.

The same tellers will have charge of the counting of the final election ballots as served at the primary.

ONLY \$200,000,000 SHY INCOME TAX REPORTS

WASHINGTON, Mar. 23.—On the basis of reported collections of income and profits taxes of the March 15 installment, a shortage of \$200,000,000 in the estimated revenues from these sources for the calendar year 1922 was reported today by the treasury.

"ACUTE INDIGESTION CORRECTED BY INTERNAL BATHS"

Mr. Otto Drum, 27 Proctor St., Tacoma, Wash., writes Tyrrell's Hygienic Institute of New York as follows: "For a number of years I suffered with gas on the stomach and after using most every kind of medicine, a friend of mine convinced me that the only way I could be cured would be to use the J. B. L. Cascade outfit, according to directions. I used one for about three weeks, and now I have been using it once a month and have never been troubled with gas. This was five years ago."

"The J. B. L. Cascade" cleanses the lower intestine of its entire length and keeps it always free of poisonous waste.

Thousands testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which they cause are absolutely relieved and prevented by this Nature Treatment.

West Side Pharmacy will gladly explain to you the simple operation of the "J. B. L. Cascade," why it is so certain in its results, and will give you free of cost, an interesting little book containing the results of the experiences of Dr. Chas. A. Tyrrell of New York, who was a specialist on Intestinal Complaints for 25 years in that city. Why not get this book as soon as possible. Remember, please, it is free.

Dr. Johnson Says

We believe in advertising because we are not ashamed that we are dentists.

Also it is good business.

Our work is quite reasonable. An examination may convince you as much.

SAMPLE STORE CHANGES NAME

The chain of Sample Stores operated by Breier & Petersen and C. J. Breier & Co. has recently been incorporated for \$1,000,000 under the name of C. J. Breier Co., Inc., with headquarters at Lewiston, Idaho. This chain of stores, of which there are now 36, has grown with remarkable rapidity owing to the popular price policy of each store. Ten branches have already been established in Oregon.

The growth of the Medford Sample Store, which will hereafter be known as the C. J. Breier Co. Inc., has been marked during recent years. J. L. Read, its manager, is a well known merchant who has made his home in this city for five years. According to Mr. Read, the future policy of the storehouse will be the same as heretofore—a policy of square dealing, and courteous treatment.

Straggled Gems Seized

NEW YORK, Mar. 23.—Diamonds, whose wholesale value was estimated between \$85,000 and \$110,000 were seized today by customs officials, Francisco Chamie, a rubber dealer of Para, Brazil, alleged to have illegally imported the gems, was arrested while trying to dispose of them in a west 23rd street jewelry shop.

COULD NOT TURN IN BED Operation Avoided by Taking Lydia E. Pinkham's Vegetable Compound

Dayton, Ohio.—"I had such pains that I had to be turned in bed every time I wished to move. They said an operation was necessary. My mother would keep saying: 'Why don't you take Pinkham's, Henrietta?' and I'd say, 'Oh, mamma, it won't help me, I've tried too much.' One day she said, 'Let me get you one bottle of each kind. You won't be out very much if it don't help you.' I don't know if you will believe me or not, but I only took two bottles of Lydia E. Pinkham's Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine when I began to get relief and I am regular ever since without a pain or a headache.

When I lie down I can get up without help and without pain. I can't begin to tell you how I feel and look. I have begun to gain in weight and look more like I ought to. I think every day of ways I have been helped. Any one who does not believe me can write to me and I will tell them what shape I was in. I am ready to do anything I can to help your medicine."—Mrs. HENRIETTA MILLER, 137 Sprague St., Dayton, Ohio. If you have any doubt, write to Mrs. Miller and get her story direct.

C. OF C. DIRECTORS ACCEPT PROPOSAL FOR CAMP GROUND

The directors of the Medford Chamber of Commerce tentatively accepted the camp ground proposition, pending the arrangements that can be made with the owners of the property and an investigation as to the possibility of financing the program of improvements.

The application for membership of C. H. Sheek, manager of the local branch of the Standard Oil Co., and Chas. W. Shields, merchant, were accepted.

The ladies' organization of one of the Medford churches was denied the use of the exhibit building for a sale, it being the opinion of the directors that by granting same, all other churches would have the same right to this privilege, which at times it would be impossible to grant them. The use of the exhibit room for meetings has always been granted to all who have made application for same.

The forum recommendation that a committee be appointed to prepare a constructive plan of tax reduction to the Tax Revision commission while in Medford, was adopted and this is now under way.

KANSAS ACCEPTS EVERGREEN DEF BILL PROVIDES NEW BOOKS FOR FARMER

TOPEKA, Kan., Mar. 23.—Governor Henry J. Allen has accepted a challenge issued by Governor Hart of Washington to show which state has the least number of unemployed service men at the end of unemployment week. Frank E. Samuels, state adjutant of the Kansas legion said that between 300 and 400 men had been given employment in Kansas this week.

GIRL HOBO WALKS TO LOS ANGELES

LOS ANGELES, Mar. 23.—Miss Rita Gallaway of El Paso, Texas, decided to seek work in Los Angeles. Having only 26 cents she also decided to walk the 1200 miles between the two cities. She started ten days ago, she arrived with 59 cents. On the way she rode in automobiles, hay wagons, horseback and on bridle beams.

SPUDS ON HAND ON MAR. 1 ESTIMATED AT 90,946,000 BU.

WASHINGTON, Mar. 23.—Stocks of potatoes in the hands of farmers and local dealers March 1 in the fifteen leading potato states are estimated at 90,946,000 bushels by the department of agriculture. Of this quantity 73,486,000 bushels were held by farmers and 17,460,000 bushels by dealers. Of the holdings in the hands of producers, 39,925,000 bushels are expected to move off the farm and 42,561,000 to be retained. As this is the first year that stocks of potatoes on March 1 have been estimated by the department there is no basis for comparison with stocks in preceding years.

The states covered are Maine, New York, Pennsylvania, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska, Montana, Colorado, Idaho, Washington, Oregon and California.

In 1921 these states produced about 70 per cent of all potatoes in the United States and had a surplus over farm requirements of 150,360,000 bushels or 62 per cent of the local production in the fifteen states.

The movement from farms to March 1 was 119,371,000 bushels, or 80 per cent of the total surplus, leaving 39,925,000 bushels or 20 per cent of the surplus to move from farms after March 1.

Cut This Out—It Is Worth Money

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name and address clearly.
