

## ASHLAND FOURTH FESTIVITIES OPEN WITH A BIG DANCE

ASHLAND, July 2.—The Fourth's festivities really began last Saturday evening with the big dance in the park. This was a tryout for the new pavilion, the large platform being an ideal one. Moreover, it is in the great out-of-doors, near the brookside, and protected by splendid shade, especially grateful shade these hot days.

Two parades will celebrate the dual celebration, the Ford feature having occurred today. If Henry Ford has made 5,000,000 machines, a good proportion of them were in evidence here today, including all models both ancient and modern, the procession being a sight to behold. It is stated that the Ford parade will be repeated in the big demonstration tomorrow. The wrestling match is this evening, and the boxing bout on Tuesday afternoon at 2 o'clock, both at the Armory. Don't get events or dates mixed.

Forming on Mechanic street at 10:30 a. m., on Tuesday, the order of the parade follows:

1. Marshal and aide.
2. Ashland band.
3. Float bearing the "queen of the Lithians," surrounded by the Lithian "bubbles."
4. Medford mayor and floats.
5. Talent.
6. Jacksonville.
7. Phoenix.
8. Gold Hill.
9. Rogue River.
10. Central Point.
11. Eagle Point.
12. Grants Pass, mayor, floats and "cavemen."
13. Grants Pass band.
14. Marching organizations.
15. Ashland section, mayor, city officials, etc.
16. Floats (over 40 of them).
17. Ford Day entries.
18. Bicycle entries.
19. Ashland fire company.

Fred Holmes is marshal of the day, with F. E. French, assistant, reinforced by the Lithian organization, appearing in public for the first time on the Fourth. Their identity will be easily recognized. Simply be on the lookout for 28 young huskies, "armed" with dark trousers and white shirts, black ties and straw hats, presenting a very natty appearance.

### Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allendru, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allendru with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

perized by a commission appointed by the mayor, which will safeguard the public interests insofar as a good, clean exhibit is maintained, minus any rough stuff. Wrestling and boxing will take the place, athletically of the rodeo sports of former days.

Nininger & Warner's place, corner of East Main and Pioneer avenue, is headquarters for all information concerning celebration details, and those desiring same should call at this clearing house.

A silver cup is the trophy won by First Company at the recent encampment at Fort Worden, this award being on exhibit in McNair Bros. drug store. The cup was presented for skill exhibited by the command in handling the big pieces of artillery. Albany tied with Ashland in a contest involving the adjutant general's cup, given for general proficiency, but incident to the hazards of a toss-up, Albany won. The boys of the First all agree that the recent encampment was an ideal one, in fact it afforded a first-class summer outing in connection with military schooling.

The hotel-sanitarium project is being held up for the present. The railroad strike, also the unscrubbing of several big systems is rather disquieting, consequently nothing further in the way of development will be forthcoming until conditions improve. This will mean not until autumn or even later.

Sap-and-Salt now has its own as a regular boarder, Jesse Winburn having returned from the East, and is dispensing hospitality at the noted retreat up the canyon. Jesse will lead where others follow in the activities of the Fourth locally, also in connection with the county fair at Medford this fall.

The June crop of weddings was a notable one throughout this locality, over a dozen being of record. A young couple or two have also disappeared under suspicious circumstances, but due to prejudice hereabouts against publishing an item of news locally until it has appeared either in Medford or Portland papers, we must not say anything about it.

It will take a big lot of chlorine to purify Rogue River, now that its waters, this early in the season are pronounced by experts as being contaminated.

### EAGLE POINT EAGLETS

A. C. Howlett

J. M. Spencer of Ashland, has established a camp on the bank of our beautiful Little Butte creek for sleeping quarters for himself and his assistants. They are doing the surveying on the Big Butte-Eagle Point canal project. They have become members of the Sunnyside family at meal time.

Mrs. John Lane of Derby came out Monday with Charley Humphrey, and went on out to Medford, Mr. Humphrey bringing a load of stove wood to the Sunnyside.

Robert McCabe and Clifford Hickson were here for dinner Monday.

Alvin Musso, a brother of Mrs. Ernest Dahack, our popular barber, who has been here visiting her sister, left Monday for his home in California.

Mrs. Thomas E. Nichols returned from Medford Tuesday where she had been under the care of a doctor for a week or more. Mrs. Nichols is counted as one of the pioneers of the valley and has a host of friends here who are interested in her welfare.

