

Ask your dealer for the NEW PRICE

At the new price, the Fisk Non-Skid 30 x 3 1/2 Tire is a value that has never before been equalled, even by Fisk. Big, strong, lively, safe and good-looking, you can now buy complete tire satisfaction at a price which is astonishingly low.

The larger-size, straight-side Fisk Non-Skids have been reduced in proportion—and give a value in extra mileage greater than any other standard fabric tires for general use.

There's a Fisk Tire of extra value in every size, for car, truck or speed wagon.

ASHLAND TO HAVE CONSERVATORY OF MUSIC, SEPT. 5TH

ASHLAND, July 12.—We have summer schools and conferences, celebrations and Chautauquus on a firm foundation, but a brand new departure will be the institution of the Ashland Conservatory of Music, which will open on Sept. 5. This will be a distinct addition to the advantages of the town, both musically and educationally. The Leschetizky method on the piano will be in vogue. This sounds rather Bolshevik, but they say the title is really Polish, and the great author is one of the noted masters of the profession. Rooms very conveniently located for a studio have been secured in the Camps block, the conservatory to be conducted by Madame Tracy Young.

The radio has invaded Lake of the Woods precincts for the edification of the large colony of campers there. Concerts are "listened in" daily, and it is said the big chorus by Pelican Bay Mosquitoes can be heard with peculiar plainness at the lake as it is broadcast over a wide extent of country.

Miss Constance, daughter of Mr. and Mrs. Charley McWilliams, of Klamath Falls, came to Ashland last Sunday for a visit with her grandparents and aunt in the F. G. McWilliams family.

Mr. and Mrs. Kenneth Day of Honolulu, have returned here from their northern trip which extended as far as Centralia, Wash., and will visit Crater Lake with a party of friends, Job Tozer being sky pilot of the auto tour.

The baby elk addition to the park zoo is proving to be quite an attraction. It is about the size of a young calf, and quite docile, even playful.

A score have signed papers to recall the recall petition, and more stand ready to sign up just as soon as it becomes evident that addition signatures are needed. The signatories, however, are trusting that enough defective signatures will be discovered in the original recall papers to defeat the movement without further effort on their part.

A dozen Ashland lads are enrolled in attendance at the boys summer camp on Elk creek, conducted under Y. M. C. A. auspices. Many more would have gone, but during these vacation days dad needs son to help on the ranch, also in the garden and orchard.

Albert McCann, S. P. employee with headquarters at Dunsmuir, was in town lately in company with Jim Dodson, enroute by auto for Crescent City on a pleasure trip, also prospecting for a job in the coast country.

The City Laundry is run on the eight hour system, but the summer schedule is from 7 a. m. to 4 p. m., instead of from 8 a. m. to 5 p. m., this arrangement better accommodating the help during the prevailing hot spell.

Rev. H. A. Carnahan, of Oakland, Calif., was in town early in the week, on his way to Crater Lake. He was with a party of three, relatives from Nebraska, touring coast sections by auto, and of course must needs see southern Oregon's great natural wonder. Mr. Carnahan is still associated with "Y" work in California, headquarters being at the Embarcadero, San Francisco.

Mrs. Trauttfether, formerly of the Plaza confectionery, in this city, now resides in Medford, having married a party by the name of Temple, an implement dealer in the county metropolis. Arthur Trauttfether and his sister Ethel are in San Francisco, and Gertrude is an employee of the Jackson County bank, Medford.

Hope Rebekah lodge No. 14, auxiliary of Odd Fellowship, installed officers on Tuesday evening this week, the ceremony concluding with a social entertainment.

Many will remember George A. White, popular S. P. conductor with headquarters at this terminal. At one time George was located at Sacramento, afterwards at Weed, and now has been transferred again to Ashland, on the Shasta division run between this city and Gerber.

In order to effect a surcease of ennui at Lake of the Woods, Prof. Vin- ing hid himself to Yreka where he made the eagle scream on the Fourth. That result having been accomplished, he returned to the hydro-arboreal environment at the lake, after stocking up with a grubstake of supplies which indicate that he plans to entertain a legion of friends during the summer.

Rev. I. W. Allen of Chicago, preached in the Presbyterian church last Sunday morning. Rev. C. F. Koehler, the pastor, left Monday for the synodical gathering at Corvallis, and later on will go to Portland to participate in activities connected with Sunday school work throughout the synod's jurisdiction. On Sunday, July 16, the Christian Workers Band, all young folks, will have charge of the morning services.

Don't go to the city library on Sunday afternoons in July and August, for that institution will observe the Sabbath to keep it holy during those two months in the year.

Modern Plumbing & Heating Co.

Phone 620 Sparta Bldg

FAIR MEETING TO BE HELD TONIGHT

Directors of the fair association will meet this evening at the office of the chamber of commerce and many details relative to the operation of the fair next September will be given their consideration.

Some of the materials which have been holding up the completion of the buildings now under construction are beginning to arrive and within the next few weeks the improvement program of the association will be more than half completed.

By the end of this week the Agricultural and Horticultural Palace will be under roof after which the hanging of the doors and windows, installing of the plumbing and laying of the cement floor will complete that structure. This building is 75 feet wide and 109 feet long. The building which the merchants contemplate putting up will be 66 feet wide and approximately 130 feet long.

TAKE DERBY ROAD C. LAKE, ADVICE

Autoists to Crater Lake are advised to take the Derby road, saving any delay on account of the construction work. Good time can be made on this route.

The snow is practically all gone in the vicinity of the lodge, thus eliminating the mosquitoes.

The lodge has enjoyed a nice patronage, with a better showing than last

year. The snow leaving early has now how soon it will be open all the given a 10 days start over last year.

The Rim road is being cleared and Superintendent Alex Sparrow has a force of men at work clearing the road. There is no definite date just who is the president of the Crater

Lake National Park Co. Monday Mr. Anson McCook Beard with a party of five arrive for a few days stay. This party is from New York City. They have also visited Yosemite, Yellowstone and from here go to Rainier.

SHINOLA

America's Home Shoe Polish

KEEPS YOUR SHOES RIGHT UP TO THE MARK

Makes them neat and trim, and improves the whole appearance.

Shines for all the family. Economical shines, because Shinola preserves leather and prolongs the life of shoes.

Motor oil breaks down "almost immediately"—if it contains destructive "sulpho" compounds

Few motorists realize the damage resulting from the use of motor oil containing destructive "sulpho" compounds. A well known treatise on lubrication says: "The presence of 'sulpho' compounds makes itself apparent by an almost immediate decomposition of the oil when exposed to heat."

Cycol is free from these destructive "sulpho" compounds. They are eliminated by the new Hexeon Process, developed and used solely by the Associated Oil Company.

Cycol withstands engine heat—retains its body—maintains the essential lubricating film between moving parts—helps greatly in sustaining an "oil tight" piston seal. Prove this by flushing your engine with fresh lubricating oil, not so-called flushing oils or kerosene—and refilling with Cycol.

The importance of the Lubrication Chart

Different brands of motor oils have different bodies. The safest, surest way to get the best performance from your motor and avoid expensive engine troubles due to incorrect lubrication is to use the grade of motor oil specified on the Cycol Lubrication Chart.
