Tuesday was the hottest day of the year so far, and yet no one suffered any particular discomfort from the heat. They just knew it was a little warm. But my, how most folks would have suffered if they had known the maximum temperature of the afternoon was 94.5. Fair weather is the prediction for tomorrow. Today starting out with a minimum temperature of 48 promised to be another warm one.

ASHLAND GRANITE COMPANY

Backed by twenty Ashland business men.

The Ashland Granite Company offers to the people of the Rogue River Valley \$150,000 of the common stock of the company at the par value of \$100 per share, no preferred stock issued.

The purpose of the corporation is to buy 140 acres of land and the equipment of the Blair Granite Company, near Ashland, enlarge the plant and build up this wholesale granite business to a point where it will become one of the largest industrial enterprises in Southern Oregon and pay splendid dividends to the investors.

An exhaustive research during a period of three months reveals the following facts:

That this granite exists here in practically unlimited quantities.

That in quality, appearance and durability it is equal to any and superior to most granite quarried on this continent.

That it is well established in Northwestern markets.

That the situation of the property, marketing conditions, freight rates, demand for the granite and prices obtainable are all favorable to the development of a large and profitable business which should employ many men at good wages and bring into the community thousands of dollars every month from outside sources.

The financing of this project is now under way and you are invited to have a part in it. Descriptive matter covering many phases of the business will be furnished upon request mailed to the company.

Buy the stock—Help build a big business

Make a payroll—Draw your dividends

Opportunity plus action brings results
