Your Trees Are Protected

Trees and plants are live perishable things. It's a marvel the abuse they sometimes stand and yet live, but it's also true that like the animal kingdom, abuse and neglect of any kind stunts their growth. We don't know all about plant life but we practice what we do know. Your trees and shrubs purchased of us are not only grown on clean soil, thoroughly cultivated to develop a perfect root system, and well matured in the fall—but they are also dug and handled with every care. We use an eight-horse team on a big two-beamed tree digger with a wide semi-circular blade that cuts entirely under the roots from one side to the other at a depth of 18 inches. This gets the roots we have so laboriously produced and without which the tree or shrub has a hard time re-establishing itself. The trees are immediately hauled by auto truck, covered and roped under large canvas tarpaulins, into our big cool insulated packing house where they are always handled and packed under cover. We use stout boxes, paper lined, with moist cedar shingle tow for packing material. That gets the trees to you in the best possible condition. If there were a better or more practical way we'd use it. We still have most of the leading varieties of fruit trees, shade trees, shrubs and roses ready for immediate delivery, or when necessary can hold dormant in our cool storage till your ground is ready. Write us your wants or see our nearest representatives.

TRYING TO FORCE GOVERNMENT TO TAKE OVER R. R.'S

FREEMONT, Ill., April 6.—The belief that railroad rates are going to be reduced was expressed here today by C. H. Markham, president of the Illinois Central Railroad company in an address before the Rotary and Kiwanis clubs of this city. "I believe rates are going to be reduced," Mr. Markham said. "How soon, I cannot say. It ought not to be until traffic is increased to the point where earnings will be sufficient to safeguard the public's tremendous stake in the railroads and when costs have been still further reduced."
Mr. Markham made his prediction following an outline of methods employed in financing and operating railroads. He pointed out that railroad executives, recognizing disturbed business conditions of last year, refrained from asking that rates be increased, despite the fact that "existing rates fell short every month during the year of earning the return designated by law as fair and reasonable."
"The railroads did take notice of troublesome agricultural conditions," added Mr. Markham, "and January 1, 1922 they put into effect reductions in freight rates on farm products which will cut many millions of dollars off their revenues this year."
After his discussion of rates and their relation to financing Mr. Markham told of his controversy with Glenn E. Plumb, author of the Plumb plan of railroad operation. He declared that Mr. Plumb "knew that his plan for syndicalist operation of the railroads will never be adopted and he is seeking to bring about such a state of public opinion among employees and the public that the government will be forced to take the railroads over."
"Nationalization of the railroads," said Mr. Markham, "would be the first step in a scheme for the nationalization of all industry—the coal mines, the packing plants, our factories, every business institution in the country. If we recognize this movement for what it really is, in time we will nail it. Otherwise it may get the best of us."

BRING BACK FIVE CENT SODA WATER WITH FREIGHT CUT

OLYMPIA, Wash., April 7.—Reduction in freight rates that will bring back the five cent bottle of soda water in all towns of the state is asked in petition received today by the department of public works from the Washington State Bottlers association. The bottlers declare the present rates of 55 cents per hundred for full bottles and 47 cents for empties should be reduced to 47 cents and 23½ cents respectively on bottled soda water and cereal beverages.
The manufacturer receives \$1.53 on each case after paying freight and war tax without considering extra handling charges, which does not give him a reasonable profit on his investment, it is maintained.
The retailer is forced to raise the prices on the beverages or refuse to handle them on the present margin, it is said, and the petitioners believe that more bottled goods will be moved if the tariffs are lowered.

CHARLES' FUNERAL IMPRESSIVE ONE

FUNCHAL, Madeira, April 6.—(By Associated Press.) Perfect weather marked the funeral of former Emperor Charles of Austria-Hungary yesterday. The coffin, covered with the old Austria-Hungarian flag and smothered with floral crosses and wreaths was conveyed to the temporary mausoleum erected in the parish church.
The ceremony was impressive and was attended by members of the former royal family and their suite. The service was conducted by the bishop in full robes and his attending clergy.
The route to the church was lined with people, and nothing but respect was shown as the procession passed. (A Funchal dispatch yesterday said it was expected Charles' body eventually would be sent to Hungary.)

HE WOULD NOT STAY VAMPED, SO SHE KILLED HIM

NEW YORK, April 7.—Assistant District Attorney Warburton told a supreme court jury in Brooklyn that because Ellis G. Kinkaid, former corporation counsel of Cincinnati would not stay "vamped," Miss Olivia M. P. Stone, on trial for his murder, killed him last August. Miss Stone was acquitted of the crime last August.
Addressing the jurors after Edward J. Reilly, defense counsel in his summing up had charged that a "political ring in Cincinnati was out to get Miss Stone," Mr. Warburton said: "When Miss Stone took Kinkaid to Atlantic City (where she claimed to have married him by common law in 1918) she thought he was a nice piece of fruit, just ripe to pluck. She thought he was the right man to vamp and she vamped him, but he wouldn't stay vamped and because he wouldn't stay vamped, she killed him."

