

Local and Personal

The public market this morning was unusually good for a week-day market, although it was not as well stocked as last Saturday's. Large quantities of excellent raspberries and gooseberries were on sale, many of them having been brought from distances as great as twenty miles. Some were brought from the Applegate district and others from Ashland and Medford districts were on sale. Excellent large black cherries and apricots were also on sale. The market was practically stripped clean by 9 a. m.

OBITUARY

FIELDER—Julia Cheatham Fielder was born in Coldwater, Mich., and died July 14, 1922. She came to Oregon with her parents, when a child making her home at Central Point. After a few years she moved to Medford where she received her education in the public schools. She also was a graduate of the Oregon State Normal and attended the University of California. At the age of fourteen she joined the Methodist Episcopal church in which she has been an active member. She was interested in all phases of church activities, especially devoting much of her time and energy to the work of the Woman's Foreign Missionary Society.

She began her work as teacher in the Ashland Normal, later entering the public schools of Medford where she has served as a most loyal and efficient teacher for many years. She devoted herself to these duties without personal thought, and was beloved by pupils, parents and teachers.

GIRLS! LEMONS

BLEACH FRECKLES

AND WHITEN SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan bleach, and complexion whitener.

Massage this gently fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy white the skin becomes.

Says His Prescription

Has Powerful Influence

Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allendru, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allendru with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.
