PER CAPITA MAIL IN U. S. A., 112 PER PERSON

WASHINGTON, Aug. 3.—Every citizen of the United States would have received 112 letters last year if the aggregate letter mail which passed through the hands of the postoffice department were to have been divided on a per capita basis. A statistician in the department has estimated that 11,333,000,000 letters went through the mails last year. Comparing this total with postal records of foreign countries, the department's expert announced that Great Britain had a "per capita exchange" of 34, Germany 25, and Italy 24.

ROSEBURG MAN WANTS TILLER RD. PUT IN REPAIR

E. M. Isaacs, representing the Douglas county court, and the Roseburg Chamber of Commerce, is in the city to confer with the Jackson county court, the Medford Chamber of Commerce, the California-Oregon Power company, and the forest service, regarding the immediate repair of the Tiller-Trail road, so that the remaining tourist travel will not be diverted to Eastern Oregon.

It is now necessary to make a detour, owing to construction work under way. This detour is rather difficult, and Mr. Isaacs says that by expending some money, it can be made safe and easy to negotiate. The contractor has agreed to donate $2400 the Douglas county court has agreed to pay its share, and give permission, and what money they can spare is asked of Jackson county to do the work, the detour being in Jackson county. Mr. Isaacs conferred with the county court Wednesday, and they agreed to co-operate.

Mr. Isaacs says he drove over the Tiller-Trail road Sunday, and that with the expenditure of a very little money it could be put in good shape.

It is expected that Supervisor Stankim of the forest service will arrive in the city this afternoon, and that a meeting will be held at once to settle the matter.

Bead Work All the Rage With Women In London Society

LONDON, Aug. 3.—(I. N. S.). The beadwork craze for evening dresses in London is stronger than ever. Sequins and paillettes are dead.

Small beads of steel, bronze, glass, china and even felt adorn dresses for both day and evening year in London today. They are however, no longer massed together to produce heavy, chain-mail effects, but are applied singly by hand, in delicate embroidery designs. For evening wear the metal varieties, as well as plain and colored crystal, are preferred, while small white china beads are used extensively on gay-colored frocks of cotton georgette or voile.

Woolen beads trim gowns of kasha (a kind of serge) or crepe marocain, and a novel touch is added to creations in these heavier materials by adorning them with designs carried out in the new felt beads.

These consist of quaint geometrical shapes—triangles, diamonds, chevrons of the most vivid-hued felt—jade, yellow, cerise, Chinese blue.

Another novelty from Paris, which has made its appearance on some of the lovely cream satin gowns designed for Courts, is the tiny ring of mother of pearl. Thousands of these little rings are stitched by hand to the gown following a scalloped design and giving a fish-scale effect.

SEATTLE, Aug. 3.—Six thousand veterans of the wild west division, the 91st, will gather in Seattle for a reunion September 29 and 30, according to O. W. Schmitz director of the 91st division association. Mr. Schmitz bases his estimate on correspondence with members of the division.
