

POULTRY MEETING TOMORROW NIGHT PUBLIC LIBRARY

Two of the most interesting evening poultry meetings of the season will be given tomorrow and Saturday nights in Medford and Ashland.

In both cases the meeting will be held in the basement of the public library at eight o'clock.

The meetings will be an illustrated talk by Mr. George Wood who is secretary of the Poultry Producers of Central California.

Mr. Wood is one of the organizers of the Producers, is himself a poultryman, owning 1200 hens, and has been identified with the poultry business for some eleven years.

Fifty slides will be used to illustrate the lecture. These slides include pictures of six different types of poultry houses most commonly used for large flocks and pictures of high record hens and pedigreed cocks with a portion of the talk devoted to egg laying contests.

Information will be given as to the formation and operation of the largest poultry organization in the world. The housing and management used on the largest poultry ranch in the world will also be discussed.

The Friday night meeting will be held in Medford, Ashland's meeting being held Saturday evening.

TIME FOR SECOND CODLIN MOTH SPRAY

The second brood of codlin moth are now just about at the peak of the brood. Lots of eggs are being laid every day, and a great deal of infection may be expected from now until the fruit is harvested. All fruit that is not to be picked until the very near future should be covered thoroughly.

For this application it is well to use a sprayer, at the rate of one pound to the 200-gallon tank. In districts where codlin moth are exceptionally bad, use six pounds of dry arsenate of lead to the two hundred gallon tank.

CLAUDE C. CATE,
County Pathologist.

Branch of Pantorium Located at Ashland

Kenneth Kington will open a branch of the Medford Pantorium at 386 E. Main street, Ashland Monday, April 21st and will be prepared to have everything in cleaning and pressing done on short order. The work will be done in the Medford Pantorium plant, which is one of the best in Oregon and this will guarantee to the people of Ashland and vicinity the best workmanship and service.

Stability starts with the crude

One of the most important requirements of a good motor oil is that it possess stability—that is, that it maintain its chemical composition and its lubricating body under all conditions of engine operation.

If an oil changes its chemical composition—"breaks down"—at high operating temperatures, it can no longer maintain a lubricating film between the bearing surfaces, and its value as a lubricant is destroyed.

Certain crude oils possess a higher degree of stability than others. Because of its large production of practically every type of crude, this company is free to choose for the making of Zerolene only those crudes which are particularly adapted for the purpose.

The Patented Vacuum Process

In the process of distilling and refining these selected crudes, it is of the greatest importance not to destroy their natural "oiliness" and stability. For this reason we employ our own patented high-vacuum process exclusively. By this process the oil produced—Zerolene—retains all the natural "oiliness" and stability of the original, selected crude from which it is made.

No other refiner on the Pacific Coast uses any form of vacuum distillation. No other refiner in the United States uses as high a vacuum as this company.

Zerolene of the correct grade for your car gives perfect lubrication and permits the development of maximum power, speed and gasoline mileage.

U. S. TRADE WITH SOUTH AMERICA ON THE INCREASE

NEW YORK, Aug. 17.—(By Associated Press). Latin-American trade is clearly on the upward trend despite the sharp decline in the flow of commerce between this country and the southern republics during the past fiscal year, according to a survey of the situation made today by Dr. Julius Klein, director of the bureau of foreign and domestic commerce of the commerce department.

Readjustment from abnormal conditions he found to be mainly responsible for the reduction of Latin-American imports into the United States from \$1,131,000,000 in 1921 to \$681,000,000 in 1922 and the decline in exports to South America from \$1,303,000,000 in 1921 to \$498,000,000 in 1922.

"The twelve months in question," Dr. Klein said, "simply represent a period of readjustment from a year of abnormal trade inflation down to the proportions justified by the normal relations among the American republics. The beginning of 1921 found on hand in the United States large stocks of most of the raw materials coming from Latin America and during the period of readjustment the consumption of these stocks and the demand for new ones was slow. Like conditions prevailed in Latin-America with respect to our goods."

"At the same time there has been a lack of demand in Europe as well as in the United States, for their export commodities. "There are, however, many signs which promise an early improvement in the situation. * * * Our exports to the ten republics of South America were on the decline during the first six months of 1921 but they increased steadily during the first six months of 1922. Latin-American trade is clearly on the upward trend."

DISCOVER GLACIER NEAR LOS ANGELES

LOS ANGELES, Aug. 17.—A glacier has been discovered in the San Bernardino mountains, in San Bernardino county, 100 miles east of Los Angeles nearly six miles from Seven Oaks in a region never suspected of harboring a field of ice, according to word brought here by F. G. Leonard and S. C. Freefield, business associates of this city. They described the glacier as comprising a field of solidified snow about a quarter of a mile long, varying from 75 to 150 yards in width and from 15 to 20 feet in depth. At its base, they stated, there was a grotto, or ice cave, from which flowed Barton creek.

