

BOILED WATER BEING SERVED LOCAL SCHOOLS

The over 1400 pupils of the Medford public schools have become a hard boiled lot ever since City Health Officer Pichel issued his warning last week against drinking the city water without having it boiled first.

Thoroughly boiled water is being served at every school building in proper receptacles, and sanitary individual drinking cups are being served at each building at the expense of the board of education. The regular drinking fountains at each building have been shut off and plugged up, hence the pupils can drink no other water than that which is boiled, while they are at school.

This unlooked for item of expense is a considerable one to the school board, which promptly met the situation. From 80 to 100 gallons of boiled water is served daily at the buildings, thanks to the cooperation of the Snider dairy, and a number of business men who lent their sanitary dispensers for use at the buildings. From these dispensers the pupils draw the water into their individual sanitary cups. Many pupils are provided daily with good paper cups which they are asked to make last day, while others are served with the cheaper variety of cups which are good for only a drink or two. Besides, quite a number of pupils bring to school their own drinking cups and bottles of boiled water.

From 80 to 100 gallons of boiled water daily, which is boiled and cooled at the Snider establishments, are hauled to the various buildings in large milk cans, and furnished. From the cans it is poured as needed into the dispensers.

KNOCK OUT BROWN IS KNOCKED OUT AGAIN

A tourist got shaved at Bates Brothers barber shop this morning, and said that he was a spectator at the boxing bouts at Crescent City, Calif., last Saturday night between Bert Crippley of Marshfield and K. O. Bob Brown, and that as near as could be estimated with an ordinary watch, K. O. was K. O'd in seven seconds. The visitor stated that Robert was in the midst of the first dance when Mr. Crippley, who is a logger by

DISCRIMINATING AGAINST JACKSON COUNTY AT FAIR

If the Jackson county exhibit again captures first prize at the state fair this week, as it did last year, the feat will be accomplished under adverse circumstances, due to no fault at this end.

When County Agent Cate and his assistants arrived at the state fair grounds last week to prepare the way for the exhibit, the main part of which was shipped from here by fast freight last Wednesday, they were astonished and disheartened to learn not only that the good exhibition space that had been allotted them by letter in the correspondence of previous weeks, had been changed to a far less desirable location and that the promised space had been much curtailed, instead of being allowed two commodious booths, as was promised, Jackson county was assigned to a corner booth elsewhere, and part of an alley.

On top of this the car load of exhibits failed to arrive on time, due to delay caused by the burning of the Southern Pacific railroad bridge up north Thursday, and it is understood here, did not arrive in Salem until late Saturday night or Sunday, causing Cate, Miss Poole and the other local enthusiasts there to entertain a strong desire to jump into the Willamette river and end it all.

However, everyone managed to cheer up and buckle down to business to make the best of the situation. By working all day yesterday and all last night and this morning they were doing their best to get the exhibit in the best shape possible for the fair opening today.

Shipments of perishable stuff were sent by express to the fair from here Saturday, yesterday and this morning, consigned to Mr. Cate, and for the past two days Tom Swem has been on duty there to give the exhibit his artistic skill, having been employed for this purpose by the county court.

While the Jackson county exhibit must necessarily be curtailed over that as originally planned, it is hoped that as originally planned, it is hoped to make a very creditable showing. Two hundred boxes of fruit alone were to have been displayed along with the other things and one or two striking novelties. The judging of exhibits of the fair, it is expected, will be completed by Thursday evening.

trade, smited him with a right hand swing on the jaw, and the local gladiator crumpled up on the canvas, and at the count of nine convulsively twitched and turned face toward the stars.

Owing to the affectionate nature of his opponent the bout in which Battling Frick participated, was called after a few rounds, the tourist reported.

TO HOLD DIVINE HEALING SERVICES HERE THURSDAY

In response to the strong pressure of the ministers and people of Ashland, Dr. Charles S. Price, the evangelist and exponent of Divine healing, has agreed to remain for another week of services in the big Chautauqua tabernacle at Ashland, although he planned to close the meetings last night. The testimony of ministers and Christian workers is practically unanimous, that these meetings have been the biggest and most helpful that have ever come to Ashland. Night after night the big tabernacle has been almost filled and multitudes have been won to Christ and sick and suffering, lame and blind and halt and maimed have been healed of their diseases and infirmities in response to the prayer of faith as taught in the Scriptures.

In response to the appeal of some of the Medford people who have been attending the meetings, Dr. Price has agreed to make Thursday of this week Medford Day, in which services will be held all day here instead of in Ashland.

There will be two preparatory services for those wishing prayer for healing to be conducted by Mrs. Price. One on Tuesday afternoon at 2 p. m. in the Presbyterian church and one on Thursday morning at 10 a. m. Every one who wishes to get into the healing line must attend one or both of these services as that is where the cards are given out which admit to the healing line.

On Thursday afternoon at 2:30 p. m. and also Thursday night at 7:30 p. m. Dr. Price will be with us for a preaching and healing services. The singer and other workers will be here also and every prospect is for two great services of this new type known as healing evangelists which hold that Jesus is here to work just as He did of old in Palestine. These services will be in the Presbyterian church. Call your own minister or Rev. E. P. Lawrence of the Presbyterian church for further information.

CARPENTIER KNOCKED OUT

(Continued from Page One)

Carpentier a Sorry Sight
Carpentier passed a good night after the hard hammering he got in the bout, Descamps told visitors. The swelling of the face is somewhat reduced but the left foot is twice its normal size, from twisting when he fell for the last time. Even his friends however, do not claim that Siki fouled

public a bad impression of himself. 'Carpentier down,' he thought, 'never that.' 'As for the tripping, the movies will prove that without the slightest doubt.'

Carpentier a Poor Sport
Carpentier himself is severely criticized for his delivery of low blows, his bumping and his rushing into Siki's corner at the start of the fifth round, as well as for other possibly questionable conduct in the ring, while Siki is generally conceded to be a clean fighter, and above all, as having shown a reluctance to continue smashing Carpentier when the latter was unable longer to defend himself.

The Carpentier-Siki bout has crowded virtually everything else off the front pages of the Paris papers and has obscured the Turco-Greek conflict in public interest. Both last night and today business generally was slowed down by the absorbed discussion of the event everywhere.

PARIS, Sept. 25.—(By Associated Press). Georges Carpentier, idol of France fight fans, has at last been toppled from his pedestal, and today a new king reigns in the European heavyweight division.

Battling Siki, a Senegalese, hammered the great Georges around the ring in the new Buffalo velodrome last night before a howling mob of spectators and sent him down in the sixth round to stay. The bout was to have gone 20 rounds.

Besides the loss of his prestige and his title, Carpentier today was suffer-

ing from the hurts of a badly battered body. One of his eyes was closed during the fight, his nose was broken and he was otherwise beaten up. An effort was made to save his title for him at the time of the knockout by a ruling from the referee that Siki had tripped him, and thus disqualified himself, but the great crowd would not have it and with a violent demonstration a reversal of the decision was demanded and finally secured—an hour after the fight had ended, following a consultation of the fight judges.
