

TO REPRODUCE SUTTER'S MILL AT SACRAMENTO

SACRAMENTO, Calif., April 20.—Captain John A. Sutter's mill at Coloma, where James W. Marshall found gold in January, 1848, will be reproduced by El Dorado county in the 49 Mining Camp of the "Days of '49" celebration, to be held here May 23-28.

In 1847, Sutter determined to build a mill on the American river at Coloma, where the flow of water the year round was excellent for turning the great mill wheel, and sent his partner, Marshall, to build it. The mill was completed, and the mill race dug. Marshall turned in the water, to test out the race and the mill. After shutting it off, he was examining the race, when he noticed the glittering lumps. Convinced that they were gold, he rode without stopping to Sutter's Fort, and there turned the nuggets over to Sutter. Acid tests proved that it was gold. A new "El Dorado" was found. Although there is some doubt about the exact date, it is believed it was on January 19, 1848, that Marshall found the gold.

Two other historic structures are to be reproduced by El Dorado county. One is Red Dog's Saloon of Hangtown, now Placerville, made famous by Bret Harte's stories, and the other is the cabin in which Marshall lived at Coloma. In all, there will be 150 replicas of pioneer structures in the camp.

GREENWICH GOSSIP TO PUBLIC PLEASES

The public has been quick to respond to the lure of the "Greenwich Village Follies" at the Century theater, an entertainment so fast and fascinating in its fleet passage across the stage it can be compared with nothing that has been seen here except its predecessor.

There are so many principals they have small time to display their tricks and maneuvers; so much color and brightness one is dazzled by a vision of lovely women in daring gowns.

The settings are simple, but rich and expensive, as are all beautifully simple things, and the music is a pleasant tinkle that does not disturb the emotions while it pleases the ears.

Savoy and Brennan, the McCarthy Sisters, Phil Baker, James Clemons, the dancing demon; Pee Wee Myers, likewise, and his partner, Ford Hanford; Louis and Frieda Berkoff, the Russian twirlers; Collins and Hart, who appear briefly in a ridiculous burlesque acrobatic turn, and a dozen others are prominent for the space of a few moments, and then are swallowed up in some smashing ensemble. It's a wonderful show.—San Francisco Examiner.

At Page next Monday night.

HELEN KELLER OUTDONE BY GIRL FROM KANSAS

OLATHE, Kas., April 20.—A piano recital by one who has been deaf, blind and dumb from birth, was given the public here last night by Miss Helen May Martin. She had been called the second Helen Keller, but has mastered something that Miss Keller had been unable to attain—art in music. Last night was her first appearance in a musical recital.

"The Cave Girl," at Rialto
That neighborly feeling of just dropping in for breakfast pervades one roaring lion and he comes to the Bates cabin to enlarge his list of calling acquaintances. J. Bates, New York clubman and social dilettante, has just finished reading a treatise on "How to Live the Life of Primitive Man" and it's left him warm to the subject; but he cools down as he sees the king of beasts looking down from a rocky ledge and calls for help.

That, in brief, is one of the opening situations that provides the element of humor in "The Cave Girl," a roaring drama of primitive outdoor life which will be shown at the Rialto theatre the remainder of the week beginning today.

Red Hot Romance at Page
In modern fiction whenever an American youth finds himself in a foreign kingdom he immediately starts butting into affairs that are not his own; fights duels with dukes and lords, sasses the king, woos and wins the princess and generally sets things topsy turvy.

The predilection of many authors for this type of story is the target at which John Emerson and Anita Loos aimed their shaft of satire through the medium of "Red Hot Romance," their own production, which is coming to the Page theatre today for an engagement of three days.

M'NIDER OPPOSES RENDERING NATION ENTIRELY HELPLESS

WASHINGTON, April 20.—Declaring that the house reduction in the army appropriation bill is the "first step toward undermining our splendid military policy," the American Legion, through Hanford MacNider, its national commander, formally put before the senate appropriations committee today an appeal for an army of 150,000 men.

The house plan for an army of 115,000 men together with the cut in other appropriations, means the upsetting of the army reorganization act of 1920, so that the country again would be left without an adequate preparedness program, the legion head declared.

"We insist that appropriations adequate for a continuation of the development of the army of the United States shall be made," said Mr. MacNider. "It must continue on a sound and efficient basis."

LOS ANGELES—The University of Missouri track and field team defeated the Occidental college team on the latter's field by a score of 67 to 64.

UNION LEADERS CLAIM VICTORY IN MINGO FIELD

WASHINGTON, April 18.—Complete upset of the "plans of the non-union coal companies of Mingo county, West Virginia to drive the union out of that field," was claimed by United Mine Workers officials in making public here today the supersedeas signed by Judge M. A. Knapp, senior judge of the United States circuit court of appeals in the fourth district suspending in part the injunction recently issued by Federal Judge McClintic of Charleston to the Borderland Coal company.

The supersedeas was issued by Judge Knapp at the request of W. A. Glasgow, Jr., of Philadelphia and Henry Warum of Indianapolis, attorneys representing the United Mine workers.

