

JUNE 5 SET FOR GET-TOGETHER C. OF COMMERCE DAY

Something big is being planned for the annual get-together meeting of the members of the Medford chamber of commerce on the evening of the second day of June.

The "Medford Spirit of 1916" will permeate the atmosphere on that occasion and recall the many interesting events and conditions that existed in Medford at that time. This part of the program will be in charge of Paul McDonald and Larry Mann who guarantee that they will be presented by absolute truthfulness in the presentation of this spirit.

This annual get-together will take place at the Medford hotel and will follow a dinner. An address will be made by W. E. Hobbitt of Woodland, California and the subject "Cooperate or Collapse." This speaker happens to be in Oregon at that time, otherwise it would have been impossible to have secured him.

The directors of the chamber of commerce have appointed a large committee to arrange for this meeting in order that it be made the biggest chamber of commerce event of the year. The committee consists of Bert Anderson, chairman, Dr. R. B. Elliott, Miss Annie Kelleher, Mrs. Rose G. Schieffelin, George M. Roberts, A. O. Bennett, Dr. R. W. Stearns, A. W. Hubbs, Paul McDonald, Larry Mann, Leon Haskins and C. S. Butterfield.

At a meeting of this committee last evening, Bert Anderson was requested to take charge of the campaign to secure a large attendance of the membership, Mrs. Rose G. Schieffelin was named as chairman of the committee on music and entertainment.

The committee was unanimous in their desire to see that this meeting be snappy from the beginning to the end and that it would not be a long drawn out affair to which end every member is working.

HOWE CIRCUS IS COMING, MEDFORD

Howe's Great London Circus with van Amberg's Trained Wild Animals will exhibit in Medford on Tuesday, May 24.

Advertising car No. 2, in charge of Bert J. Chipman, contracting press agent, was in the city yesterday, with fifteen billposters, programmers and lithographers, busily hanging luridly colored posters, picturing the wonders, novelties and thrills to be viewed on the day of exhibition—all for fifty cents.

Among the outstanding features will be a grand spectacular extravaganza "Cinderella in Juncleland," introducing an army of people, countless animals, brilliant lighting and musical effects; "Muzpah" sacred white camel, one of a troupe of camels who have been broken to perform; "Milk" and "Bessie," a pair of baby cub lions, born only recently; Jules Jacot's group of forest-bred, black-named African lions; Mile. LaNova's mixed group of wild and domestic animals; Mile. Falkensof's cougars, leopards and jaguars; "Maud," the only mule ever broken to do cake-walking; Chas. Fulton's ball room dancing horses; Castrol's educated dogs, monkeys and goats, and clowns, fifty of them.

There will be a street parade with bands, calliope, pretty women and beautiful horses, which will be worth traveling miles to see.

Panamint had tolerated Joe Reedley and his political gang so long that it didn't seem natural unless someone was grafting or being double-crossed. But Jane Reedley, "the boss's" niece, fell in love with Pinto and assisted in the dauntless fight which the Gazette waged to clean up Panamint.

It is a most romantic, vigorous, red-blooded picture, with Hoot Gibson as Pinto Pete smiling through it and winning the political battle—and the girl.

"The Seventh Day," at Page Richard Barthelmess in his second starring venture to be distributed by Associated First National Pictures, Inc., "The Seventh Day," will be the attraction at the Page theatre today, tomorrow and Monday. The young star has an entirely different role from his part in "To'able David," when he took the part of a young boy of the Virginia mountains; but his present appearance as a fishing lad of the New England coast is said to give him an opportunity of equal dramatic strength and human appeal.

A Buster Keaton comedy, "The High Sign," is the second feature on the bill.

65TH ARTILLERY TO HOLD REUNION PORTLAND, MAY 27

Members of the former 65th Artillery will hold a reunion banquet at Portland May 27 when ex-battery men will be present from every part of the state from whence men came to comprise the regiment of heavy guns which made a mark for itself in France.

A group of Portlanders representing Batteries C, D, and E, and the Supply company, the units which comprised half the regiment, have taken upon themselves the task of arranging a banquet and program with all the elements necessary for making a successful reunion of former overseas men.

The volunteer committee proposes that at the banquet a few moments be devoted to a business session, that is in electing a 65th Artillery Reunion association president, secretary and treasurer, whose duties it will be to attend to matters connected with arranging the banquet and program for the following year.

Nothing will be spared to make the program and banquet a knockout. The committee promises that it will take the boys back to France for the evening. That is why Saturday evening was set as the proper day. It will also give the out of town lads opportunity to attend. The committee promises that the evening will be worth three times the railroad fare and moderate price of the banquet, which will be held at the Benson hotel at 6:30 p. m.

In order that some idea may be gained of the number to plan for, request is made that members able to come write to any of the following members of the committee of fifteen making arrangements: William Beveridge, Battery 1, 87 Front street; D. A. Roland, Battery D, 212 Stanton street; Harold B. Say, Battery C, Portland Telegram; R. E. Williams, Supply company, 430 Northwestern National Bank Bldg.

Waving fans, swayed by the Peter of men and women whose labor was held of small moment save as it provided comfort to their high-born masters, was once a symbol of luxury. To day every man and every woman, and every small baby, sleeping through hours of summer's heat, may have the comfort of air stirred to invigorating freshness by constant motion. Instead of ostrich plumes, the fans are made of scintillant blades of brass. Instead of hands of ebony slaves, they move to the power of our modern servitors—volts, amperes and watts, summoned by the touch of a button from today's Circuit of Service.