I took my regular morning stroll Thursday morning and discovered that our town was almost without a visitor as the farmers are all busy at home haying. I met Benj. Brophy's two little girls, Gwendolyn and Margaret, who had driven in in a one-horse buggy to have a sickle mended, and R. A. Petty, a farmer who is waiting for his grain to get ready to cut, and Benj. Whetstone who while he was waiting for the water to irrigate his ground came in

to attend to a little business with our blacksmith, W. L. Childreth, and T. F. McCabe of Reese creek came in on a hurried errand.

W. G. Averill, the man who lost his coat with money and checks in the pocket came out on the stage and went to Medford Monday, bought a span of horses and came out Tuesday. He complains that in addition to other troubles he had lost his spectacles and one of his stirrups off his saddle. Wouldn't it be a good idea to have him take his wife along with him to care for him? He took dinner before he went home.

Wednesday just as we were eating dinner Mr. and Mrs. E. R. Cardwell and our daughter, Mrs. Hoyt of Fort Klamath, came in, Mr. and Mrs. Cardwell on their way to Gold Hill to visit relatives and attend to business matters and our daughter to make a short visit. They came out on the Rogue river route and report the road in fine condition except a few places where they are working on the road.

From all appearances our little town and surrounding country will be practically deserted next Monday and Tuesday for it seems that almost everyone who can get away is going somewhere, some to Ashland, some to Yreka, Butte Falls, Dead Indian Soda Springs, Lake Creek, some are going fishing and Frank Lewis and your correspondent left to look after the town interests.

Today, Saturday, will be a day of change in business affairs, for the men who have engaged carrying the mail to and from this postoffice whose contracts expire June 30. The new men will start on their contracts today, Saturday, and it might be of interest to know who the new contractors are, their rents, the distance to travel and the compensation.

George Holmes, our garage man, has secured the contract to carry the mail from Medford via Eagle Point, Derby to Butte Falls daily except Sunday, official distance 33 miles, and from Eagle Point to Medford and back Sunday. Consideration \$3482.40 per year, Samuel F. Coy, Eagle Point-Climax way, twenty and a half miles each way, consideration \$925.36. Joseph E. Culbertson, Eagle Point-Lake Creek route, six times a week each way via Brownsboro, consideration \$719, twelve and a half miles each way.

Lucius Kincaid, from Eagle Point to Persist via free ferry and Trail, 33 miles each way, compensation \$2250.

The distance from Medford to Butte Falls is rated at 33 miles but the carrier has to make the trip from Eagle Point to Medford four times each day except Sunday and that day two times making the distance to be traveled each working day 96 miles provided one could run straight all the way, but measured by a speedometer it is 98½ miles.

I have learned since securing the above figures that Eddie Boothby has secured the contract for carrying the mail from Derby to Prospect, but did not learn the particulars.

D. E. Bernays of Oakland, Calif., came in from Klamath Falls via Fort Klamath and Crater Lake, spent the night. He reports that a number of tourists had already visited the lake. Mr. D. H. Norton of Shasta, Calif., also came in and spent the night.

The ladies improvement club met at Mrs. R. G. Brown's Thursday, the guests of Mrs. Royal Brown and Mrs. Kentner.

A very sad accident occurred Friday afternoon in Eagle Point resulting in the death of Harold Denton, son of Mr. and Mrs. Alvin Denton of this place. Harold who was helping his father haul hay slid down off the back of the load just before his father who was driving turned into his yard off the county road (Main street) along Little Butte. As Harold who is about nine years old, started around the load for a drink of water, he came face to face with a touring car from Crater

Lake which was until that instant hidden from him and he from its occupants. The driver of the car who was not driving fast did his best to avert an accident by turning sharply away from the boy but the bumper struck him and a wheel of the car ran over him injuring him so that he died within about a half hour, soon after the arrival of Dr. Holt who was summoned immediately.

Harold was a very winsome boy, a faithful member of the Sunday school here and one of the regular scholars at the Daily Vacation Bible School which has been conducted here during June by Mrs. M. H. Kantner of Los Angeles. His death has saddened the whole community.

