

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts
or Bladder bothers you—Drink
more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four cuses of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

MAN HUNG BY MOB IN 1887 IS ALIVE TODAY

TACOMA, May 24.—Thirty-five years ago a posse in Missouri captured a desperate bandit upon whose head a price was set. The bandit was duly hanged to a cottonwood tree near Joplin, Mo., on July 12, 1887, the posse dispersed and a man with whom the bandit had been friendly cut him down and he recovered from the ordeal. This is the story told by the aged resident of Tacoma who has written to a newspaper here to learn if he can still be tried for robberies "in which men were killed."

The letter states the bandit came from Missouri to the Pacific coast and reached Tacoma in 1879. He says he has lived here and in this vicinity for 43 years and is known as a law-abiding citizen.

EAGLE POINT EAGLETS

A. C. Howlett

Mr. Thomas F. Nichols, a member of the firm of Nichols and Ashpole has been taking his meals at the Sunnyside lately and on inquiry I learned that his wife had gone on a visit to her parents, Mr. and Mrs. Frank Farkow, on the south fork of Little Butte creek.

Mr. J. G. Hannaford, who is living on the Chris Natwick farm northeast of here was a business caller Monday.

Wm. Coleman and another man passed through here Monday morning on their way up the creek, but did not stop, but I understand that he is connected in some way with the fishery business, either in the state or U. S. government. He always has a soft job, and that is no crime.

Pete Betts, who owns and operates a fine farm on Rogue River near the Crater Lake highway, came in early

Monday to our garage man, George Holmes to have his auto doctored up, and took dinner at the Sunnyside.

Ralph Young of Medford passed through here the first of the week on his way to Prospect.

Bud Obenchain of Lake Creek, came in the first of the week and went on out to Medford.

Mrs. Schmitt, one of the rustling women of the Crowfoot country near Derby, brought in her produce the O. J. MacKedge and wife and J. M. Fodren and wife of Corvallis, who have been here for the past two weeks, camping in the house known as the Robbott house, and spending their time gathering agates, started for their homes Tuesday morning, well loaded with a fine selection of various kinds of agates and other kinds of stones, among which were several fine specimens of petrified wood and Mr. Goin, "Agate Jack," has polished up what will compare favorably with some of the best to be found. I suppose that there has been at least over a thousand pounds of choice agates gathered off this section of the country and hauled north to Eugene, Albany, Newport, Marshfield, to say nothing of the amount that has been shipped to Portland.

Wm. Moore, formerly of Elk Creek, but now of Butte Falls, a professional saw filer, was visiting our town on his way to Medford about the middle of the week.

Mrs. J. H. Homan and her daughter, Miss Jane, were visitors at the Sunnyside Monday.

George Nichols, Jr., and wife of Medford, who own one of the finest stock farms in the Lake Creek country were visiting relatives in our town Monday afternoon.

Bert Clarno, who owns a fine farm on Rogue River about six miles from here, near the Crater Lake highway, was a business caller Tuesday.

Mr. P. S. Anderson, owner of what is known as the Britton farm came in on the Medford-Eagle Point stage Tuesday morning and went on up on the stage.

E. G. High and wife, nee Bessie Hazelton, of Ashland, were here Tuesday afternoon combining business with pleasure. Mr. High is in the aviation business in Ashland.

O. B. Williams of Medford, who is engaged in selling supplementary school works was here for dinner Tuesday.

George Cotterall of Beagle was a business caller Wednesday.

J. M. Wilfley, one of our leading orchardists in Rogue river, who has one of the largest and best orchards in the valley, was in town and reports a fine prospect for one of the best crops of fruit ever. The pear crop bids fair to be fully up to date, but the prospect for a bumper apple crop is not quite so good, nevertheless it bids fair to be a heavy one.

Among the diners Tuesday at the Sunnyside were Nick Young, Cliff Hickman and Thomas Abbott.

Mr. De Ford of Sams Valley was here on business on his way to Antelope valley.

Among the passengers on the Medford-Butte Falls stage Thursday was H. Stills of the firm of Stills Bros., of Indian creek, who have been engaged in the saw mill and dairy business, but have sold their saw mill out and are preparing to move over into California where their two brothers are living.

Mrs. Fred Dutton of Antelope valley was a business caller Thursday and reports that she has already 63 young turkeys hatched out and several hens setting on turkey eggs and that these already hatched are doing fine.

Fred and Carl Stanley of Lake Creek were also business callers.

Seth Dixon of the firm of Dixon Bros., of Klamath county who have been in this neighborhood for some time buying up cattle, while riding one of the horses designed to be used in driving out the cattle they have bought, was thrown from the horse and was quite badly bruised up and his face badly scratched up, but no bones were broken.

Mrs. Lammy, the lady who went from here to the Von der Hellen camp on the Crater Lake highway near Prospect to cook for the men came in to the sunnyside about ten o'clock Thursday night with her little boy, taking him to Medford to have him treated for a bad cut by an axe. She left here Friday morning very early for Medford.

I met our road supervisor Thursday and in speaking of the prospective water canal from above Butte Falls, he said that everything was about ready to advertise for bids on the bonds, that there was a little more work to be done yet before they were advertised, and he predicts that the canal will be ready for the water to be used next season.

Mrs. K. Hixon of Butte Falls and Mrs. Johnson of Brownsboro were passengers on the Medford-Butte Falls stage. Mrs. Johnson going up home on the Eagle Point-Lake Creek stage.

Roy Conley, the owner of the old Hink saw mill near Butte Falls, came out Friday with a hind wheel of his logging truck for repairs, having broken down. He took dinner here and took it on to Medford, as our wagon maker did not have in stock material heavy enough. F. A. Whaley was also here for dinner.

Friday morning was just the kind of a morning that most of the farmers were wishing for, so that they could go to the election and have a good time. Although there was quite a number of them did not vote as the democratic ticket had so few names on it, often only one for an office and he would be the nominee. In fact, there seemed to be but little interest taken and what little there was, was to decide who would be the nominee for circuit judge, and the result here was Thomas 59.

Newbury 15, pretty near four to one for Thomas. But the dinner the ladies of the town put out was said to be fully up-to-date. Mrs. Hott, Green and Stearns of Medford were among the guests and promised in case the ladies of Eagle Point ever gave another dinner they were coming out and bring the ladies with them. As near as I could learn the receipts from the dinner were \$45, and from the sales of aprons and other things the ladies had made to sell was about the same or a little more, not far from \$100. But the whole affair proved to be a grand success.

For Ten Dollars and Ninety Cents—This 30 x 3½ Usco

THE 30 x 3½ tire situation today is just this—

The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U.S. Tires always intended the 30 x 3½ USCO to be the highest value in its field.

At \$10.90 it creates a new classification of money's worth.

1922
SAT

FORDSON farms have that reputation. Early fall plowing is what keeps these farms free of weeds.

"That's easy to talk about, but how are you going to plow when the ground is so hard and dry, and the weather so hot that a team can't work?" That, probably is your objection to the formula.

"Use a Fordson-Oliver Plowing Outfit," is the answer. Heat and hard soil and dry weather don't bother a bit when you use Fordson power instead of horses. Early fall plowing with a Fordson tractor and an Oliver No. 7 plow will enable you to turn over the soil the time you know it will do the most good.
