

TRIGONIA WELL IS NOW MAKING 15 FEET PER DAY

The Trigonía well is now making from 12 to 15 feet per day. The last 35 feet is in gypsum sand, lime cemented, and shows considerable petroleum gas, which is readily lit as it boils over at the top of the boiler, and burns for some time. A remarkable fact according to the Trigonía officers is that every halting shows gas, which is considered positive demonstration that all the volatile elements have not been destroyed in this region. And also proves they say, it is reasonable to expect oil in commercial quantities within the next few hundred feet.

The public should support this effort, the company declares, to a satisfactory conclusion, not only on account of the potential actual value of the stock, but the enormous benefit to the community. There are some large property owners and business men who have not supported this enterprise, and others only in a very small way.

NEW OIL-BURNING ENGINE BOUGHT BY P. & E. RAILROAD

The Pacific and Eastern Railway has recently received from the Porter Bros. shops in Pittsburg, Penn., a new, prairie type, 82-ton, oil burning locomotive. The new engine was shipped from Pittsburg via San Francisco and arrived here via the Southern Pacific several days ago.

A test run was made with the new locomotive about the first of the week and the functioning was above the highest expectations of the officials of the road the engine having drawn 25 cars from this city to Eagle Point and passing over the grades in the steepest places without difficulty.

It is understood that a number of men have been employed all winter getting the road in condition for operation this spring and that the work is nearing completion. It is expected that the transportation of logs from the Butte Falls timber district will soon begin and that the mills will start operation in the near future.

The Medford sheet metal works has constructed a galvanized iron tank of 7000 gallons capacity for the storage of the fuel oil to be used in the locomotive.

CLAIM SALOON LEAGUE FORCES BEHIND LOBBY

WASHINGTON, Mar. 31.—Charges that "paid lobbyists" of the anti-saloon league were working among senators in behalf of the bill to create 19 more federal judges were made in the senate today by Senator Shields, democrat, Tennessee, in opposing provisions of the bill authorizing an assignment of judges to different states. The bill was taken up again today by the senate.

Senator Shields attacked particularly the assignment feature. "There are now, before this bill has become a law," he said, "selfish interests that are contriving and conspiring to take advantage of it to control the courts and judicial decisions by securing the assignment of judges in sympathy with them and who have fixed convictions upon the law and the facts, to try their cases."

"I am reliably informed that the anti-saloon league through its paid lobbyists, is attempting to influence senators to vote for the provisions of this bill, giving the chief justice the power to assign judges in his discretion to courts and, of course, to try certain cases pending in those courts."

ACCUSED OF IMMORALITY

(Continued from Page One)

says that an investigation of the colony's affairs was started today together with the seizure of four children of the colony by the juvenile court.

The children taken by the court are the two sons and a daughter of Mr. and Mrs. G. Strauss, members of the colony and Willis Riker, son of "Mother Lucille" and "Father" W. J. Riker, who were indicted by the San Francisco grand jury recently following an investigation of the cult.

Attorneys for the colony deny the charges against it.

MINERS IN EAST STRIKE

(Continued from Page One)

SEATTLE, March 31.—Approximately 2,600 coal miners in Washington, the majority of them employed in railroad mines in the Cle Elum Roslyn field will cease work at midnight tonight, according to district officials of the miners' union there.

Most of the commercial mines in the state are unaffected by the strike order. They were placed on a non-union basis in the summer of 1921, and have been operating recently at nearly normal capacity, operators said.

Miners' officials said that the strike in union mines would be 100 per cent effective. While authorities, especially in the Cle Elum-Roslyn fields have taken steps to prevent any disorders in connection with the strike, no alarm was felt, and it was believed little trouble would result.

The stoppage of work in the mines, it was believed by those in touch with the situation, would not render the fuel situation in the Pacific northwest acute. It was pointed out that a nearly normal supply of commercial coal would be available and that officers of the Northern Pacific railway, a subsidiary of which operated most of the Cle Elum and Roslyn mines, recently announced it had a three months' supply of coal on hand.

