

### AMERICANS STAMP OUT MALARIA IN PALESTINE DIST.

JERUSALEM.—Malaria has been almost stamped out in Palestine and trachoma has been reduced by one-third by the work of the American Zionist Medical unit, says Dr. J. M. Rubinov, head of that organization. The unit has been at work here for three years combating these two scourges of Palestine. Dr. Rubinov added that the unit has expended about \$500,000 a year in this work, of which about equal shares were contributed by the Joint Distribution Committee and the Women's Organization Hadassah, both of America.

Four hundred thousand persons annually visit the clinics maintained by the medical unit here and all nationalities are welcomed. In addition, the unit maintains 275 beds in hospitals in Jerusalem and Jaffa. At present its main work is in taking care of Jewish immigrants, conducting campaigns for sanitation among the school children and teaching them how to be healthy and strong. The work of the unit is both sanitary and medical.

**Notice**  
The people who are piling garbage and rubbish on the parking or alleys must call the City Garbage to get it removed, as the city does not remove it any more free of charge.

CHIEF OF POLICE.

### RIGHT TO STRIKE DENIED WORKERS IN GERMAN GOV'T

BERLIN.—The right to strike is denied employees of the government in an order issued by the German minister of transportation, who characterized the recent strike of engineers on the government railways as a "revolt of officials." A majority of high government officials and members of the reichstag support this position.

Labor quarters and particularly communist circles take issue with the government, admitting that officials are bound "to obedience" to the state, but on the other hand are working men and women who must combat unfavorable wage and living conditions with weapons available. The strike is the only effective weapon within reach, they hold.

Use of emergency workers, like the Technische Nothilfe, to keep essential public utilities operating during strikes, heretofore had been tacitly recognized by labor which furnished members to the association, now is generally condemned by more radical labor and receives slight praise from conservative labor elements.

The Technische Nothilfe was an important factor in breaking the strike of the railroaders, it is argued, and therefore has shown itself not a good servant of the public but an enemy of organized labor.

### LE GROS BEBE RUTH ADMIRER BY PARIS FANS

PARIS.—The fame of the great Babe Ruth has at last crossed the ocean and French publications have recently been filled with the narratives of the super-slugger's exploits.

He of the 53 home runs is not being excited in France for the number of fences he has driven the ball over, but the feat he has made in the bankroll of the club owners.

"The swing of his bat is terrible, but the swing of his pen is dealler," said the Avenir, referring to the signing of the reported \$500,000 for five years contract.

"The virtuoso of the home run is also an ace in the business end of it," the Paris Midi comments.

"Five hundred dollars each time for hitting a baseball half as far as I could hit a golf ball," laments an anonymous writer in the Paris Sport.

"Besides the money which he gathers from baseball 'le gros Bebe Ruth' also earns enough on the stage to keep several families in affluence," says Comedia, a theatrical paper.

Babe Ruth might have gone on forever knocking the covers off baseballs, doffing his cap in a bored way each time he reached the home plate after a circuit trip of the diamond, yet he would have never been heard of in France had he not signed for the reported sum of \$100,000 a year.

With Medford trade is Medford made.

### ODESSA CITY OF RUIN AS RESULT OF REDS' CONTROL

ODESSA.—This once rich port on the Ukraine is struggling to regain some of its former prosperity but it looks like a long, hard road for its 60 factories must first be rebuilt and financed by foreign capital. Just now there is none to be had.

How difficult will be Odessa's climb back to business may be gathered from the fact that, of 80,000 workmen employed about her port and in her industries before the big war, but 10,000 now have any sort of work. All are soviet employes.

The chief production of the 12 factories in operation is in leather, agricultural machinery, grain bags, nails, cloth, varnish, shoes, glass and very poor matches.

The cost of production is constantly varying with the exchange, the price of food and labor and at the present time no fair comparisons could be made with imported goods.

The cost of labor so far has been negligible due to the forced nationalization of factories and mobilization of the workmen, but it is steadily increasing as the men are free to find work. Those employed on piece work earn daily about 200,000 rubles, or 60 cents, whereas the regular wage scale is 100,000 rubles, or 30 cents. But these figures are unreliable, as workers often get permission to do outside work, receive a little food in addition or else their thefts of goods are winked.

It requires a minimum of 200,000 rubles daily, or about 35 cents to feed one person. Rent is free. A pair of shoes costs \$10 to \$15; a poor suit of clothes twice as much.

