Local hunters are excited and fidgety in anticipation of the opening of the hunting season next Sunday. They are reminded that the season on deer and native pheasant is the only season which opens Sunday. The season on quail opens September 15. The open season on Chinese pheasants and quail opens October 15 and closes on October 31. The changes in the dates of the open season in no way affects the bag limit or other regulations provided by law regarding the hunting, killing or having in possession of game.
