

PIONEER WOMAN JACKSON COUNTY VISITING FRIENDS

Mrs. Ella Short, of Footh Creek, is spending a few days visiting Mr. and Mrs. H. U. Lumsden, Mrs. Kate Phillips and other friends in Medford. Mr. and Mrs. John Short were pioneers in Medford, locating here in the early eighties. It was then a country village with very few houses and they built the second house on Jackson street. Mr. Short was one of the men instrumental in putting the first water system in for Medford, consisting of an open irrigation ditch from the John Gore property on Bear creek. The water was pumped into the tower, which stood until 1911 where the Carnegie library is now located.

This is the second federal appointment made by Mr. Huntley from this county, Fred Colvig being the other. It is also another recognition of the world war veterans.

HAWLEY DECLARES U. S. EXPENSES CUT OVER 3 BILLIONS

The Hon. W. C. Hawley, congressman from this district and member of the house ways and means committee talked last night at the Nat before a small audience of enthusiastic republicans.

It was the opening speech of his campaign in his own congressional district and he explained the advantages of a republican administration and republican policies.

In regard to the recent reduction of expenditures and the bisecting of the cost of running the United States government within two years, Mr. Hawley said: "The republican administration has reduced the cost of running the government from over six billion dollars to three and one-quarter billion for the current fiscal year ending June 30, 1922."

"The way to reduce taxation is to reduce expenditure, and we reduced the expenditure of the government during the last two years of President Wilson's administration by appropriating \$3,000,000,000 less than the estimates demanded, and during the four years that the republican party has been in control of the house of representatives we have reduced expenditures \$4,250,000,000 below the estimates. For 1922 alone we reduced the taxes \$850,000,000.

Record Held Successful "All legitimate activities of the government are adequately provided for. We go to the country upon a successful record, of which this is a part, and ask comparison of our efficient methods of the preceding democratic administration, during which time more than \$15,000,000,000 was absolutely wasted, which the people will have to pay with interest thereon at 4 per cent."

Mr. Hawley gave a detailed explanation of the Fordney protective tariff act, and its purposes and the results already obtained under it. He explained that the tariff was to protect home industry and bring foreign products manufactured by cheap labor up to a price level with the home manufactured product. He explained that the Fordney act did not demand as high a tariff rate as preceding acts and that this proved the soundness of a protective policy. Former tariff acts have supported home industries to such an extent that they no longer need as high a protective rate as formerly was needed.

The important building materials are on the free list such as Portland iron and steel and shingles and lumber because the industries behind them have grown to such an extent under a protective tariff as to be able to cope with the competition of the world at present.

Veteran's Bureau representative who has been in town for two days, announced this morning the ex-service men are not responding very well and no doubt are not aware of the fact that there remains but one more day in which they may be able to use his assistance in making any claim they may have against the government for their service disabilities. He also wishes to help or inform any exservice man in reinstating his government insurance.

He is making his headquarters at the office of the Brown and White Real Estate company. He will leave tomorrow night for Gold Hill, so make it snappy men, if you have any claim whatever.

Sheriff Is Blamed. Mr. Moses further deposes that The Mail Tribune, Jacksonville Post, and the Pacific Record Herald "would greatly prejudice these defendants, in the event of their cases coming to trial before the said election, or shortly thereafter."

It is also set forth in the affidavits of Mr. Moses, "that others than the sheriff and his officers have circulated false and scandalous reports concerning these defendants and other defendants, alleged to be connected with the alleged outrage in Jackson county, Oregon, and have done everything possible for them to do to prejudice the people against these defendants."

The date for the hearing of the motion has not been set. Assistant Attorney-General Liljeqvist, will arrive in the morning to appear before the grand jury, now in session, and will remain over to contest the granting of the motion, according to District Attorney Rawley Moore.

DEMAND SAWYER'S REMOVAL

(Continued from Page One) the steps of hospitals in Minnesota waiting to get in." Adjutant King continued. "I hope, I pray this amendment may be adopted."

Department Commander W. B. Miller of the District of Columbia said he had seen General Sawyer before he left Washington.

