

TED THYE WILL WRESTLE RAY AT G. HILL APR. 11

The Gold Hill Boxing commission will stage its first smoker in several months next Tuesday evening, April 11th, when Ted Thye of Portland will wrestle Tom Ray. Thye will weigh 165, Ray 170 pounds, and the winner of the combat will be matched with Ralph Hand. Ray is a protegee of Farmer Burns, and is a tough bird to throw.

A preliminary will be a boxing bout between Johnny Carlson and a Portland boxer that Thye will bring down with him. He has been commissioned to pick out somebody who will give the Carlson boy a struggle.

The Gold Hill commission expects to give a number of wrestling and boxing matches during the spring and summer, one object being to put Ralph Hand up in the ranks, by having him meet the best wrestlers on the coast, one contestant being Mike Yekel of Salt Lake City.

HIGHEST COAL RECORD JUST BEFORE STRIKE

WASHINGTON, April 3.—A production of 11,437,900 tons—the highest recorded since a week in December, 1920—was reached in the bituminous coal industry during the week ended March 25, according to figures compiled by the geological survey. "First activity in anticipation of the strike," was said to have been largely responsible for the heavy output.

"This confirms the survey's forecast that stocks in the hands of consumers would reach 35,000,000 tons by April 1," the statement said, adding that at least 3,000,000 tons of the production of the last reported week would be added to reserves.

LLOYD GEORGE MAKES APPEAL

(Continued from Page One)

not know who will succeed us, but I would like to utter a word of kindly warning:

"Whoever succeeds us will find it impossible in the present state of Europe to go on without conferences. The world is embattled, bruised and crushed that the cure will be a slow one and will need many consultations of its leading physicians."

"One of the most essential problems to be dealt with, continued Mr. Lloyd George, was the restoration of the machinery of international trade. He adduced some figures on this trade, pointing out how vital it was to Great Britain and continued:

"One of the first things that will have to be attempted at Geneva is the restoration of exchanges."

Exchanges, continued the premier must be stabilized at a maintainable figure which must therefore be constituted on a reliable basis of international commerce. The nations must be induced to balance their budgets as otherwise the currency would be debased and the divergencies in exchange become wider. This was a matter, he said, where pressure could be exercised by an international conference of the leading ministers of the various nations.

Discussing the question of peace in Russia and "peace with Russia," Mr. Lloyd George said Russia could not get capital without securing confidence and internal as well as external peace. Germany could not fully pay her reparations until Russia was restored, he declared, and Russia must recognize all the conditions imposed upon and expected of civilized communities, as a test of her fitness for entering the community of nations.

IRISH ARMY ON RAMPAGE

British Ship Seized

LONDON, April 3.—(By the Associated Press.)—The British ordnance steamer Upton which was seized off the Irish coast last week by raiders, who stowed its cargo away in some unknown place, contained 400 rifles, not 20,000, as had been reported.

700 revolvers, 39 machine guns and 500,000 rounds of rifle ammunition, together with a small quantity of explosives, it was stated in the house of commons today by Winston Churchill, secretary for the colonies.

It was announced earlier that the admiralty had entered an inquiry into the seizure.

A Dublin dispatch Sunday giving an account of the parade of the Dublin battalion of the Irish republican army, when more than 3,000 men marched away to Smithfield and took an oath of allegiance to the republic, quoted a statement by Koderick O'Connor, one of the leaders of the republican movement in connection with this seizure.

Mr. O'Connor in addressing the men declared that Richard Mulcahey, the Dail Eireann minister of defense, had caused the seizure of the republican army's munitions and grenade factories in Dublin and elsewhere and that the republicans had replied to this by seizing at Cork a British ship loaded with explosives.

Soldiers Desert Government
DUBLIN, April 3.—(By Associated Press.) Official figures given out today show that 322 men left the five Dublin battalions of the Irish republican army yesterday afternoon, marching to Smithfield where they took an oath of allegiance to the republic freeing themselves from any further responsibility to the Dail Eireann.

MULLINGAR, County West Meath, April 3.—An incident from which sensational events are expected occurred here today when 100 free state troops marched to the gates of the barracks occupied by the Irish republican army adherents of Eamonn DeValera and were refused admission.

BELFAST, April 3.—John Mallon, answering a knock at the door of his home in Skegoniel avenue last night was confronted by a gang of men who asked if his son was in the house. Upon replying in the negative, Mallon was shot dead. A bomb thrown into the bedroom in the house of John Simpson in Arlington street wounded two children, aged 3 and 6.

MINERS BLAME OPERATORS

(Continued from Page One)

miners from each state herein represented, together with the international officers of the United Mine Workers' organization.

Claim Breaking Faith.

"The mine workers of the country believed that the coal operators signed the agreement in good faith, but we now find that they contemptuously refuse to live up to their agreement. They have refused point blank to do as they agreed they would do. If they refuse to liquidate their financial obligations, it would be no more dishonorable than their refusal to keep their solemn agreement with the mine workers."

"On two occasions since the month of December, 1921, the operators have been formally invited by the mine workers representatives to meet in joint conference at a designated time and place for the purpose indicated in the agreement. On each occasion our invitation has been refused."

"P. H. Penna of Indiana, the chief spokesman for the coal operators of the central competitive field in an interview said:

"I cannot deny that our refusal to meet is a violation of our agreement. 'In the face of such brazen and uncompromising attitude on the part of the coal operators the mine workers had no alternative but to quit their work when the agreement expired and await the making of another agreement. It is particularly unfortunate that hundreds of thousands of men must be withdrawn from the industry to the detriment of the social and economic well-being of our country before a joint conference can be held and an agreement negotiated. The responsibility must clearly rest upon the shoulders of the coal operators. Their attitude should rightfully bring down upon them the moral censure of an outraged citizenship."

"The public can follow its own reasoning in defining the motives of the operators. Whether it be their mere sordid desire to enrich their already teeming coffers, or whether it be their futile hope to destroy the United Mine Workers of America and beat the miners backward, it is equally reprehensible.

"The mine workers are still ready to meet the operators at any time such a meeting is possible."

PINE BLUFF, Ark., April 3.—Fire destroyed the main sawmill of the Arkansas Short Leaf Lumber company here early today with a loss of \$500,000.
