Answers the Question of Keeping Gas Ranges Like New
BLACK SILK GAS RANGE DRESSING
 MADE expressly for use on gas ranges. It is not an enamel nor a stove polish. It gives the range a smooth, silky, black appearance and makes it look like new. No rubbing. Will not crack, nor peel off. After using Black Silk Gas Range Dressing, you can keep the range always looking bright and new with an occasional application of Black Silk Polishing Oil. Either preparation is quickly and easily applied.
 Like all other Black Silk products, these too, are guaranteed satisfactory. Ask your dealer.