"Honest to God," he said Sawyer told him, "I'm with you. The statement in the papers was my statement. I'll go all the way."

Tumult on the floor prevented Chairman Emery from putting Barren's amendment to a vote and T. J.

Brady of New York reached the platform.

"If Sawyer shows his face in this hall, smash him, he's been pussy-footing two years," he shouted.

Department Commander Gilbert R. Bettman of Ohio spoke against personalities.

"It would be futile," he said, "if the Legion demands that Harding remove Sawyer. If Harding does not remove him, where are we?"

Grows from all parts of the vast hall stopped Bettman.

Y. O. Mathers of Texas, spoke against "damning anyone unless you can get them. The president has stated definitely he will not remove Sawyer, so all your resolutions will not do any good. The thing we must do is ride Sawyer and ride him and ride him till he does what we want him to do."

CONVENTION HALL NEW ORLEANS, Oct. 19.—

Removal of Brigadier General Charles E. Sawyer, president Harding's personal physician, charged with blocking the American Legion hospitalization program, was demanded by the legion national convention here today by a vote of 601 to 375.

This victory of the "conservative" element in the convention brought to attention the fact that the Interstate hospitalization committee would present a report to the convention today approving the solving of the General Sawyer controversy over the government's treatment of sick and disabled veterans on terms to which Sawyer has agreed.

These terms, as announced by Colonel A. A. Sprague chairman of the hospitalization committee, were described by him as "satisfactory and harmonious," recognizing the program which Sawyer was said to specifically endorse.

To appease the critics of Sawyer, a compromise was agreed to, which accepted his stand "as his sincere view for the time being only."

Dr. Bartlett of Virginia, bringing greetings from the legion auxiliary convention, declared the women's organization was "four square" behind the legion's fight for adjusted compensation.

Mrs. Bartlett introduced Mrs. Jorgensen delegate from Hawaii who brought a garland to decorate the national commander. Adoption of the legion's report on naval affairs committed the organization to the terms of the Washington conference and urged congress to appropriate sufficient funds to keep up navy craft and personnel of at least 105,000 men, or not less than \$6,000. A naval base at Alameda, Cal., is demanded by the resolution. Neglect of this base, made necessary by the pact eliminating fortifications in the Pacific, the resolution added, "would be criminal negligence."

Personal greetings from the secretary of the navy were conveyed to the legion by Admiral McGruder of the United States navy.

WOBBLES 'ROUNDED UP'

(Continued from Page One) secretary of the Portland branch of the I. W. W. who was taken into custody.

Reports in the hands of the officials were said to show that I. W. W. papers in various parts of the country have adopted the slogan "on to Portland," and that plans call for an immediate march of more than 25,000 members of the organization to Portland and other points on the Pacific coast.

During a conference held yesterday in the mayor's office, word was sent to the city council concerning the situation and an ordinance appropriating \$10,000 for the immediate hire of 74 special officers to aid in combatting the I. W. W. was passed as an emergency act.

Wobblies Swarm in Within an hour after the conference had ended, police officers and men from the sheriff's office were busy combing the city for members of the I. W. W. who are known to be active in the present waterfront strike and also in meeting freight trains that are said to be loaded with "wobblies."

One incoming freight train was said to harbor more than 50 members of the organization, some of whom were arrested. Mayor Baker announced that he would ask railroad officials to co-operate in the present move and prevent as far as possible the entrance into the city of the "brakebeam riders," the majority of whom are said to be I. W. W. headed for Portland under orders.

As fast as the arrested men were taken to the police station they were booked on charges of vagrancy and held for trial.

Strike Unauthorized

Mayor Baker in a statement made it plain that the officials were not taking up the standard of the employers in the present waterfront strike, but instead were waging war on the I. W. W. Prominent Portland labor leaders have informed Mayor Baker that the present waterfront strike is not authorized by legitimate organized labor, according to the mayor.

District Attorney Myers, who made a personal investigation from his office declared that the conditions as pictured by Mayor Baker were mild and that unless immediate action was taken Portland had serious trouble in store. It was reported by some officials that the word to "go to Portland," has been passed to workers in harvest fields as far east as Iowa and that I. W. W. members are journeying to this city from points even further east, as well as from all western states.

