

NEVER SAW IT'S EQUAL, STATES MRS. BROWER

Portland Resident Says No One Has More Reason Than She to Praise Tanlac

"I've never seen such a change in anyone and I don't believe anybody has better reason for praising Tanlac than I have," declared Mrs. J. F. Brower, 622, E. 81st St., Portland, Ore.

"Nearly all my life I had awful spells of sick headache that kept me in bed days at a time. My nerves seemed to collapse and I would almost go distracted over any little noise. Then about three years ago my stomach began to trouble me and I have simply suffered tortures from indigestion. I had to be extremely careful about even the little I did eat for gas made my heart palpitate until I could hardly breathe.

"I took Tanlac because a friend told me how much good it did her. Now I feel so well in every way I can't tell there was ever anything the matter with me and I gladly give this statement in the hope that others may profit from my experience."

Tanlac is sold by all good druggists.

NEW ARMY PLANE BREAKS AN AXLE

CAMP LEWIS, Wash., June 8.—After a successful flight during which the machine reached an altitude of 10,000 feet and remained in the air for more than an hour, the new army pursuit airplane, tested for the first time yesterday evening at Camp Lewis snapped an axle on landing and lies a splintered wreck on the flying field.

Lieutenant John L. MacReady, holder of the world's altitude record, who piloted the machine on its first flight, escaped with a shaking up and a few bruises.

The plane is the first of the new fighting airplanes developed since the armistice and of which 200 are being manufactured for the army by a Seattle airplane manufacturing company.