NEW YORK, April 7.—Summing up at the trial of Miss Olivia M. P. Stone, graduate nurse, charged with murdering Ellis G. Kinkaid in Brooklyn last August, Edward J. Reilly, defense counsel, charged that the "gang that rules Cincinnati," the city that Kinkaid once served as corporation counsel, was trying to swear away the life of his client.
In dramatic fashion Mr. Reilly charged Kinkaid's widow, who sat weeping in the court room, to defy him to prove his charges that she had been a woman of the underworld and dared anyone to take the stand and testify that his client "this good southern girl," lied.

PRESIDENT PAYS PEARY TRIBUTE

WASHINGTON, April 6.—President and Mrs. Harding, members of the cabinet and other high government officials, as well as Arctic explorers joined in tribute to the memory of Rear Admiral Peary today when a memorial was placed at his grave in Arlington national cemetery by the National Geographic society.
The memorial of white Main granite of her father's own design, was unveiled by Mrs. Edward Stafford, who as Marie Peary was known as the "snow baby" because she was born farthest north of any other white child. Matt Henson, the only member of Peary's party to accompany him on the last dash for the pole, was among the honor guests, as were Roald Amundsen, Vilhjalmur Stefansson and Captain Robert A. Bartlett, the explorers.

Young Men Coming To Northwest; Better Business Predicted

SEATTLE, April 6.—Eugene P. Meyer, Jr., managing director of the war finance corporation, arrived here today for an conference late this afternoon with bankers and representatives of farmers of Washington. Recent observation has revealed, Mr. Meyer said, that a considerable movement of young men "of the desirable type" to northwest farms and industries is under way. In the state of Washington he said banking institutions appear to be caring for the state's productions.
Mr. Meyer said financial conditions throughout the country had improved "enormously" in the last six months. He is accompanied by Gerard Henderson, general counsel for the war finance corporation, F. R. Harrison, assistant managing director, and F. L. Faby, secretary.

CHIEF MEXICAN MINISTER MAY VISIT HARDING

MEXICO CITY, April 6.—(By the Associated Press)—The decision of Minister of Finance De la Huerta to go to New York to confer with the international bankers with reference to Mexico's external indebtedness, as announced in press dispatches last night, has been predicted here for several days.
It is considered that the secretary's journey will be primarily concerned with financial affairs and that if he visits Washington in connection with proposals from the Mexican government, this action will be merely an incident and will hinge largely on understandings arrived at with the bankers. Mexican officials are optimistic over the outcome.
A conference between Secretary De la Huerta and Edward J. Doherty, president of the Mexican Petroleum company who is in Mexico City, is possible in view of unofficial advice that Senator De la Huerta probably will leave Hermosillo today, arriving here by the end of the week.
In well informed circles it is stated that arrangements probably will be made whereby the export oil taxes will be paid every three months instead of monthly as the original agreement provides. The production taxes, however, will be paid monthly, as usual.

HUMAN HYDROPLANE SWIMMING MARVEL MAY COMPETE PARIS

NEW YORK, April 6.—A human hydroplane, John Weismuller of the Illinois athletic club is being discussed to represent the United States at the Olympic games at Paris in 1924.
Still in his teens, Weismuller's ambition is to make world record time for every event on the swimming card. Already he has created records for at least a score of distances in the six months he has been in national competition. He will be 18 years old in June. He was born in Austria, but his family immigrated to Chicago when he was an infant. Until a year and a half ago he was his own mentor. He stands 6 feet one inch, weighs 186 and has unusually broad shoulders, large hands and feet.
Not a day passes that Weismuller does not swim.

Masked Men Kidnap Three
NEW ORLEANS, April 6.—Four men, three wearing white hoods, today kidnaped three pedestrians and carried them away in an automobile, according to reports of witnesses to police. Police are investigating.

Don't "Baby" Corns
Don't pet and coddle, nurse a "doctor" such annoying joy killers. Banish them—quickly, painlessly, forever with
"GETS-IT"
Not only hard corns or soft corns but every kind of corn or callus surrenders to "Gets-It" and peels right off. It takes just a few seconds to stop the pain with two or three drops. Go to your druggist today. Get a bottle of "Gets-It." Your money back if it fails to peel them off. Used by millions. Costs but a trifle. F. Lawrence & Co., Inc., Chicago.

LEGION LEADER IS DISSATISFIED WITH U. S. POLICY

CHICAGO, April 6.—Declaring that the American Legion was not satisfied with the facilities for hospitalizing disabled war veterans and that the "success of the whole system of vocational training still is in the balance," A. A. Sprague, chairman of the legion's rehabilitation committee today asserted that a recent statement by the United States veterans' bureau of the work it was doing "conveys impressions that may be misinterpreted or misunderstood."
"Of the 30,000 ex-service men now in hospitals, nearly one-third are still in contract hospitals," Mr. Sprague said, "thousands of mentally disabled men who would have been cured or partially so, with proper care are still kept in state institutions under conditions which are distressing to all those who believe they can be cured."
"Thousands of tubercular men have been held back by unsatisfactory treatment. Some, within the last few weeks have been sent back to county poor farms, instead of government hospitals."

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.
Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.
A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite, it is not intended for the cure, mitigation or prevention of disease.
