News of Jackson County

ELK CREEK

Miss Burr was visiting our school (Elk Creek), Wednesday. We were all glad to see her, as it has been a long time since we saw her last.

We have earned nine stars for our card entitled "Requirements for a Standard School," which gives rules for a standard school, we have five more points to secure.

Miss Burr also visited the Persist school, No. 89.

Mrs. P. S. Sandoz made a business trip to town Saturday, 18th, returning Wednesday, 22. Somebody is going to have a toothache as I noticed a pretty good sized sack of sweet-meats.

Arthur Moore went to Trail Monday, 20th. He returned Tuesday with two incubators. Looks like Persist is getting up in the world. Mr. Moore also has a few new lambs.

Harvey Margard also made a trip to Trail the same date.

Mrs. Lois Clement and her two children were visiting Mrs. J. M. Miles Tuesday. She came all the way from Medford and intended to stay a little longer than she did, but had to rush away before the roads were too slick from the rain we are having. The weather decided her as the sun was shining when she came and it rained during the night, so disappointed her and her relatives.

Miss Inez Willits visited Mr. and Mrs. Dave Pence Wednesday, March 22.

We have a volley ball outfit at our school and have already derived an abundance of fun out of it.

L. A. Whitley visited his mother and relatives, Wednesday, March 22, at Persist.

I was visiting one of my neighbors last week and noticed that one of his calves was sick. I inquired what the trouble was and he replied that it had the colic, I asked him where it was and he said the calf was down in the hay. It sure was as he was lying down and couldn't get up—as he was lying down fairly deep in the hay. Very interesting?

Irwin Hutchinson attended the dance at Stewart's. People along the creek are getting short on hay on account of the grass not growing as soon as we expected. So consequently we have to feed longer than usual, which makes it bad for those who run out of hay as it has to be hauled pretty far.

The news is pretty dry to be read, but the season is pretty wet to fret. Elmer Sperry was a visitor at Mrs. Dave Pences place Wednesday, the 15th. He enjoyed his visit.

One of the features of the Trail meet will be a game of volley ball, weather permitting.

Miss Inez Willits visited Mrs. Della Wagner last week. She enjoyed her visit.

REPORT MANY CASES OF RHEUMATISM NOW

Says we must keep feet dry; avoid exposure and eat less meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness soreness and pain called rheumatism.

At the first twinges of rheumatism get from any pharmacy about 100 grains of Jad Salts; put a tablespoon in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

NON-HEADACHE. **DU PONT** NON-FREEZING
PACIFIC STUMPING POWDER

The first guncotton-nitroglycerin dynamite without a headache

PACIFIC Stumping Powder is the first nitroglycerin dynamite put on the market that can be used with a certainty that no headache will result.

Couple with this feature its extreme economy—180 sticks for only 50 cents more than 85 sticks of standard stumping powders—with equal strength to the latter, stick for stick, making it cost 2 1/2 cents (30%) less per stick than any stumping powder. Then add its non-freezing feature. These advantages make it certain that Pacific Stumping Powder will be the choice of most farmers in the Northwest for all farm purposes—whether blasting stumps or boulders or planting trees. See your local hardware or general store merchant regarding your season's supply of Pacific Stumping Powder. Write us for descriptive booklet "The Development of Logged-Off Lands."

Come in the next time you are near our store and let us estimate the cost of your blasting work. We can show you the way to cut your dynamite costs nearly one-half.
