

MARSHAL JOFFRE IS EXPECTED HERE THIS WEDNESDAY

SEATTLE, April 1.—Marshal Joffre will leave Seattle Monday night for Portland, Ore., where on Tuesday he will attend ceremonies officially opening the Oregon section of the Pacific highway, according to plans announced here today.

The marshal's party will leave Portland early Wednesday morning for San Francisco, arriving there the morning of April 8. A stay of four days will be made there. Present plans call for the marshal to proceed directly to Washington, D. C., from San Francisco, stopping at Denver and other cities en route.

Because of the marshal's fatigue recently from his recent ocean trip, invitations for him to visit a number of Pacific coast cities have been declined.

FRANCE HEDGES IN REPLY TO U. S. PAYMENT NOTE

PARIS, April 1.—(By the Associated Press.)—France replied today to the note from the United States concerning payment of the costs of the Rhineland. The French note repeats the recent declaration of the minister of finance before the senate that France recognizes the rights of the United States in the matter. The only question is to whom the request for reimbursement should be made—to the allies or to Germany, the note says.

RAILROADS SCORED FOR EXTRAVAGANCE BY I. C. COMMISSION

WASHINGTON, April 1.—Contracts with outside locomotive construction companies during 1920 for the repair of engines cost the New York Central and Pennsylvania railroads each approximately \$3,000,000 more than the same work would have cost in their own shops, the inter-state commerce commission found today after an investigation.

SHERIFF'S FIGHTING SPIRIT IS BROKEN BY MOTOR CRASH

WENATCHEE, Wash., April 1.—Sheriff Forsyth of Chelan county is turning in his resignation today effective May 1, following on the heels of an automobile accident last night in which he suffered a broken rib.

In a statement given out today, Sheriff Forsyth said: "I have been on the job for fifteen months. I have tried to do my duty as a public officer. The accident, which occurred last night is the cause of new stories all over the street. A bunch of people of this city are like a band of hungry wolves waiting for something to talk about, waiting to find some fault with the sheriff. I feel the annoyance is greater than I should be asked to stand and I am ready to quit. My resignation will take effect the first of May. This will enable me to clear up the criminal cases I now have on hand for the coming term of court. I do this in fairness to the county, as there is much unfinished business and it is my desire to leave the office in good shape."

EX-EMPEROR CHARLES DEAD

(Continued from Page One) Hungarian government, on the demand of the allies passed a bill in the national assembly deposing him and permanently ousting the Hapsburg regime. A few days later he and Zita were conveyed by a British warship to Funchal where they arrived November 13, 1921. III Only a Week Charles was taken ill slightly more than a week ago. He was first said to be suffering from fever but direct advices from Funchal on March 28 announced that his malady was bronchial pneumonia and later it was stated that he was suffering from pneumonia with cerebral complications. His condition became so serious Wednesday that extreme unction was administered. There was some improvement in the former ruler's condition Wednesday night but he failed to maintain this gain, and Friday's advices were that he was growing worse rapidly. The illness of the ex-ruler created widespread sympathy among the monarchists in both Vienna and Budapest. One of the former court physicians started from Vienna in the hope of reaching Funchal and attending the ex-monarch, a subscription of several million crowns having been raised to defray the expense while in Budapest it was reported that Count Julius Andrassy had sold a famous Rembrandt for 300,000 francs to assist the exile.

SHOTS FIRED IN COAL STRIKE (Continued from Page One)

when 7,000 mines could produce sufficient coal for the nation's needs," he declared. "The reason for this condition is the greediness of corporations who hold undeveloped coal lands to make them pay profits. New mines are opened before there is a market for the products, millions of dollars are invested in properties that can only work part time, 150,000 more men than the industry can keep employed are drawn into it. "We have seasons of great activity in all these mines followed by long periods of idleness. Men are required to live 365 days on the earnings of from 40 to 200 days. There is a huge waste of human power, of money and of coal—followed by strikes." To prevent such strikes, Murray proposes that congress pass "regulatory legislation prohibiting further development of bituminous coal lands for at least ten years." "The public," he said, "would be enabled to satisfy its coal needs for a reasonable price and over-development, the great disease with which the industry is afflicted today, would be cured, but an industry that persists in paying its labor only 200 days of the year must continue to feed it for the full 365 days."

HARDING IS NEUTRAL

WASHINGTON, April 1.—Decided on a policy of non-intervention at least at this stage of the dispute, the administration viewed the beginning of the national coal strike in anthracite and bituminous mines today with the protection of the general public in the matter of coal supply and prices as the uppermost concern of officials. This they believed was assured both by existing conditions and the present coal surplus, in addition to production at non-union mines during the strike. That the administration is convinced that immediate intervention, in legal or extra-legal ways, would be futile and unnecessary was made known last night at a final White House conference on the question. President Harding had been urged during the day to make a further attempt to bring the operators and miners together but it was later stated at the White House that no action was advisable at this time. Refusal of the operators to confer with the miners at the government's solicitation, it was stated, had left the government with nothing more to do than the general welfare demanded.

COLUMBUS, APRIL 1.—Union coal miners of Ohio numbering approximately 50,000, who answered a nation wide strike call effective at midnight last night were believed to have brought about an almost complete cessation of mining operations, reports received here today indicated that a few small mines would remain in operation but that practically every large one would be closed.

FAMILY LOST ALL IN FIRE, NEED HELP

Here is a chance for charity inclined people to help out Mrs. Etta Ragan and son. Mr. and Mrs. Ragan and 19-year-old son lost everything they possessed in the early morning South Grape street fire in the business section Thursday, except what they had on their backs. Mrs. Ragan had operated a hand laundry for several months in a small store room, which also served as the Ragan home. The fire destroyed everything, including \$79 in bills, her laundry savings, and her eye glasses. She would especially like clothing for her son and herself and to be financially able to replace her eye glasses. The family is just in need of temporary assistance until they can get on their feet again. Mrs. Ragan and son are temporarily located in the cottage at 44 South Grape street.

Are Your Teeth Infected? There is a widespread movement all over the United States to educate the public about the dangers of infected teeth, or Rigg's Disease. The most common symptoms are bluish-red gums that bleed easily. The disease attacks the tooth roots and causes a poisonous pus to form. The pus gets into the blood and causes rheumatism, neuralgia, stomach disorders, heart and kidney troubles, epileptic fits, ulcers, and many other diseases. The doctors are advising everybody to have a good dentist examine their teeth, as it is said eighty people out of every hundred have Rigg's Disease. It can be cured in its early stages, and when well advanced can often be controlled. Progressive dentists are waking up on the situation, and are advertising their services in the newspapers. When a man is able to do good work, whether dentistry or anything else, he ought to let the public know about it through advertising. DR. O. J. JOHNSON 228 East Main St. Phone 609
