

SCHOOL CLOSES ON APPELATE WITH A PICNIC

APPELATE, May 25.—Our school term is well high over. On Friday May 26, the last day, a school picnic is to be given at the creamery ground.

And let us say right here that as individuals and as a school we give due appreciation and feel an immense gratitude to those who have fought to maintain this high school that our education might continue and the progressiveness of the community might not become altogether extinguished. We are glad for the vacation but we are still more happy to know that we shall meet here again next fall to resume our school work.

They are putting in a complete line of dry goods and shoes for both men and women. The building is receiving a new coat of paint both inside and out.

Ward, a song by the glee club, and presentation of diplomas by Geo. Barker, completed the program.

Mr. and Mrs. Will High of Talent went to Central Point Tuesday to see their little grandson, who is ill with sore throat. The doctor has not decided just what the little fellow's ailment is.

We are pleased to note that George Alford has received the hearty endorsement of the voters of Jackson county, and we feel sure he will win out in the final election. We also feel that the people will not be disappointed in him as county commissioner.

Mr. and Mrs. H. G. Shearer of Medford have been out to their little alfalfa ranch in North Talent this week, working out some of the foul weeds which have commenced to bloom.

There do not seem to be many persons planting out fields of tomatoes for canning purposes this year. What is the matter? Can not the cannery men pay prices that will warrant the keeping in operation the several canneries in the valley? Surely there is good money in the canning of this much used vegetable.

The many new sown fields of alfalfa are doing nicely this year, and it is thought that many of the planters will be able to cut at least one good crop from these new fields.

We are sorry to be called upon to announce the passing of another of Talent's old residents, one who was held in high esteem by all who knew her. Mrs. Stump, who has for many years resided in our little village. A kind and loving mother, a good neighbor and a devout Christian. Our hearts go out to her loved ones who are left to mourn her departure.

20,994 MILES AND TREAD ONLY 1/3 WORN

MOST MILES per DOLLAR

Firestone CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, gruelling test. The carcass is intact after more than 11,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive

and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.