### ELK CREEK

The California Oregon Power company is doing extensive work on a line to run from Prospect, Ore., to Copco, Calif. They have established two camps near Persist, Ore., one employing about 30 men and the other 12 men. A Reo speed wagon is being kept busy hauling supplies and tools for the camps. It makes daily trips to Medford. There is several trucks carrying heavy timbers for the poles. Some are destroying to Elk Creek roads by having too heavy loads, as the grades cave out on the sides.

George Hall is completing his ditch. He has water running in the ditch. This ditch is about one mile in length, between 2 to 4 feet deep and 3 feet wide, some places it is wider. The ditch was difficult to dig for the survey ran thru solid rock. Mr. Hall has also cut some of his grain.

Miss Francis Greb was visiting Mr. and Mrs. Grasty Sunday, June 25. The Persist school was closed for the summer vacation June 23, 1922.

Mr. and Mrs. E. A. Whitley were visitors at the L. A. Whitley place Sunday the 25th. Ezra Whitley accompanied them. It was quite a trip for Mr. Whitley as he will be 73 July fourth. He is not able to get around very much as he is weak with old age.

Fred Sturgis put up some hay Tuesday. Ezra Whitley helped him.

The annual summer camp for the Y. M. C. A. will have its headquarters on Mr. Dane Peffer's place, above Mr. Claud Moore's place. It was formerly known as the Storms place by people in this vicinity. Mr. Wood, who will have charge of the camp, states that between 40 and 50 boys will be present. Some honor to Elk Creek. The camp term will be ten days. The boys will come in cars as far as Trail and hike to camp from Trail, which is a distance of 6½ miles. Elk Creek welcomes them.

The irrigation dam belonging to L. A. Whitley was completely destroyed Wednesday afternoon, June 28, by having too much water pressure. A new one will be built immediately. Dave Pence is having his hay cut.

### GIM CHUNG China Herb Store

This is to certify that Gim Chung of Medford, Ore., has cured me of goitre and stomach trouble. S. M. Leonard, 509 J. St., Grants Pass.

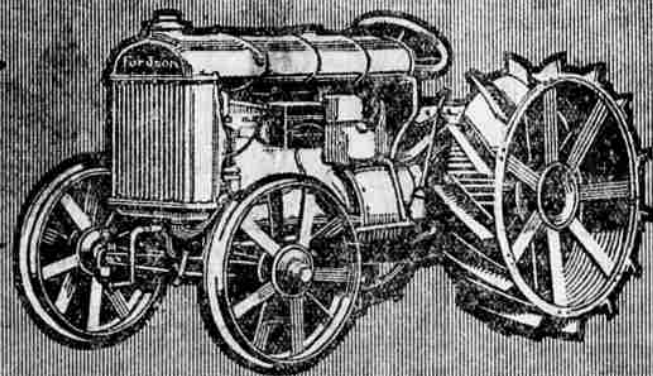

This is to certify that Gim Chung of Medford, Ore., has cured me of rupture of four years' standing. E. G. Isham, 413 S. St., Grants Pass, Ore.

Medford, Oregon, Jan. 13, 1917. This is to certify that I, the undersigned, had very severe stomach trouble and had been bothered for several years and last August was not expected to live, and hearing of Gim Chung (whose Herb store is at 214 South Front street, Medford), I decided to get herbs for my stomach trouble, and I started to feeling better as soon as I used them and today am a well man and can heartily recommend anyone afflicted as I was to see Gim Chung and try his Herbs. (Signed) W. R. JOHNSON.

Witnesses: Wm. Lewis, Eagle Point; W. L. Childreth, Eagle Point; M. A. Anderson, Medford; S. B. Holmes, Eagle Point; C. E. Moore, Eagle Point; J. V. McIntyre, Eagle Point; Geo. Von der Hellen, Eagle Point; Thos. E. Nichols, Eagle Point.

### When Time Means Money

DON'T slight the preparation of your seed-beds in order to plant on time. Better seed-beds mean more bushels per acre.

Fordson power and the Roderick Lean Automatic Engine Disc, specially built to work with the Fordson, will get your land into shape for planting in plenty of time. 25 acres a day can be covered with this compact, one-man outfit.

The Roderick Lean Automatic Engine Disc prepares a deep, level and finely pulverized seed-bed in one harrowing. With the Fordson it provides the most rapid, thorough and economical means of getting your spring tillage done.

We will gladly show you the many advantages of this equipment.