LOCAL REPUBLICAN COMMITTEE HOLDS A BIG MEETING

There was a splendid attendance at the meeting of the republican county central committee at the Medford hotel Wednesday afternoon to meet the new state chairman, Walter L. Tooez, Jr., who is visiting every county in the state organizing the republican party into an active fighting unit not only for the campaign this fall but for the coming national campaign in 1924. He stated it is just as necessary now to stand by the entire ticket as in a presidential campaign, for the reason that whenever the democrats deceive the republicans into voting for one of their men and electing him it is one more unit in the democratic chain of organization that will be fighting the party nominees at the next election.

After stating his plan of organization and urging the importance of every republican man and woman, to support the party nominees a general conference followed.

Chairman Wakefield of the county committee then announced the following as the officers of the county organization:

Members State Committee, Jackson County

S. S. Smith, state committeeman.
T. H. Simpson, congressional committeeman.
Mrs. Louise Perozzi, member state executive committee, Ashland.

Republican County Organization

J. W. Wakefield, chairman, Medford.
Ben Hilton, vice chairman, Central Point.
Ralph C. Bardwell, secretary, Medford.

Fred Wagner, treasurer, Ashland.

County Executive Committee

Bert Anderson, Medford; H. K. Tomlinson, Ashland; P. M. Kershaw, Medford; E. T. Newbury, Talent; B. E. Harder, Medford; M. J. Freeman, Central Point; W. J. Hartzell, Phoenix; D. H. Jackson, Ashland; O. M. Knox, Jacksonville.

Woman's Advisory Committee

Mrs. A. J. Klockner, Medford; Mrs. M. J. Norris, Phoenix; Mrs. O. C. Boggs, Medford; Mrs. Sam Sandry, Pecos River; Mrs. Delroy Getchell, Medford; Mrs. C. M. Kidd, Medford; Mrs. Emma Pell, Ashland; Miss Grace Chamberlain, Ashland; Mrs. S. M. Tuttle, Table Rock; Mrs. Meda Pelton, Sams Valley; Mrs. J. R. Luke, Talent; R. F. D. 2.

THREATEN ARREST
LABOR AGITATOR
WITHOUT WARRANT

DENVER, Aug. 17.—William Z. Foster, labor leader who was ejected from Colorado recently under orders of Adjutant General Patrick J. Hamrock, would be jailed immediately if he were to attempt to carry out his alleged announced intention of returning to Denver to address a mass meeting, Colonel Hamrock announced today.

"I will order Foster placed in jail without a warrant and I will have him kept there, should he come back into the state," said Colonel Hamrock.

"This action would give an opportunity to Foster and his associates to make a test case of the arrest and to determine the legality of the procedure."

Colonel Hamrock said his action would be taken on the assumption that it would be legal to arrest anyone whose presence in the state would "threaten to cause turmoil and strife."

Referring to press dispatches from New York yesterday to the effect that the American civil liberties union had directed attorneys to start court action against Colonel Hamrock and Governor Shoup, both Colonel Hamrock and the governor stated they had not been notified of such action.

English Youth Lies Between Rails While Train Runs Over Him

ALDERSHOT, Eng., Aug. 17.—(I. N. S.) "Benny" Norris is the envy of every "kid" in England.

"Benny" has pulled a stunt that makes the "movies" look pretty tame. Someone dared him to let a train run over him. That was all "Benny" needed. He climbed an embankment, laid between the rails, and the train came chugging along. The engineer saw "Benny" and attempted to stop the train but couldn't make the brakes work fast enough. When the train finally stopped the engineer saw "Benny" tearing down the tracks a mile a minute, yowling his lungs out. Scalding hot water from the engine dropped on "Benny's" face and neck.

Veteran R. R. Man Dead.
CHICAGO, Aug. 17.—George E. Simpson, general supervisor of transportation of the Chicago, Milwaukee and St. Paul railroad and prominent member of the American Railway association died in a hospital here yesterday. He was 75 years of age and had been with the Chicago, Milwaukee and St. Paul since 1882.

Sports

BROWNS INCREASE LEAD AMERICAN LEAGUE STRUGGLE

CHICAGO, Aug. 17.—(By the Associated Press)—The Browns, by breaking even in a double header at Washington, increased their lead in the American league race over the Yankees, who dropped a game to the Tigers at the Polo grounds. In the National league the Giants moved still further away from the Cardinals by defeating Pittsburgh while Brooklyn was trimming the St. Louis team.

The encounter at the Polo grounds which the Cobb men won in the ninth inning when Carl Mays weakened, was marked by Babe Ruth's 22nd home run of the season. Detroit won 7 to 3. The Browns won the first game from the senators 7 to 3, and lost the second 11 to 3.

