Local and Personal

The record of the ten years' history of the public market was broken this morning when 57 different persons were selling produce and other commodities to the estimated 800 patrons visiting the market. All available selling space inside the market was used, and the other venders took up stations outside with their wares. The previous record was 45 sellers in one day. Everything reasonable was on sale including peaches, apricots, berries, early apples and 22 sacks of sweet corn, eight dozen to the sack. This corn sold at 25 cents a dozen. No raspberries or loganberries were on sale.

Here is the way the Ashland Tidings predicts about today's recall election vote in that city: "There are few citizens, aside from those directly interested, who even attempt to hazard a guess on the result of the recall election tomorrow. MAIL TRIBUNE DELUGED WITH OFFERS OF DOGS

Every cloud has its silver lining, and every loss has, we suppose, its gain. At any rate The Mail Tribune robbed of $30 worth of linotype space bands yesterday, has had more than $30 worth of fun out of it. It seems nearly everyone in Jackson county has a dog they want to get rid of and which of course, qualifies as a watch dog.

One subscriber called up this morning and said he had a world beater, a real biting dog, with 42 teeth six inches long, long shaggy coat and after dark wouldn't make friends with a beef steak. He only wanted $35, and when asked about his teeth, said we could tell by examining his teeth.

Another citizen, a physician, called up a few minutes after he received the paper and wanted to make an immediate sale. His dog, it seems, has never been civilized, is too dangerous even for a doctor to own, and would make ideal burglary insurance, at the cheap price of $50.

These represent a few serious replies. There were others who seemed to tak this paper's appeal for another Cerebrua, in a flippant manner. One well known rancher dairyman for example, said he had a dog with one tooth that would scare anyone away whenever he opened his mouth. Wasn't good for anything else, would make a fine watch dog. Would trade him for a page ad.

Another declared he had a dog called Goblin, and it was invisible. He doubted if we wanted it. We ordered it, but haven't seen it yet.

However, the next night prowler is going to get a surprise. We will see to that.

CHARGE FRAUD AGAINST BANK MEN, KLAMATH F.

KLAMATH FALLS, July 29.—Former officers and directors of the defunct First State and Savings Bank are charged with fraud and conspiracy in handling the bank's funds, previous to insolvency in an equity suit filed here by Frank C. Bramwell, state bank examiner, for the bank, in which recovery of $300,000 is sought. Those named in the complaint are J. W. Siemens, John Siemens, Jr., Ed Bloomingcamp, R. D. Murphy and Marshall Hooper.

The complaint alleges that excessive loans were made by the three of the defendants, J. W., and John Siemens and Marshall Hooper, acting as board of directors whereas five members of the board constitute a quorum; that loans were made on inadequate securities and the defendants conspired for the purpose of opening the bank for their own personal gain, and to the advantage of the private corporations to which loans were made, and in which utter disregard was shown the rights and interest of the bank and its depositors.

It is further alleged that they made illegal loans to themselves and that large losses resulted on account of loans to insolvent and irresponsible persons and corporations.

The complaint charges that following the reorganization after the first closing of the bank the defendants fraudulently took out of the savings department valuable securities in the sum of more than $54,000 and replaced them with inferior securities from the commercial department of the bank.

The reopening of the bank after its first failure in February, 1921, was marked by a demonstration by the citizens unusual in banking history. Faith in Captain Siemens, founder of the bank and pioneer citizen, was demonstrated by subscriptions which poured in from all parts of the county. Without this aid, Captain Siemens declared at the time, the bank could never have reopened.

The second closing came in February, 1922, and was marked by ugly rumors current among depositors and stockholders.

Paddock to Take Stump.

PASADENA, Cal., July 28.—Charles W. Paddock, monopolist in the field of sprint records, has signed a contract for a six weeks' speaking tour in Canada during 1923 with the Dominion Chautauqua, limited. The contract calls for fourty-two one-hour lectures on clean athletics and clean living.

HOOVER HOPES TO CUT PROFITEERING OUT OF COAL MKT.

WASHINGTON, July 29.—All producing coal mines of the country will be given first call on railroad coal cars as soon as the organization of the administration's emergency fuel control machine is completed, it was announced today by Secretary Hoover, chairman of the federal coal distribution committee. The priorities on cars to producing mines will be passed upon by the distributing committee, Mr. Hoover said, so that all coal may be obtained under the fair prices agreed upon to prevent profiteering. The commerce secretary said it would then be up to the states to maintain prices within their boundaries by the prevention of re-sales and profiteering.

Mr. Hoover plans to make public soon proposals being sent to all the states for the organization of local fuel control bodies.

The federal plan, he added, contemplates that each state shall take the entire responsibility for distribution and prices within its boundaries while the federal government will see to it that the states get coal from the operators at fair prices.

GET EXHIBITS FOR CO. FAIR READY

The County Fair being only six weeks away, all Boys' and Girls' club members will begin whipping their products into shape for exhibit. Since this is going to be the finest exhibition outside of the state fair all members want to take advantage of the opportunity to make their exhibits.

Some of the members of clubs such as sewing have their work completed and will get their work collected and packed ready for the county club agent to gather at the first opportunity.

Any clubs planning on having demonstrations at the fair are advised to pay particular attention to these at the meetings. The Washington Poultry club meeting at the home of the local leader, Mrs. Wait, will discuss the problem of demonstrations Monday night at 7 o'clock.