Miners on Vancouver island, British Columbia, where a large tonnage is produced annually, are not unionized and are not affected by the strike call. Railroads operating in the northwest were reported to have large stocks of coal stored.

In event of any serious shortage, it was stated, coal could be brought from the fields adjacent to the Alaska railroad.

Kansas Gives Wage Increase

TOPEKA, Kas., March 31.—As the country approaches the impending coal strike, further developments were awaited here today following issuance of an anti-strike order yesterday by the Kansas industrial court. The court ordered the present wage contract in the Kansas coal field in effect thirty days following April 1.

INDIANAPOLIS, March 31.—The Kansas industrial court order extending the present wage agreement between operators and miners in Kansas for thirty days will not stop the suspension of work by union miners at midnight tonight, according to President John L. Lewis of the United Mine Workers of America.

"The strike in Kansas will become operative at midnight and will be thoroughly effective," declared Mr. Lewis.

PEACE DECLARED IN IRELAND

(Continued from Page One)

that the agreement signed last night in London was to be effective immediately. The agreement provides for reorganization of the special police force. In districts where the population is of differing religious beliefs, these forces are to be composed half of Catholics and half of protestants. All members of the special constabulary not required for these forces are to be withdrawn.

Co-operation Pledged.

BELFAST, Mar. 31.—(By the Associated Press)—Sentiment in northern Ireland, as reflected by the press comment, welcomes the signing of the agreement aimed at suppressing the reign of disorder, but the editorial writers point to some of the difficulties to be overcome. The Belfast News says the agree-

ment has one merit which is worth a great many concessions, namely, the promise of co-operation between the Catholics and protestants in support of the northern government in its efforts for peace.

The Northern Whig, unionist, while admitting there is promise of brighter days, thinks it is a promise only.

BELFAST, Mar. 31.—(By the Associated Press)—A patrol of special police returning from duty today was ambushed in hill street, Newry. Constable Allen was shot dead and Constable Waring was wounded. While the other members of the patrol were picking up Allen and Waring, they were fired on with machine guns.

Two more men were shot and seriously wounded in the streets of Belfast last night and a bomb was thrown. No one was injured by the missile.

Would Seize Dublin. LONDON, Mar. 31.—(By the Associated Press)—It is widely believed in Dublin that the armed raid on the plant of the Freeman's Journal yesterday was part of a project for the seizure of the whole city which failed through the lack of forces, says the Daily Mail correspondent. The Daily Mail in printing the dispatch appends a note to the effect that the telephone operators in Dublin suddenly cut the connection during the transmission of the message, which is incomplete.

CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic laxative in the world to physic your liver and bowels when you have Dizzy Headache, Colds, Biliousness, Indigestion, or Upset, Acid Stomach in candy-like "Cascarets." GOV. OLCOTT APPOINTS A GRANTS PASS MAN

SALEM, Ore., Mar. 31.—W. B. Barrett of Heppner today was reappointed by Governor B. W. Olcott as a member of the state highway commission. The governor also announced re-appointment of F. W. Hollister of Portland, and W. W. Walker, Grants Pass as members of the state board of dental examiners.

Talcum Powder Fatal To 8 Month's Old Girl

OMAHA, Neb., March 31.—The eight months' old baby daughter of Mr. and Mrs. Glen Peebler of West Point, Neb., died in a Freemont hospital last night from what physicians said was congestion of the lungs resulting after talcum powder had been sprinkled on the infant's face by her three year old sister, while they were playing on the floor of the family home last Wednesday.

SOCIAL PRESTIGE

Society makes certain demands of its members. The most important of these is for the correct thing at the correct time. Elegant stationery is indispensable to one who does the correct thing in society.

A wedding announcement, an at home card, or even a visiting card is eloquent of its sender. Engraved stationery at once marks its user as a person of refined taste.

Wedding announcements, invitations, and visiting cards made by Martin J. Reddy, will insure you the desired degree of correctness. We are in a position to give you a twenty-four hour service in copperplate and die engraving, something never before possible in Medford.

Bring in your copper plates and dies, and let us show you the work we can do.
