PLANS TO REBUILD ASTORIA ALREADY ON FOOT; TOTAL LOSS IS ESTIMATED AT \$12,000,000

Fire Still Smouldering, But All Danger Passed—Relief Work Now Going Full Blast—Launch Probe to Determine Cause of Conflagration—Incendiarism Doubted—All Public Buildings Saved—Churches Also Escape Flames As if By Miracle—Help Pours in From All Quarters—Soldiers Guard Wrecked Banks—Insurance Adjusters Arrive From All Parts of Coast—Homeless People Provided for.

ASTORIA, Ore., Dec. 9.—(By the Associated Press.)—Astoria today courageously surveyed its losses from the \$12,000,000 fire which yesterday razed 24 blocks of the city's business section and set on foot measures to relieve the 2500 persons made homeless by the conflagration.

of soldiers and special policemen had been established to guard the destroyed district. Police Chief Carlson said fourteen men had been arrested by his force. Fire fighting apparatus was all working at full speed at a late hour and will be kept constantly on the job until all the embers have been extinguished.

Summarized, the situation was as follows: Twenty-five hundred persons homeless. The city cut off without banking facilities. No food obtainable except from a central distributing station established by a swiftly organized committee of 50 business men.

The loss in equipment and lines is estimated at not less than \$100,000. All files were destroyed, and though this does not represent financial loss, it is a serious inconvenience to the company.

Relief measures consisted of orders to commandeer all of the city's food supplies at once, to be gathered together in the Lovell garage building, one of the largest unburned structures.

The steamer Astoria, chartered by the company, arrived here early today from Portland with equipment and relief crews. The Astoria carried 50 linemen, switchboard experts and instrument men, who will at once begin the work of reconstruction.

Word was dispatched immediately by this group to the Oregon Hotel Men's Association in Portland which telegraphed that it had contributed \$5000 to the relief fund. Banking headquarters have been temporarily established in the Y. M. C. A. and from this point funds will be issued as necessary.

Adjutant General George White arrived here to superintend the activities of the guard. Major Joseph V. Schur is in active charge of the detachment and the materials with Lieutenant E. H. Gallen assisting him.

Long lines of hungry persons waited in front of the Y. M. C. A. here, where they were being fed with sandwiches and loaves of bread. Inside many of the buildings, including church buildings, near the scene of the terrible blaze, women and men worked tirelessly in an effort to provide for those without a home.

When flames threatened the city hall in the basement of which is the jail, the doors were opened and the fourteen arrested for looting, together with a score of other prisoners were released. The jail docket disappeared sometime during the day and no record of the malefactors could be found.

Lighting is Restored. Frantic efforts by telephone and electric light workmen had partly restored the lighting facilities of the city here last night, but throughout the remaining district a heavy guard

FRANCE AGREES TO MORATORIUM FOR TWO YEARS

Premier Poincare Reported to Have Yielded at London Meeting Provided Guarantees Are Provided—U. S. A. May Attend Conference.

LONDON, Dec. 9.—(By the Associated Press)—Premier Poincare, towards the close of the first session of the conference of allied premiers here today is understood to have said that France would consent to a moratorium of two years for Germany if certain economic guarantees accompanied it.

In the opinion of the French, their nation would only control the Rhine-land along economic lines during the term of a moratorium, collecting taxes and running the railroad lines as a guarantee of Germany's promise to carry out the reforms that would insure payment of her bill.

It is generally believed that the London meeting will be confined to a discussion of a moratorium for Germany and to the guarantees which France demands. Premier Poincare believes that the attitude of the United States prevents Great Britain from cancelling the French debt.

TIGER ASSURED UNITED STATES WILL HELP HER

Senator Pepper, Pennsylvania, Raises Great Enthusiasm in Philadelphia By Assuring Clemenceau Millions in U. S. Will Spring to Defense.

PHILADELPHIA, Dec. 9.—(By the Associated Press)—Georges Clemenceau, speaking today in the city where America's declaration of independence was signed, urged that America come back to Europe and help spread independence throughout the world.

He was given a long ovation as he appeared on the platform of the Academy of Music. The academy, profusely decorated with the Stars and Stripes and the French tri-color, was packed.

Clemenceau was taken through gaily decorated streets lined with cheering crowds, to historic Independence Hall. Entering the hall Clemenceau sat in the chair in which John Hancock sat when he signed the declaration of independence and then wrote his name in the guest book.

The Tiger was conducted to the Liberty bell. He placed his hand on the famous bronze relic just over the long crack up its side and stood for a moment reading the inscription. He then drove to the academy for his speech. Senator Pepper presented the tiger of France as one possessed of "more than his fair share of the spirit of his fatherland—one of the immortals, with patriotic spirit unquenchable."

Senator Pepper evoked a burst of applause when he asserted that although America had made no pledges France could feel assured that millions of this nation would spring to her defense if she were endangered. The tiger professed himself as "overwhelmed" by his reception. "I have no mission," he began. "I only came to tell you what I think."
