

GERMANY MAKES FORMAL REQUEST FOR MORE TIME

PARIS, July 11.—(By the Associated Press)—The German representatives today submitted to the reparations committee the remainder of the present year. The note stated that the 32,000,000 gold marks due on Saturday were available if the commission insisted upon this payment, but recommended that it also be waived.

The German request did not specify an extension of the moratorium. Alphonse of France and other of the non-Russian representatives had insisted upon beginning work just where the Geneva conference began and had made progress impossible by throwing over the old straw and demanding replies that the Russians could not make until the other powers told them what would be done financially by those powers toward Russian restoration.

"We cannot say how long it will take to restore Russia until we know what our resources will be," Letvinoff insisted.

MINERS TO PLEAD FOR MODIFICATION HARDING'S PLAN

WASHINGTON, July 12.—Officials of the United Mine workers of America, after a conference today with Secretary of Labor Davis, were understood to have decided to seek a conference with President Harding at which request will be made that the executive modify his coal strike settlement plan so as to guarantee that the decision made by the proposed arbitration committee shall be binding on all operators in the country.

Previously high government officials declared today that in their opinion both United Mine Workers officials and spokesmen for the bituminous operators were delaying and evading action on President Harding's plan for arbitration of the coal strike in an effort to ascertain whether public opinion will permit a rejection of a settlement proposal.

These officials declared that in the meantime a serious situation in the matter of the public coal supply was likely to develop.
