

GASOLINE SCRIPT BOOK IS SECURED FALSE PRETENSES

Automobile owners and gasoline users throughout the state are warned to be on the lookout for a ten dollar script book issued by the Standard Oil company and numbered 348803. The book was obtained this morning from M. B. Leonard, of the Main street Standard station, under false pretenses. If the book is offered to anyone for sale that person is requested to have the person who offers it put under arrest and then notify W. R. Speck, special agent for the Standard Oil company in Medford.

A man, about 5 feet 8 inches in height, with a dark complexion and weighing about 165 pounds, according to Leonard, came into the station this morning while there was a rush and stated that he was working for Mrs. Melaine Herbert of South Oakdale, this city and that he had been sent by her to buy a gasoline scrip book. The book was made out and charged to Mrs. Herbert and the man departed, going west on Main street.

When the waiting cars had been filled and the rush was over Leonard considered the incident and remembered that Mrs. Herbert never charged a book. He immediately called Mrs. Herbert over the telephone and was informed that she had not authorized anyone to buy the book. The man was but a short distance from Main street by this time and Leonard could have caught him easily had he been able to leave the station.

Prior to entering the Standard station the man had gone to the Union oil station across the street, and had pretended that he thought it was the Standard. He asked for a Standard five dollar book. Jean Watkins, operator on duty, informed him that the Union did not sell five dollar books and that he was in a Union station. Watkins also refused to sell him any kind of book. The thief learned also from Watkins that Mrs. Herbert was a regular Standard customer and it is supposed that he proceeded with his plan.

Wires have been sent north and south and local police are on the lookout for the culprit. If he is not caught Leonard will be \$2.67 or the price of a ten dollar book, in the hole.

Y. M. C. A. LEAGUE TEAMS RARIN TO GO NEXT TUESDAY

Four senior teams in the Y. M. C. A. Baseball league, are practicing regularly this week, and will, without doubt, be in the best of shape for the opening of the season next Tuesday afternoon. There is a much better outlook for this season than there was last. Considerable enthusiasm for inter-church competition was engendered by the basketball season and the South Methodists, with the basket championship honors, are out for scraps in baseball as well. The Christian team has been practicing for some time and appears to have a very good aggregation. The North Methodists have several very good men and will make a strong bid for the pennant. The Baptists are reported to be going strong also. The games will be played regularly Tuesdays and Fridays on the high school grounds on North Holly at 6:15 p. m. The public will be admitted free and are asked to come out and root for their favorites.

Junior league games will be played at 4:15 Tuesdays on the Jackson school grounds. Four teams from the same churches as the seniors are in the league at present, with the possibility of the Presbyterians coming in as a dark horse before the season has advanced far. It is reported that pennants suitably lettered will be hung up by a couple of progressive business men for trophies in both leagues.
 Team managers are urged to see that every squad man is safe on the eligibility clause to avoid complications later.

TWO REASONS why the Jackson County Bldg. & Loan Association is able to pay 7 and 8 per cent dividends on all classes of stock.

We keep practically all our funds loaned out at all times because the Corporation Department of the State makes it unlawful to accept demand deposits, therefore, it is not necessary to keep a large amount of cash on hand—Cash on hand bears no interest.

Our overhead expense is kept down to a fraction over one per cent to comply with the ruling of the Corporation Department of the State.

We therefore are in a position to pay the highest rate of interest consistent with good business and absolute safety to all stockholders.

BUSINESS IS GOOD
 With nearly 2000

WESTINGHOUSE
 SERVICE STATIONS

Not only because they represent the acme of perfection in the Storage Battery field, not only because they have linked their names with that of a concern that has held the confidence of a nation for more than half a century—

Nor, even because under the guarantee covering the product they handle (they are selling a year and a half of assured battery satisfaction to their customers)—rather than merely a storage battery. But, because the advantageous circumstances surrounding their connection gives them greater opportunities and manifold benefits than other battery service stations enjoy.

Because, Westinghouse, welding its service stations into one great service organization is able to stand squarely behind each individual member, cooperate with him in the development of his business—and carry him to the success which must come, when identified with so powerful an organization.

There is a wonderful opportunity for some aggressive dealer in this territory to enjoy the benefits of the Westinghouse franchise; write, wire or phone at our expense for information.
