Good for That "Flu" Cough

For quick relief from the wearing coughs that "hang on" after the gripe or influenza, take Foley's Honey and Tar. Mrs. K. D. Drake, Childs, Md., writes: "After an attack of the flu that left me with a severe cough nothing seemed to relieve me till I tried Foley's Honey and Tar, which I can highly recommend." It is also good for croup, whooping cough and colds. It puts a soothing, healing coating over the inflamed surfaces, cuts the phlegm, eases hoarseness, clears the air passages. Sold everywhere.

A WORD FOR OUR EX-PRESIDENT.

GIVE the Devil his due. Instead of harking back to ancient history we believe some of our Republican contemporaries might well credit Ex-President Wilson with being a pretty good sport.

Again he has been invited to give his opinion on current political questions and again he has declined. To a man of his egoistic temperament this shows an admirable spirit of restraint. Nothing would be easier than to make political capital and personal capital out of the present situation at Washington. Moreover there is an ex-presidential precedent to justify such action.

But Mr. Wilson even refuses to accept the invitation of an American Legion official to add to his successors' embarrassment. Commenting upon no specific issue he merely calls attention to the fact that in his opinion the ideals he fought for are slowly but surely advancing to fulfillment.

Such an attitude, to our mind, shows a big and magnanimous spirit. It indicates a pretty literal application of the Golden Rule. Mr. Wilson is too experienced a politician not to appreciate the trouble he could cause if he were so disposed. His refusal to play politics, does him great credit and warrants more general recognition on the part of the opposition.

THE TIN CAN.

"I'VE FOUND it quite a prudent plan to use an old tomato tin in which to keep my cash; I don't trust banks," said Sextus Salts, "for burglars break into their vaults, or else they go to smash. So in a tin can I place my wealth, and hide the same, with proper stealth, where none may seek and find; defeating thus the robber's quest. I shed my rags and go to rest with a contented mind." One night some wicked robbers came, bad men who played a sinful game, unmoral, brutal guys; they found old Sextus in his bed, and roundly smote him on the head, and rudely bade him rise. "We've heard about your old tin can," exclaimed a masked and stalwart man, "and we are here for biz; we haven't time for quip and gag, we haven't time to chew the rag, so tell us where it is." What followed is too fierce to tell; the neighbors heard poor Sextus yell two parasangs away; they saw him hobbling up the street on tortured legs and blistered feet, when came the break of day. "The robbers got my old tin can," he wailed, "and I'm an also ran, a has been in the hole! They baked my feet, these men of sin, they burned the whiskers from my chin, and made me show my roll!" It is an old, yet truthful tale; and still poor boobs will hide their kale in cans, like Sextus Salts; but I am wiser than the push, and I have stored my hard-earned cash deep in the banker's vaults.

GRADUATE NURSE TRIED FOR MURDER, WEEPS COPIOUSLY

NEW YORK, Mar. 28.—In a court room crowded to the doors, selection of a jury to try Miss Olivia M. P. Stone on a charge of murdering Ellis Guy Kinkead, former corporation counsel for Cincinnati, continued today before Supreme Court Justice Ashland in Brooklyn. She was the first woman to be tried in Kinkead's court on an indictment for first degree murder in many years.

Miss Stone, a graduate nurse, shot Kinkead last August on a Brooklyn street near his home. She claimed that she had been married to him, but that later he had married another woman. After brooding over the affair for several months she asserted she followed him from his office and fired as he neared his home.

The defendant's composure deserted during the examination of the prospective jurors and she wept almost continuously, each mention of Kinkead's name being the signal for a fresh outbreak.

Up to the adjournment for luncheon, six men had been chosen tentatively for the jury. All of them said they were not opposed to capital punishment for women and all agreed they would not be influenced by "outbursts of emotions."

Mrs. Kinkead, widow of the murdered lawyer was in court. She was accompanied by neighbors.

No Spring in Sight On the Pacific Coast

SAN FRANCISCO, Mar. 28.—Apparently it will require an act of congress or a mass meeting of indignant citizens to convince the weather man that spring has come. Here is the choice assortment he has collected for Pacific coast consumption during the next 24 hours:

California—Unsettled with showers; Washington and Oregon, rain; added to the foregoing is a southeast gale that will make firesides popular along the seaboard.

What's a "Cheap" Tree?

There's only one answer to that question. The CHEST tree that money can buy is the only "CHEAP" tree there is, and that kind of a tree can always be had of us at a fair and proper price.

And again—there's only one place to buy good dependable trees—and that's of a reliable nursery which grows and sells its own products under the same guarantee of genuineness, quality, and condition as would your diamond or drug dealer.

We've grown, sold and delivered trees from Toppenish for 19 years. We are nurserymen exclusively—its not a side line with us to be dropped after we've made a quick "clean up" and get away. We've stuck to our job through thick and thin and the quality of our stock, the condition in which it reaches the customers and the results obtained have brought us an increasing number of customers every year.

You can't obtain "figs from thistles," nor expect good results from poorly rooted, carelessly grown and recklessly handled trees. Visitors to our packing house these very days are astonished at the volume of orders being packed and shipped, and the uniform care and inspection given every order that goes out—and this season there are between twenty-five and thirty thousand orders.

More "bulk" doesn't make for reliability, but age and size does permit a permanent organization with trained employees at every vital spot—and that's what we have. Our departments from top to bottom carry employees who have been with us from five to fifteen years.

No peach borers, no bugs or pests, no fungus diseases, no call stock grown or delivered by us. If we can't sell you good trees at a price that enables us to give you quality and service, we'll not book your order nor accept your money. And your money is as good as your neighbors'. One price to all alike. No deviation.
