Ye Smudge Pot

It is about time for some candidate at the primary to be branded in the rural districts as a "hiring of the Espée," and "a tool of the bootlegging interests."

All good citizens should read Margaret Flaherty's pamphlet on the Irish situation, entitled: "Ireland, Her Problems and Their Solution."

The Portland bootlegger of 24, who reverted to the lower form of murder, and failed to get away with it, was a "country boy," with no loopholes left in the law but to go crazy.

SO IT WOULD SEEM (Coo's Bay Times)

M. Shumaker of North Bend left for Salem this morning. He will undergo another operation on his right arm, which is amputated above the elbow as the result of about four previous operations.

The Russian nuts are acting so ornery that congress will find it impossible to avoid appropriating another \$20,000,000 for relief of "the famine stricken on the Volga."

The success of this play will be due largely to Miss —, the dramatic coach, whose excellent and tireless work, coupled with her undesirable dramatic ability, are accomplishing wonders in getting the play ready for presentation.

The bifalutin singing season is over in local vocal circles, giving the eminent gruntings and the talented squealisms, a rest. The general public do not comprehend the technique of a Yellegro furiso number in F Major.

TOO BAD! TOO BAD! (Albany Democrat)

Ivan McClain reports the loss of a valuable three year old cold recently.

Right of self extermination at the Main Stem Crossing is sought by the Speed Idiots Association of Jack. Co.

All Fatcoe Arbuckle films have been barred by Will Hays, movie director. The leading custard pie heaver of Creation may have to make good on his threat to go to work, and thereby stilt his art.

THREE IS THE LIMIT (Oregon City Enterprise)

WANTED WORK: As housekeeper for widower, don't mind one or two children. 318 Enterprise.

Feminine eyebrows, shaved on a bias have appeared in our midst. This excels the nose width mustachio rampant among masculines.

Insurance agts. and auto ditchers have been revived by the coming of spoolducks to 1917 heroes and 1921 treasury raiders.

Duds Dick Isaacs has returned from the north on his own initiative, and reports business wakening up in Portland, and heard some talk of an election in May.

A deluge of sparrows are busy building nests every place but in trees.

A CITY PLAN.

TOO MANY CITIES, like Topsy, have just grown. We have in mind one city in the Middle West in particular, where nothing was done regarding a park system until it became a place of 60,000.

It is not too early for Medford to consider a city plan, so that growth may be along proper lines, contributing to beauty and attractiveness as well as efficient administration.

Bear Creek is the natural center for a park system. Using streets for playgrounds is dangerous and undesirable, and to consider municipal playground areas now is merely preparing wisely for the future.

There is nothing visionary about this sort of thing. It is merely good sense and good business. The effort to secure a comprehensive city plan for Medford should receive the support of all public spirited citizens.

Maybe they burned Rome because Nero was fiddling jazz.

Money talks, but most of us need radiophones in order to hear it.

Adam's rib was made of bone, but it isn't wise to say so to your wife.

No woman would be two-faced, however, if she had to buy paint for both of them.

Why not award the taxpayers a bonus too? Then everybody will be satisfied.

"Few movie people in jail." Defending the movie people, or knocking the police?

A real man, after climbing to the top, doesn't forget those who held the ladder for him.

As the cynics would phrase it, "Here comes the bride and—blooey!—There goes the groom!"

Reports that the earth crust is becoming soft in spots will be great news for the aviators.

In seeking home rule, the canny Scot chooses quieter methods than the Irish. Bricks cost money.

"The Irish border will have no experience of monotony." In this respect, it will differ from the American boarder.

America boasts at least one bona fide "bouncing baby boy"—the Florida child that was born in a Ford.

Considering the career of Landis, we wonder if this move to educate lawyers will introduce a course in higher baseball.

Emma Goldman stumbles out of starving Russia into a job as newspaper reporter. You make the comment, reader, while we dry our tears.

Engineers have found a way to take the "put-put" out of motor-boats. We wish they could find a way to take some of the "take-take" out of tax collectors.

THE FLU.

THE FLU is raging in our town, and many wights are stricken down, with anguish in their works; the does are hustling day and night, and undertakers, as I write, are hiring extra clerks.
