

WOMAN FORGER ARRESTED HERE ALSO 'HUSBAND'

A telegraphic request was received here early this morning from the sheriff at Dunsmuir, Calif., requesting the Medford police, if possible, to locate and hold Miss Anna Cook on a charge of forgery or passing a forged check. She is wanted at Stockton, Calif., on that charge.

Patrolman Cave located the woman, together with a young man, Larry McDonald, also of Stockton, just departing for Portland from a local hotel in the Stevens roadster auto, in which they came to the city. They had registered at the hotel as man and wife. Following her arrest and that of McDonald, who is held on a statutory charge, after a consultation with Sheriff Torrell, Chief of Police Timothy and Patrolman Cave, it was decided to hold him as prisoner until the California authorities could look thoroughly into the ownership of the Stevens roadster.

It was also decided after a long distance phone conversation with the California Sheriff for Patrolman Cave to deliver the woman over to that official at Edgewood, Calif., from which place she would be taken to Stockton. Cave left with his prisoner for Edgewood this forenoon, expecting to return on the night train.

EASTER HAT TO BE SAFE TOMORROW

SAN FRANCISCO, April 15.—The easter hat, that dazzling, puzzling, fragile creation, will be safe and secure tomorrow morning as Dempsey's heavyweight championship, for the weather man is "doing his stuff."

There will be an early morning frost in northern California and the Sacramento, Santa Clara and San Joaquin valleys that may play havoc with young fruit, but the artificial cherries, grapes, etc., on mltad's cranial crest will bob along their little way unmarred by that arch-enemy of easter sartorial splendor, rain.

ORCHARDISTS ARE READY TO SMUDGE, FROST PREDICTED

While the prediction of today issued from the San Francisco weather bureau for a heavy to killing frost Sunday morning is rather discomfiting to the orchardists of the valley and bodes no good for the almond, peach and apricot trees, most of which are now in full bloom, there is a ray of hope for the pear buds which are just about ready to come out into bloom, as Floyd Young, the frost expert says that fully 90 per cent of the valley pear crop can stand a temperature as low as 22 degrees for a short time.

Then too, the exact weather conditions and intensity of the expected frost will not be known until early this evening when Mr. Young has gathered all his weather data. It may be by that time the frost outlook will be so mild as not to require smudging in the morning. Hence his report this evening will be eagerly awaited by the orchardists.

However, it is probable that there will be smudging in the morning, even though the temperature predicted by Mr. Young is for only 25 or 26 degrees, especially in the lower parts of the valley where the orchardists do not desire to run any risk and where the temperature is always several degrees lower than here. The orchardists are all ready to light up during the night at the word "go" from Mr. Young.

N. Y. Stocks

NEW YORK, April 15.—Very heavy dealings attended today's two hour session of the stock market, almost wholly at higher levels. Oils were the chief features, many domestic issues rising 1 to 3 points, with unusual activity in the cheaper group. High grade steels, equipments and motors were less prominent, but Gulf States Steel, American and Baldwin Locomotives, Studebaker and Electric Storage Battery contributed to the new high records for the year.

American Woolen, American Tobacco and Sumatra Tobacco represented the specialties. There was extensive buying of Seaboard Airline at an extreme gain of almost three points, but rails as a group were not materially higher. The closing was strong. Sales approximated \$56,000 shares.	67.2

MISSISSIPPI OVERFLOWS

(Continued from Page One)

BEARDSTOWN, Ill., April 15.—Three inches more of the Illinois river in the streets of Beardstown this morning gave rise to the cry of many citizens that come what would, they would remain to the last, that three feet more water could hardly do more damage than today's three inches.

PEORIA, Ill., April 15.—With the Illinois river standing at 24.7 feet, the east Peoria levee is holding this morning and the worst of the flood is believed to have been reached. Only high winds will now cause the east Peoria levee to break, according to authorities. Scores of men worked frantically all night in a dense fog repairing leaks and building up low places on the levee.

Refugees of the threatened area this morning were housed in improvised homes and tents. The whole district is a sea of mud and water and even tractors which were used to move wagons laden with household effects were stalled.

TWO REASONS

why the Jackson County Bldg. & Loan Association is able to pay 7 and 8 per cent dividends on all classes of stock.

We keep practically all our funds loaned out at all times because the Corporation Department of the State makes it unlawful to accept demand deposits, therefore, it is not necessary to keep a large amount of cash on hand—Cash on hand bears no interest.

Our overhead expense is kept down to a fraction over one per cent to comply with the ruling of the Corporation Department of the State.

We therefore are in a position to pay the highest rate of interest consistent with good business and absolute safety to all stockholders.
