

HOPE IS REVIVED THAT 47 MINERS ARE STILL ALIVE

JACKSON, Cal., Sept. 1.—Contrary to first reports, diamond drilling in the Kennedy mine in an effort to tap the lower levels of the Argonaut with a three inch hole for the purpose of forcing air, water and food to the imprisoned miners, has not yet been started. Representatives of a diamond drilling company of San Francisco who arrived here last night, after going over the maps of the underground workings, decided that there was no feasible point of attack open as yet.

Among those conversant with conditions in the underground workings of the Argonaut and Kennedy mines, great hope is gained from the bulletin posted this morning which says crews working in the Kennedy have found a seepage of pure cool air coming through from the lower levels in the Argonaut, indicating that the poison gases from the fire in the main shaft of the Argonaut at the 3,000 foot level, failed to descend to the 4500 4600 and 4800 foot levels, where most of the 47 entombed men were working at the time the fire broke out. If the men remained in the lower levels, they are probably still safe, providing they have been able to survive hunger.

The fact that water is also dripping through also indicates that the men have water to slack their thirst. It would be possible for the men to survive without food, providing their morale is good, miners state.

AMERICANS WIN DAVIS CUP OPENER

FOREST HILLS, N. Y., Sept. 1.—The United States lawn tennis players triumphed decisively over their Australian rivals here today when they won the first two matches in the challenge round of the 1922 Davis cup matches in straight sets.

William T. Tilden, II, of Philadelphia, the national champion defeated Gerald Patterson of Australia 7-5, 10-8, 6-0. William M. Johnston of San Francisco then vanquished James O. Anderson in the second match, 6-1, 6-2, 6-3.

Patterson put up a strong fight against Tilden in the first two sets of their match but was completely outclassed in the third set. Anderson, recently recovered from illness, was not match for Little Bill Johnston.

It was announced immediately after the completion of the matches

that Vincent Richards and Tilden had been selected as the United States team to meet Australia in the doubles tomorrow.

ROSEBURG HUNTER LOST IN WILDS IS SAFE, MARSHFIELD

MARSHFIELD, Sept. 1.—Dale Cornutt, Standard Oil company employe of Roseburg, who was lost in the woods when he became separated from a hunting party last Sunday, is safe in Marshfield. He became lost while hunting in the Cedar creek district of Douglas county.

When he realized he was lost he followed down a stream which took him through the Tiago country and finally to Smith Basin. He came out near the hatchery on Coos river. Cornutt was without food, but during one of the four days he was lost he found a recent campfire where some canned milk and bacon had been left and having his gun he shot several birds which he ate. He had not suffered from hunger and says he felt sure following the stream would bring him to civilization. Cornutt landed here without a coat and with his clothing badly torn from going through the brush.

DANGER NOW LESS LIKELY

French bonds showed fractional improvement. Renewed speculation in the oil shares also was induced.

The British press records the heartiest welcome to the reparations commission's decision. The fact that it was unanimous makes it, the Times says, "great news for true friends of the entente and Europe will receive with deep relief."

Even the laborite Daily Herald, which terms the decision a sham settlement that leaves Europe still drifting to economic ruin, applauds it for "stopping the further invasion of Germany and for giving the real peacemakers in Europe one more

chance of bringing the French people as apart from their government to reason."

INJUNCTION CLAMPED ON

(Continued from page one)

Strikers Are Defiant

WASHINGTON, Sept. 1.—(By the Associated Press.)—Leaders of the striking shop men will not abate their attempts to make their strike effective, whatever action is taken by the court in Chicago as a result of injunction proceedings instituted by Attorney General Daugherty. It was

said here today by A. H. Johnson, president of the International Association of Machinists, one of the largest striking groups.

"The filing of this suit is just another blunder to be added to the large list which the administration has already made in dealing with the railroad situation," Mr. Johnson's statement said. "I am surprised that Mr. Daugherty isn't attempting to restrain the railroads instead of the men. The administration has done everything it could to help the railroad management."

Mr. Johnston asserted it would take more than a mere injunction

suit or an injunction to prevent the complete collapse of some of the railroads in the next thirty days and added:

"We shall continue with the strike, whatever happens. We are not afraid of anything the courts can do. Men still have some constitutional rights in America and we shall stand on them."

WASHINGTON, Sept. 1.—Word of the court action begun in Chicago had a bombshell effect among labor leaders generally and there were many expressions of surprise among government officials themselves. The

secret of the contemplated action had been well kept and the attorney general had slipped out of Washington with few of his close associates knowing of his intentions.

At the department of justice, officials would make no comment whatever on the injunction proceedings, saying the position of the government was set forth fully in the petition submitted at Chicago. Inquirers were referred also to President Harding's recent address to congress in which he pledged his administration to "use all the powers of the government to maintain transportation and sustain the right of men to work."

MANN'S — THE BEST GOODS FOR THE PRICE, NO MATTER WHAT THE PRICE — MANN'S

Advance Sale of Women's and Children's Ready-to-Wear Garments

Tomorrow we will place on sale hundreds of new Suits, Coats, Dresses and Skirts bought before the recent rise in prices and offered at exceptionally low prices