Judge Knapp, in addition to issuing the supersedeas, granted an appeal from Judge McClintic's injunction order to the United States circuit court of appeals.

The supersedeas as interpreted by mine workers officials suspends all of the restraints of Judge McClintic's injunction except those which restrain

DEMENTED WOMAN ON THE WARPATH

COLUMBUS, Ky., April 18.—Mrs. Arnold Holt in a sudden fit of demented rage near here today slew two of her children, attempted to kill a third and then fastening a hatchet in a fence with the blade toward it, backed off 20 feet and ran into it head on.—Physicians say she will die.

PRESIDENT ENDORSES SEN M'NARY'S BILL

WASHINGTON, April 19.—Approval of President Harding of the McNary bill providing for creation of a \$250,000,000 revolving fund to be used for development of western and southern reclamation and drainage projects was given today to a congressional delegation, which called at the White House.

PATERNITY BLOOD TEST ORIGINATOR QUITS M. D. CULT

SAN FRANCISCO, April 20.—Dr. Albert Abrams, San Francisco physician, credited with discovering a purported blood test to determine paternity announced today that he had resigned from the American Medical Association and the San Francisco Medical society because of what he termed the opposition of those organizations to his research work.

The immediate cause for his action was an attack in the Journal of the American Medical Association on Dr. Abrams' theory of the radio activity of disease. "If there is any foundation for the marvels which Dr. Abrams so picturesquely features the scientific world has not found it out," the offending article stated.

Dr. Abrams retorted: "The conservation of the medical profession is so great that one is prompted to recall what a patriot of Tallyrand said of the latter's conservatism that, if Tallyrand were present at the creation, he would have

SOLDIER BONUS IN TARIFF BILL NOW HARDING'S PLAN

WASHINGTON, April 19.—President Harding was represented today by White House callers as favorable to suggestions that a soldier bonus revenue raising provision be inserted in the tariff bill now before the senate. The president was said to still be insisting that any bonus adopted should carry or provide some means of raising the necessary revenue.

Action of the senate republican caucus yesterday in voting to request the finance committee to report a bonus bill in a "reasonable" time was said to be construed by advocates of the measure to mean within three weeks and some senators who are back of this project are said to have stated they would support a move to discharge the finance committee and bring the pending bill before the senate if a report is not made at the end of three weeks time.

exclaimed "good gracious—chaos will be destroyed."

"The reason for my resignation is that it will permit me to work unhindered by the medical profession"

Mrs. Blake's Favorite Recipe
for
Bran Muffins
Made by this recipe, your bran muffins will get many accolades:
Take two eggs, two tbsp. butter (or substitute) and 1 cup sugar; cream together; add 1 cup bran and (if desired) 1 cup raisins, 1 cup white flour, 2 tsp. baking powder, 1 tsp. salt. Stir well together and moisten to stiff batter with 1 cup Carnation Milk mixed with 1 cup of water. Bake in greased muffin tins from fifteen to twenty-five minutes.

Mary Blake
If you haven't our illustrated booklet of 100 tested recipes, write for copy to Carnation Milk Products Co., 503 Concord Bldg., Portland, Ore.

From the Motorist
"I found after draining the crank case and replacing with your Cylcol Motor Oil, that I have obtained more mileage, also better compression and more power in climbing hills. I congratulate you for producing such a high grade oil."
M. W. HICKOK,
Santa Barbara

From the Mariner
"I have given Cylcol a 30-day test, or 400 hours run, oiling 96 bearings, between here and Monterey. Every bearing kept perfectly cool. Engine turned over freely when cold. I used only 100 gallons of Cylcol. With other oils I used 400 gallons in the same time — bearings frequently warm and engine hard to turn over cold."
J. E. Fitzwater, C. E.,
M. S. "COQUILLE,"
San Francisco

From the Aviator
"My oil pressure gauge with the use of Cylcol only varies 8 points as against 20 to 30 points with other oils. This is from a cold motor to a hot one. This shows that Cylcol holds its body. In the past I have changed oil every 8 flying hours, but with Cylcol I get over 40 flying hours."
E. D. LARM,
San Francisco

On land, on sea, in the air— Cylcol proves its service

Cylcol gives exceptional service under all conditions of engine operation. Look at some of the records it has made. These are but a few of hundreds of similar letters written voluntarily by enthusiastic users of Cylcol Motor Oil.

Engine owners know from experience that Cylcol Motor Oil retains its correct body under operating temperatures, maintains the essential oil film between moving parts and prevents serious engine troubles due to faulty lubrication. The reason is because Cylcol is free from destructive "sulpho" compounds. It is these impurities

which cause ordinary oils to thin out and break down rapidly under engine heat. They are economically removed by the new Hexeon Process used only by us.

You can easily prove to yourself the superiority of Cylcol. Simply flush the crank case, not with kerosene or so-called "flushing oils," but with the correct grade of new lubricating oil, and refill with the grade of Cylcol specified on the Cylcol Chart of Recommendations. To be sure of getting Cylcol—look for the Cylcol Sign.
