DOUBLE CHIN NO BAR FOR EDDIE

NEW YORK, April 10 .- Eddie Collins of the White Sox, considered by second sacker, is stipping, says John McGraw of the Giants.

During the White Sox-Giants game "Kid" Gleason in conversation. "Now," said the Kid in the course

"Ah, yes," mused McGraw; he's a slippin'.

"Why?" queried Gleason, Weil; he's beginning to get double chin. It's a sure sign. They don't cover the ground or hit as well when they get that way. At this juncture Eddie made a long

dive and speared a line drive back o laughed.

ANNOUNCEMENT

be known as the "CONVALESCENT HOME," which will be located at 152 Granite Street, facing Lithia Park and directly opposite the three principal fountains. Primarily, the diet treatment and nature cures will be utilized in the Home, but patients will first be examined by one of our best medical or non-medical physicians, and treatment will be based on such diagnosis. Patients recuperating after surgical or medi-cal treatment in Ashland or elsewhere will find the Home an admirable place to regain health and strength.

With a beautiful 100 acre natural park at our front door, and the various mineral water fountains only a few hundred feet distant, the Home offers exceptional advantages and opportunities to people in impaired health. Improvements under way in our own home will provide facilities for several patients, while our nearby cottages and apartments will accommodate quite a number of guests or patients. House mothers and nurses will give such individual attention as is necessary. Our little ranch promises to furnish a variety of fruits, regetables, dairy and poultry products. There will be Halstein milk for the curative "milk diet," Jersey milk and cream for the "building diet," and goats' milk for the delicate stomach of adult or infant.

For many months I have been studying the science of Nature Healing and find there is a cure in Nature for practically every curable disease. Medicines will be given only under the direction of physicians. I expect my patronage mainly from nearby towns and cities, where the advantages Ashland offers for such an enterprise as a Convalescent

Home are already recognized.

The cottage plan is ideal for our work, and will be enlarged as occasion demands. Some day a great sanitarium will rise in Ashland and utilize the wonderful setting Lithia Park and its environs offer for such an enterprise, but in the meantime there is need of such facilities as the Convalescent Home will afford. I will be pleased to give further information regarding the Home to anyone interested.
