WASHINGTON, March 29.—Virtually without opposition the senate ratified late today the arms conference treaty regulating the use of submarines and poison gas. The vote was unanimous 71 to 0.

WASHINGTON, March 28.—The arms conference naval treaty was ratified today by the senate. The senate's approval of the pact was voted without reservations or amendments and with republican and democratic "regulars" and "irreconcilables" generally standing together in its support.

The ratification was 74 to 1, Senator France, republican, Maryland, casting the only negative vote. Of the 75 affirmative, 48 were republican and 26 democrats. Announcements were made that all absent and paired senators favored ratification.

WASHINGTON, March 28.—The joint resolution already adopted by the senate authorizing a 25-year extension for payment by Anatria of \$25,000,000 for flour purchased through the United States grain corporation was adopted late today by the house.

## IN CASE OF STRIKE PACIFIC COAST CAN GET ALASKA COAL

WASHINGTON, Mar. 29.—Pacific coast states, in the event of a prolonged coal strike could obtain some relief from the navy's Chikaloon coal field in Alaska. It was said today at the bureau of mines. Although the field at present has an output of only 250 tons a day, many times this amount has been stored by the navy so that initial shipment would amount to several thousand tons.

Ship transportation from Seward or Anchorage to the states, it was said, could be furnished by the shipping board which has a number of Lake type vessels tied up on the Pacific coast.

DENVER, Mar. 29.—District attorneys in Colorado counties where coal mines are located have been asked to start criminal proceedings against all miners in their counties who quit work April 1, without giving 30 days notice of intention to do so as required by a state law, according to William J. Reilly, a member of the state industrial commission.

## Bomb Explosion in Church Fails to Disturb "Pussyfoot"

GREEN BAY, Wis., March 29.—Investigation was begun today by the police to determine the origin of a bomb which was set off in the Congregational church here last night during an address by Lewis R. Horton, Spokane, Wash., prohibition worker.

The bomb, made from gun powder and loosely packed in a small box, exploded as it was being carried from the building by E. C. Walker. Mr. Walker's arm was severely burned.

About 500 persons who had congregated to hear an address by William E. (Pussyfoot) Johnson, internationally known prohibition worker, remained seated, although about ten ran from the church and one woman fainted. The explosion was mild. Mr. Johnson spoke as scheduled but made no reference to the bomb incident.

## "TEX" RICKARD ACQUITTED ON GIRL'S CHARGE

Great Demonstration in Court When Jury Returns Verdict of Not Guilty—Further Charge to Be Dropped, Declares State.

NEW YORK, March 29.—George L. (Tex) Rickard, sports promoter, who was acquitted of the charges of assault and abduction in superior court early today, probably will not be called upon to answer three similar indictments that have been found

against him by the grand jury. This was indicated by Ferdinand Pecora, assistant district attorney who conducted the trial of Rickard on accusation made by Sarah Schoenfeld, aged 15.

After the jury had reported its finding to the court Mr. Pecora said: "I want to look over the proofs of the other cases before I come to any definite decision. I have not had time to consider them yet, as I have

a woman fire several times at a man. The man fell and the woman continued to fire, he said. John J. Barwick testified he saw Miss Stone fire two shots at the man's back—then three more after he toppled into the gutter. Detective Flynn testified that Miss Stone slept an hour in a chair when she was taken to the Clason avenue police station and that upon awakening she inquired: "Did I kill him?" She was told that she only shot Kinkaid in the leg. Flynn testified, whereupon she said: "I wish I had killed him. I'd be willing to go to hell and have hot coals on him."

## MURDER AND ARSON GROW IN IRELAND

Burning of Trains Forces Railroad to Suspend Operations at Night—Reprisals Continue—Sinn Fein Plot for Military Dictatorship Revealed—London Hopeful.

DUBLIN, Mar. 29.—(By the Associated Press)—William Fleming was shot and wounded fatally on his farm in county Armagh. He died in the Armagh infirmary. Fleming's brother is a member of the special constabulary and the attack is believed to have been in reprisal for the shooting of a man by the specials on St. Patrick's day.

Lisap Lodge, a mansion in Tyrone county, was destroyed by fire today. The rapid spread of flames indicated that petrol had been used freely by the incendiaries. A freight and mail train bound for Dublin was derailed by a large party of armed men near Newry early today. Nine cars were burned.

In consequence of this incident, the Great Northern railway has decided to suspend operation of all main line traffic at night, except locals. Ulster special patrolling the Aragh-Louth frontier were fired upon when they inadvertently crossed into free state territory. One constable was wounded. The fire was returned with unknown results.

DUBLIN, Mar. 29.—(By the Associated Press)—The convention on Sunday of revolting members of the Irish republican army debated the question of establishing a military dictatorship deferred action thereon, says the correspondent of the London Star in a dispatch to his paper. He gives as his authority a statement issued from the Biggar's Bush barracks this morning which says the proposal before the convention was to overthrow all parties in Ireland opposed to a republic.

