School is out! District 57, comprised of Gold Hill, Rock Point and the Dardanelle districts has closed its most successful school year in the history of the institution. The vim and efficiency shown by the faculty employed at the beginning of the school year has built a school body that is second nowhere in this country. The results shown by the students this year are marked indeed and the district and school board were so pleased with the work of the teachers that almost the entire force was retained for the coming fall term. The athletics is the only point on which the school has not forged ahead. This branch was allowed to remain about the same as last year while the faculty was installing discipline into the school and ironing out the dance and daily fun habit which had become paramount in the Gold Hill schools. To build the athletics in the coming years the board has employed as a commercial teacher one of the best coaches in the state, a graduate of O. A. C., and an athlete of good record—Gold Hill News.
