Ye Smudge Pot By Arthur Perry.

The Genoa conference is a dandy. They propose to save Europe by paying Russia what the Allies owe America.

Tourists—frying pan and freight car—have started to appear, and this year's panorama of 4ds will break all records.

There was the usual murder in Los Angeles, and cyclone in Kansas on the Sabbath.

Horticulturists will soon begin to show up with soot in their eye wipers and sulphur spray in their whiskers.

THE GLORIOUS ORE SYSTEM (Salem Capital-Journal)

Mr. Purdy is proprietor of a bath-house in Salem and offers himself to clean-up the state, probably figuring that his occupation qualifies him.

The Owl Drug Store of Marshfield, Ore., has started a campaign against unhygienic conditions existing in first aid care of the injured in that section.

Be calm. No matter who is elected to the legislature from Jack. Co. in May or November, the government at Washington will survive, and the solar system continues to function the best it can.

Mica Womack has discovered a deposit within gunshot of the Nash, that can be used either for chewing gum, or dark brown pottery. A man is coming from New York to look at it, and if no had luck is encountered the local payroll will be increased by 3000.

NOT KNOCKING ANYBODY (Albany Democrat)

He was shot in the pit of the stomach at 8 o'clock Sunday night by Ave Lee. Drs. Austin and Vice operated upon him, and, strange as it might seem, it is said he has a chance of recovery.

A year of President Harding has been awful. He still has the same cabinet he started with, and his private secretary is not writing messages for him.

There was an outpouring of Galsheviks in new bonnets Sun., but more would have poured out but for the climatic orneriness. Fruit and flowers make up the decorations instead of the stuffed chickadees of bygone days.

Wig Ashpole spent Mon. am. in the saddle chasing heifers over thelea near Jville.

SOUNDS THE SAME (Klamath Herald)

Yesterday afternoon Bogus was placed in charge of Mr. Hannon to saw some wood near the Main Street court house. Hannon was also busy working with yard work and occasionally turned his back on the pistons. On one of these occasions Hannon turned around and Bogus was gone.

Adjutant General White was "drafted" to run for governor. He is so mad about it he is liable to call out the state militia to keep people from voting for him.

EMMA GOLDMAN, ANTI-BOLSHEVIK.

ONE OF THE cleverest things Uncle Sam ever did was to send Emma Goldman to Russia.

One of the most foolish things the Bolsheviki ever did was to send Emma Goldman out of Russia.

For from Sweden the irrepressible Emma is sending out articles which promise to do more harm to Bolsheviki pretensions, and do more real good for the cause of common sense in America, than any so-called anti-radical propoganda, that has been conceived of these last 20 years.

It had been supposed, for example, that the Bolsheviki, whatever their faults, were really doing great things for the Russian children and the Russian laboring man.

Emma Goldman claims the very reverse to be true. There are a few "show schools" for children, she says, which are maintained for publicity purposes, where a few favored children are well cared for and treated, but the majority of the Russian children are neglected and starving. Moreover, the "show schools" are honeycombed with graft, unscrupulous manipulators making fortunes out of food profiteering.

Instead of a labor union millenium, Emma found a labor union inferno. The eight-hour-day has been superseded by a 12 and 14-hour day, child labor has been revived, and when a strike is called, the strike leaders are either shot or plunged in dungeons by the Bolsheviki with even more dispatch and cruelty than was common in the old days of the Russian autocracy.

Of course, Emma remains an anarchist, and she maintains if her ideas were followed out the Russian revolution would have been a great success. But the plain lesson to be drawn from her letters is this: That any radical and sudden overturn of the existing order, is bound to result in just the sort of human chaos and suffering with which Russia today is afflicted.

It is regrettable that Emma Goldman's letters have not been more widely circulated. We are indebted to the Minneapolis Journal for our information. It would be a great stroke of good business if Uncle Sam would gather Emma's evidence in attractive form and put them on the government mailing list.

Quill Points

The most important matter in the world is gray. Under the radio regime—"Central, give me ether." Iceland is going wet again. Arctic expeditions are in order. And after Genoa where will the next rash of conferences break out. The whole world should be on the square, even if Nature did make it round. For those who can afford to buy it, New York is said to be a wide opium town. Thanks to Landis, the great god Ruth has learned that he is not after all, omnipotent. Evidently Lot's wife had had no experience chauffeuring joy-ride parties or engaged couples. How inspiring is example. While daughter is learning music, the rest of the family learns fortitude. Bill Hay's and Judge Landis. Who will be the next celebrity to decide that duty calls him to another position? The popular view is wrong. Not long ears, but a long tongue, is the distinguishing characteristic of a jackass. There is always a fly in the ointment. If farmers get together and fix prices, think of the poor gamblers who will be thrown out of jobs.

The body of Mrs. Anson, now buried in Philadelphia, will be brought here and interred at his side.

Pomona Glee Club Concert Tonight

In the short time that these boys have been in this country they have delighted many an audience with their captivating songs and native Hawaiian melodies. They are literally singing their way through college and to hear them is alone well worth the price of admission. This trio will appear with the Pomona Glee club at the high school auditorium Monday night, April 17. The club consists of 25 men in chorus, solos and special numbers.

Liver Trouble Leads To Serious Ills

Blood Filter of the Body is Source of Infection Biliousness is a sure sign of liver trouble—and any derangement of the liver is likely to lead to serious if not fatal results. "Tortured liver means 'bile poison' in the blood—a dangerous condition. If you have pains under the left shoulder blade, coated tongue, fickle appetite, pale, muddy complexion, or attacks of headache, your liver is probably affected. Read this strong endorsement from Mr. J. W. Strawhecker, 1608 Hunter St., Harrisburg, Pa. 'I think too truthfully say that Dr. A. W. Chase's medicine saved my life. I suffered from bilious attacks and was as far gone nothing would help me but your medicine. I feel like a new man. I had control over my bowels and my liver was so bad that my wife was obliged to get me a cathartic. I read in a little booklet of Dr. A. W. Chase's medicine and was so far gone, that I could hardly read the booklet. I saw a good healthy man, looked younger, stronger and freer in good condition, and have a good color and appetit.