Wave Red Flags

Prisoners in the jail awaiting arraignment in court sang radical songs throughout the morning and at one time a red flag was flown through a jail window.

The police today asked railroad officials to help clear trains of I. W. W.'s.

Mayor Baker announced that the city rock pile would receive all itinerants who refused to leave.

When the men were brought into

court today police had practically no evidence against them. Patrolmen could not testify that the men they had arrested were vagrants—vagrancy was the charge against them—and often could not tell which men they had arrested.

At noon Judge Ekwall had given ninety day sentences to four of the men arrested last night and had discharged 31. Those living in Portland were turned loose and itinerants were ordered to leave or serve ninety days.

The county commissioners today authorized Sheriff T. M. Hurlburt at his discretion to hire deputy sheriffs to co-operate with the police in combatting the I. W. W. element in the waterfront strike.

LLOYD-GEORGE RESIGNS

(Continued from page one) net members whose adherence to him has been repudiated by today's conference. This new party, it is suggested, probably would command the support of a goodly proportion of the conservatives who stood by the coalition and also of the coalition liberals. This formation might put the labor party in the position of the chief opposition party.

The possibility that Mr. Lloyd George will try to return to the leadership of the liberals is not to be overlooked. Mr. Bonar Law's friends question whether his health will permit him to take office even for a short time. Lord Derby seems the most probable alternative selection for prime minister, although it is suggested that Lord Curzon, who gained greatly in prestige by his work in the recent Near East negotiations and is believed to have been a lukewarm coalitionist, might be summoned to form a government.

The vote of the conservatives at the Carlton club was taken on a motion by Colonel Prettymann, unionist member for the Chalfont division of Essex, which read as follows:

"Resolved that this meeting of conservative members of the house of commons declare its opinion that the conservative party, while willing to co-operate with the coalition liberals, should fight the election as an independent party with its own leader and its own program."

Victory for Diehards Today's vote, it is proclaimed, will be proclaimed as a great victory by the diehard group of conservatives in parliament who for several months past have been advocating the withdrawal of the party from the coalition and its resumption of the normal party organization.

Mr. Chamberlain received an ovation when he rose to address the meeting. He spoke strongly along the lines of the recent Birmingham speech appealing for the unity of the party he supported. Stanley Baldwin and Colonel Prettymann opposed the conduct of the coalition. They suggested a decision should be postponed until the meeting of the unionist association.

Mr. Bonar Law's plea for preventing the breaking up of the party is said to have made a profound impression. "Mr. Chamberlain says the best way to defeat the labor menace is to continue the coalition with the liberals," he is quoted as saying, "I say the best way is to maintain the party absolutely independent and you will defeat the labor menace in the end. Otherwise you will split in your party, just as the liberals are split."

The meeting lasted two hours.

Return to Party Government

Two events of yesterday were considered to have contributed largely to today's decision. One was the result of the Newport election which insofar as it was any test, confirmed the belief of the "die hards" that the conservatives, going into the election as a party, could sweep the country.

The second was the decision of the committee of the unionist organization.

WASH KIDNEYS IF THEY HURT

Take Salts to flush Kidneys if Back pains you or Bladder bothers

Flush your kidneys with salts occasionally, says a noted authority, who tells us that too much meat and rich food may form uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; also to neutralize the acids in urine so it no longer irritates, thus often ending bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia water drink.

tion to hold an emergency meeting to consider the course of the party, because of the feeling that today's caucus, composed solely of the coalition members of the party in the house of commons, with such of the members as the house of lords were cabinet members had no right to assume to decide the future of the party.

If the conservatives control the next parliament they may be depended upon, it is considered, to carry out the treaty made with Ireland by the Lloyd George government. That this would be done was stated by the Marquis of Salisbury in his speech Monday.

The general results of today's collapse of the coalition promises to be after a period of upheaval, the length of which is difficult to predict, the reversal of Great Britain to the traditional system of government on strict party lines.