According to the correspondent, the report of the convention is vouchered for by the regular headquarters of the Irish republican army in a statement which says the following resolution was offered by Thomas Barry and Frank Barrett: "Resolved: That matters of immediate concern for the executive will include: "First: Maintaining Ireland as an independent republic; "Second: Appointment of a chief of staff who will appoint a general headquarters staff. Appointments can be vetoed by the executive. "Third: Declaration of dictatorship. For this purpose the executive shall be empowered to secure the services of others who need not be members of the executive, with a view to ordering the dissolution of all present governments in Ireland by the promulgation of parliamentary elections until such time as an election without the threat of war by Great Britain can be held on adult suffrage."

The statement proceeds: "The dictatorship would overthrow the three governments in Ireland opposed to the republic, namely, the Gaelic, British and northern governments."

Finally it was decided that the resolution should be submitted to the executive committee to suppress by declaration and that the executive council should give its opinion at the next convention to be held April 9.

The convention empowered the executive committee to suppress the election if it saw fit, the statement says. The delegates argued that the question of finance need not trouble the movement, as money could be had for the taking. The nationalist press could be dealt with by commandeering its machinery or using the sledge. The chief of staff and military council are to be selected from the executive committee which is meeting today to frame a constitution.

Campaign Suspended. DUBLIN, Mar. 29.—(By the Associated Press)—Republican members of the Dail Eireann at a meeting here yesterday adopted a resolution proposing immediate suspension of the political campaign in southern Ireland in order that the factions may unite to "compel cessation of the murder of Catholics in Belfast." The resolution declared that the division in the Dail and the country was caused solely by the proposal to accept the Anglo-Irish treaty and asked the Dail cabinet and the majority in the Dail to proceed no further with their campaign, allowing public attention to become concentrated on the situation in Ulster.

The Freeman's Journal, in commenting on the action of the meeting, says the appeal for joint action is an excellent sign of unity, but asks how unity is actually to be achieved. Eamon DeValera's answer to this, the newspaper says, would be to scrap

## ONLY MIRACLE CAN NOW STOP COAL WALKOUT

Anthracite Committee Still Hopes, However, to Shorten Duration of Strike—Miners Insist On 20 Per Cent Increase in Wages.

NEW YORK, Mar. 29.—(By Associated Press). Castro, aside as a "remote possibility" the prospect of settling their differences in time to avert the general strike set for three days hence, members of the anthracite sub-committee on wage contract negotiations today girded themselves for a long, hard struggle over the miners' nineteen demands.

"Nothing but a miracle—the immediate acceptance of each and every one of our demands—can avert the strike now," said Thomas Kennedy, district president of the United Mine Workers.

"Under the present circumstances it is possible that the suspension will go into effect April 1, according to the miners' program," said S. B. Warringer, vice president of the Lehigh Coal and Navigation company.

Although sanguine of the ultimate success of the negotiation now in progress the six other members of the anthracite sub-committee composed of union chiefs and mine operators were convinced that the mines would be evacuated Saturday.

## DEATH STILL LURKS IN SHADOWS OF HOSPITAL FOR THE SIAMESE TWINS

CHICAGO, Mar. 29.—Death still lurked in the shadows of the hospital room where lie Josepha and Rosa Blazek, the twins who were joined at birth and have been called "the Siamese twins." They continued in a semi-conscious state, Josepha entirely oblivious of her surroundings and Rosa in a comatose condition. The long-talked-of operation to separate them is entirely contingent on the death of one which physicians have said would mean the death of the other. Should Josepha die of the yellow jaundice which has stricken both, Rosa might possibly live two or

## STATE ENDS TESTIMONY FATTY CASE

Evidence Damaging to Defendant Introduced When Victim's Dying Statement Is Admitted—Doctor Testifying for Defense Declares Miss Rappe Intoxicated.

SAN FRANCISCO, March 29.—Continuation of the cross examination of Adolph Juet, fingerprint expert of the San Francisco police department and first witness for the defense opened the session today in the third trial of Roscoe Arbuckle on a manslaughter charge in connection with the death of Miss Virginia Rappe.

The state closed yesterday with the testimony of Mrs. Virginia Briggs, private secretary at the sanitarium where Miss Rappe died. Mrs. Briggs testified that Miss Rappe made a deathbed statement to her that Arbuckle seized her by the arms, drew her on the bed in his room, and placed his weight upon her.

Dr. M. E. Rumwell, who attended Miss Rappe from the day after the Arbuckle party until her death, said she told him on his first visit that she had been intoxicated the day before. The diagnosis of the case which included this statement was introduced by the defense over the objection of the prosecution. Dr. Rumwell said Mrs. Bambina Maude Delmont, who swore to the murder complaint against Arbuckle on which he was first formally arrested was present most of the time that he attended Miss Rappe, but he was not permitted to relate any of the conversation he had with her. After Miss Rappe's death, Dr. Rumwell testified, he noticed for the first time bruises on her arm that apparently were caused before her death. They might have been caused by someone taking hold of her arm forcibly, he said.