The Giants took a hard battle from the Pirates 7 to 6 and Brooklyn, with Burleigh Grimes back in harness, left the Cardinals on the short end of a 3 to 2 score.

The Cubs batted out a 9 to 4 victory over the Braves and Cincinnati won from the Phillies 3 to 1. A wild throw by Sewell in the ninth inning with two down cost Cleveland a loss to the Athletics 19 to 9. At Boston the Red Sox punched the offerings of the White Sox recruit, Mack, and won 5 to 3.

Yesterday's Results.

Pittsburg 6; New York 7.
Chicago 9; Boston 4.

Cincinnati 3; Philadelphia 1.
St. Louis 2; Brooklyn 3.

American League.

Washington 3-11; St. Louis 7-3.
Boston 5; Chicago 3.

New York 3; Detroit 7.
Philadelphia 10; Cleveland 9.

Coast League.

Los Angeles 8; Oakland 3.
San Francisco 1; Vernon 5.

Seattle 3; Portland 2.
Sacramento 4; Salt Lake 0.

ST. LOUIS—Dave Danforth, left hand pitcher for the St. Louis Americans, was released under option to the Tulsa club of the Western league.

TRINIDAD, Colo.—Ed (Strangler) Lewis, champion wrestler, defeated Joe Gestwoldt, Lithuanian challenger, in two straight falls.

BOSTON—"Stubby" Mack, recently obtained from the East, started his first game for the White Sox against the Red Sox and lost a close game, 5 to 3.

WASHINGTON—Johnson, Peckinbaugh and Harris made home runs for the Senators against St. Louis yesterday.

ORCHARDISTS PREPARE
FOR STRIKE GOING ON

SPOKANE, Aug. 17.—Fruit valued at \$3,000,000 is ripening in the Spokane valley, according to orchardists who have called a meeting at Vera, near here Saturday to consider ways of moving it in case of continuation of the present rail strike.

According to Rufus Woods, of the Wenatchee committee, responses to the appeal have thus far been received from Sacramento, Cal.; Fresno, Cal.; Yakima, Wash.; Grand Junction, Colo.; and Boise, Idaho.

Sidetrack Coal Cars

MURPHYSBORO, Ill., Aug. 17.—Approximately 150 striking miners forced the crew of a Mobile and Ohio train to sidetrack five cars of coal at Willisyville, near here, railroad officials announced.

Cigarette

It's toasted. This one extra process gives a rare and delightful quality—impossible to duplicate.

PLAN OUTLINED FOR CONDUCTING OF DRIVE BY SALVATION ARMY

Ernest L. Graves, field representative for the Salvation Army, is at the present time, in Medford with the object in view of conducting a campaign for the purpose of putting the local work for the Salvation Army on a sound financial basis for the coming year.

According to statements of the Salvation Army representatives, heretofore the Salvation Army has been supported by the miscellaneous solicitation of funds by its workers and collections from pool rooms and cafes by means of the tambourine. This method consumed a great deal of time and energy on the part of the officers. Many of these officers have received an intensive course of training at the different training schools of the Salvation Army and are thereby qualified for a greater work.

For the past four years, in communities where the Salvation Army is working, it has been customary to conduct one financial campaign a year, and in this campaign, provided for the needs of the local work for the coming year. Mr. Graves has set the sum of \$2500 as being requisite and necessary for the work that the officers will be called upon to do from time to time. There is at the present time the White Shield Home in the city of Portland, where during the last year they have received 137 girls, several of these girls having gone there from Jackson county.

There are other departments of the work of the Salvation Army, but the beneficiaries are usually the boys and girls from the rural communities, so therefore, it is with prompting of heart that the local representatives of the Salvation Army, they say, are making this special appeal to the people of Jackson county.

Chess Champion Leads

LONDON, Aug. 17.—(By Associated Press). Jose Capablanca, the world's champion chess player, seems certain to win the international tournament here. Yesterday he defeated Dr. M. Vidmar of Jugoslavia. Capablanca still has to meet Rubenstein, the Pole, who defeated him at San Sebastian, Spain, in 1913.

The new Goodyear Cross-Rib Tread Cord

A Popular-Priced Cord Tire Without a Rival

The new Goodyear Cross-Rib Tread Cord Tire is built with genuine high-grade long-staple cotton as a foundation.

It is liberally oversize—the 4½-inch tire, for example, measuring nearly 5 inches.

The deep, clean-cut, cog-like pattern of its tread affords excellent traction even in snow and mud, engaging the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

This new tire is a genuine Goodyear through and through—in design, in material, in construction.

It costs less to buy than the net price you are asked to pay for many "long discount" tires of unknown reputation and value.

Why be satisfied with less than this efficient tire can give—why take a chance on an unknown make?

Compare these prices with NET prices you are asked to pay for "long discount" tires