It may be said that the working man has lost vastly in a material sense by the revolution. Today his cry is for bread and bread only. If it is an advantage, the working men now partly control this city, one of the richest and most comfortable ones of all Europe and, perhaps, destined to be so again, in the years to come when its 60 odd factories are rebuilt and reorganized through private capital. This capital must come from abroad. In pre-war days 60 percent of the industries were owned by French, German, Austrian and English firms and directed by them.

The prosperity of these industries depended on production of wheat, sugar and hemp in the rich black earth hinterland of the Ukraine. When that hinterland is restocked with seed grain, agricultural machines, horses and cows and intelligent farmers, in the next couple of years, then the city will again raise its head, repaint and repair its handsome buildings and homes and again be called Russia's Chicago.

### TREE THRIVING IN COLUMBUS' TIME IS STILL ALIVE

MEXICO CITY.—The "Great Tree of Tule" in the state of Oaxaca, after some 800 years of recorded existence, is beginning to show signs of wear and tear. This giant cypress, with a trunk so huge that 30 persons with outstretched arms can scarcely span it, is known to have been a fair sized tree when Columbus discovered America, and history recounts that Cortes and his Spanish soldiers slept beneath its branches four centuries ago when enroute to Honduras following their conquest of Mexico.

But although time has dealt kindly with the monarch, the correspondent during a recent visit to the tiny village of Santa Maria del Tule, Oaxaca, noticed that the wrinkles of age are beginning to show. There is no immediate cause for worry, however, that Tule, as the Indians affectionately call the tree, will wither away before the present generation has passed on.

## Let Kellogg's tell you the real Corn Flake story

Of all the good things to eat, not one will afford you more delight than Kellogg's Corn Flakes! In flavor and crispness, Kellogg's are the most fascinating cereal food you ever put in your mouth! And, you'll prove that to be a fact just as quickly as you try some!

Children insist upon Kellogg's, for Kellogg's are never tough or leathery; they're just like they come out of the Kellogg ovens! And, Kellogg flavor appeals to the little folks just as it does to every member of your family!

MILLIONS OF POUNDS BOUGHT BY THE GOVERNMENT

### 3 WORKERS KILLED POWDER EXPLOSION

CHARLESTON, S. C., April 13.—Three workmen were reported killed and several others injured in an explosion of 20,000 pounds of powder this afternoon in a building near the Charleston general ordnance depot, 10 miles from here.

SALT LAKE CITY, April 13.—Two men were injured seriously and many buildings were damaged today when one and one-half tons of T. N. T. throw hundreds of tons of large rock fragments into the business section of the town of Helper, Utah. The explosion occurred in connection with blasting for railroad construction on the west side of the price river, opposite Helper.

### PANAMA WORKERS PAY RENT; DECISION

NEW ORLEANS, La., April 14.—Three thousand government employees of the Panama canal and the Panama railroad must pay the government rent for the use of their houses in the Panama canal zone, the United States circuit court of appeals decided today in denying the petition of Harvey McConaughy, representing the workers for a writ to restrain the government from collecting the rent.

### IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead or Bladder bothers you—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

Your well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

### CLOTHES ECONOMY

Ladies' and Men's soiled and faded garments cleaned and dyed for a nominal charge. All work given prompt and careful attention. Packages called for and delivered.

# WEEKS & ORR

Why pay more when you can buy Bed Room Furniture at these prices. All new, no second hand goods.

### DYKES BREAK ILL, TOWN FLOODED

BEARDSTOWN, Ill., April 13.—The Illinois river was rising rapidly here last night and flood damage grew more serious as water worked havoc to buildings, many of which settled, breaking windowpanes and straining doors.

Ninety blocks of the city were affected by the flood. Stores and theaters closed last night.

The river reached a level of 23 feet last night, eight inches higher than the high water record of 1844.

The drainage district levee, protecting 5,000 acres of farm lands, has broken.

PARIS, April.—A Stradivarius violin for which the maker, Antonius Stradivarius received 89 francs when he made it at Cremona in 1735, has just been sold here for 103,400 francs including the war tax. This is equivalent at current rates of exchange to about \$5000.

The violin was, for a long time, the property of the late Charles Lamoureux, founder and conductor of the famous Lamoureux orchestra.

The recent tests which seemed to establish that modern-made violins cannot be distinguished from ancient ones by their tone, do not seem to have affected the price of ancient instruments, if this sale can be taken as a criterion.
