SINK OIL WELL DOWN 2500 FT.

Stockholders in the Western Oil company as well as the general public will be interested to learn that the Western Oil company has succeeded in financing drilling operations at the well to a depth of 2500 feet, or 300 feet below the 2200 foot level, which has been reached up to date. This has been accomplished, in addition to paying for all drilling done up to date.

Officials of the company declare that this financing has been done without any special effort. Provided that no unforeseen contingencies arise the cash on hand will push the well down to a depth of 2500 feet.

It is the intention of the company to continue drilling to a depth of 3500 feet or production. Some stock is still for sale at \$1.00 per share, according to company officials.

**A Laundry Service
Within Every Woman's Means**

It is here for you in this Family Service we offer.

What is more disagreeable on washday? Isn't it the messiness of wash water; the steam of boilers and tubs, the lifting and hauling?

And it's of that we relieve you—at a cost truly moderate.

We take your family bundle, wash it sweetly clean in soothingly soft waters and bliflow, glistening suds; and rinse it many times in more water sparklingly pure.

Next we daintily iron the flat pieces; the things like bath towels we dry softly and fluffily—they need no ironing; and other pieces that require it we starch and make ready for you to iron in your own home.

In a word, we do all the toilsome, mussy work of washday, and leave for you only the lighter, pleasanter task of ironing the lighter pieces.

It's a truly economical service within the means of every woman—we're sure you'll like it immensely.

Telephone, we'll welcome an opportunity to tell you more about it.
