The last news received from Crater National park by Superintendent Alex Sparrow from the ranger stationed there, was that on March 15th there was 15 feet of snow at the lake rim, 12 feet at the government camp and 11 1/2 feet at Anna Spring camp. This is 2 feet more all around than at the same time last year, but the snow is soft and lightly packed as is shown by the fact that the ranger's skis sunk 18 inches in treading over it, and will quickly pass away when warm weather comes.

A woman in Lynn, Mass., was steeping herbs on her kitchen stove according to a recipe of her own, to furnish medicine for the women of the neighborhood. Today, a stone's throw from the little house where she lived, there is a four-story laboratory, making the same medicine for the women of the world. During the last year almost 500 tons of carefully selected herbs were used in the manufacture of Lydia E. Pinkham's Vegetable Compound.
