Appreciation for the help and the excellent concerts given by the Elks band on the Crater Club tour to Copco, Sunday, is heard on every hand. All of the Craters and everyone else on the trip enjoyed the music by the band almost as much as the inhabitants of the northern California villages where the concerts were given. The Medford Elks band is probably the first and only band worthy of the name that ever filled the air over the lake behind the giant Copco dam with music. The success of the trip and the crowd drawn at Yreka are due, in a large part to the band.

Break whatever engagement you may have, take the little folks, the young folks and the old folks and go and see 'School Days.' It will repay you by making you feel younger and better and happier. This screen classic rides faster than an aeroplane, straight to success. Entertainment value 100%. It should be shown to all the world."

SCHOOL DAYS

Every mother who has boys, every man who remembers his boyhood, every human being who can thrill to the joys, the disappointments, the pranks and the glory of boyhood, will more than relish the many human and humorous touches of "when we were a couple of kids."

Indeed, it will bring back to you in the most vivid manner the irresponsible, untamable heart of boyhood. And we feel that you should not miss this wholesome and highly entertaining screen comedy.
