Nearly all this time he was engaged in the study of law. He was member of the last territorial legislature, chief clerk of the constitutional convention and secretary of the state corporation commission.

In line with his chosen work he became justice of the peace for West Phoenix precinct and held that office until three years ago, since when he has been actively engaged in the practice of law.

JOSEPHINE CO. WANTS CANNERY

S. S. Bullis says the people in Josephine county have about 13,000 acres mostly green land, under the new irrigation project that is to be developed and they want to raise cannery products and are desirous of having a cannery located there.

Mr. Bullis met their committee last week in an endeavor to show them that it is far better to have one good cannery in the valley that runs full time and that naturally could pay better prices than two or three canneries that run part time.

Mr. Bullis is endeavoring to get people all over the valley to grow more vegetables and small fruits this year as the Rogue River Valley Canning company has put in new equipment and is now prepared to handle double the product.

FEDL. LAND BANK TO MAKE SURVEY LOCAL IRRIGATION

E. H. Hurd, secretary-treasurer of the Rogue River National Farm Loan association, is in receipt of the following letter from A. B. Thompson, secretary of the Federal Land Bank of Spokane, which is of interest to all irrigation farmers of this section:

"This will acknowledge receipt of a resolution adopted at a meeting of the Ashland, Medford, Gold Hill and Rogue River National Farm Loan associations, held at Medford, Oregon, January 16, 1923, requesting this bank to make an investigation of irrigation districts in the Rogue River valley.

"In reply, our engineer appraiser, Mr. McKeltrick, was instructed some time ago, to make an examination of the Rogue River valley as soon as he could complete the work he then had on hand. He informed me today that he will be ready to take up the work in the Rogue River valley as soon as he completes his report on two districts in Montana that he is now preparing, and that he thinks he will be able to finish these reports about February 15 to 20.

"We will appreciate it very much if your associations will co-operate with him in seeing that all available data, transportation, etc., are furnished him, that he may make a complete report on these districts while there."

CHEVROLET SALES SHOW INCREASE

In spite of the winter season the business of the Chevrolet Motor company has been unusually good. Patton and Robinson of this city are in receipt of the following telegram:

"Friday, January nineteenth. "Chevrolet Motor company shipped from various assembling plants, including Canadian plant, twenty-one hundred and fifty-eight cars, which is record shipping day and which is result of unprecedented winter orders."

The new Chevrolet has made a decided hit throughout the country, as evidenced by the remarkable sales since its introduction. Patton & Robinson, Inc., Medford and Southern Oregon Chevrolet distributors report many sales during recent weeks of both open and closed models. They cordially invite those interested in the new models to come to their headquarters and see them on display.

KEN WILLIAMS SEES HOME RUN RECORD IN 1923

ST. LOUIS, Jan. 30.—Kenneth Williams, formerly of Grants Pass, Oregon, who led the American league in home runs last season, in a letter received at the Browns' headquarters today asserted he is "anxious to get back in harness" and that he is touring here from Portland.

Business Manager Bob Quinn said he interpreted this as dispelling rumors that there would be difficulty in getting Williams' signature to a 1923 contract. "I've got a hunch I'm going to drive in about twenty more home runs than last year," the letter continued, "and I want you to reserve my seats at Sportmen's park for the big series next fall. That's the way I feel about it."

Williams slammed out 38 four-baggers last season.

UNCLE SAM MAY TAKE A HAND IN CURBING KU KLUX

NEW ORLEANS, La., Jan. 30.—The federal government at Washington is reported here tonight on good authority to be about ready to commence a most searching investigation of its own into the activities of the Ku Klux Klan.

This probe is to be centered in the so-called klan states of the south, viz: Georgia, Arkansas, Texas, Louisiana and Alabama. Federal agents have already been dispatched to Dallas, Little Rock, Atlanta and Birmingham.

The evidence already gathered, according to Gov. Parker, reveals violations of federal statutes of the most startling character. It is alleged to establish the following facts:

That a special membership campaign is now being conducted by the klan among railway mail clerks and postmasters throughout the entire southwest. Evidence in the hands of operatives, it is said, tends to show that mail already has been tampered with.

That a similar campaign is being conducted by klan emissaries among the telegraph operators in five states for the purpose of tapping at first hand this source of information.

That the same character of activity is being conducted throughout the telephone offices of the southwest. That attempts have been made to enroll newspapermen on the klan roster in an effort to control news sources and the publication of news, as well as editorial matter.

Attorney General A. V. Cocco is still at his home at Marksville, but one of his assistants, T. Semmes Walmsley, tonight confirmed the fact that evidence of the klan's activities as outlined above had been placed in the hands of federal authorities.

The smaller egg surrounded by the white and yolk of the large egg is in a jar and the shell of the outer egg is lying beside the jar in the window.

MEDFORD SENATOR LAUDED BY VOTER

The two most conscientious workers in the senate are Dunn and Zimmerman in so far as study of bills is concerned. Neither has any pet bill to trade through. Neither is playing politics. Neither is ambitious to control the senate or overthrow anyone else who is trying to control it. But both are determined to find out all they can as to what the effect of each bill will be, so that right and justice may be done. Both are in the senate chamber early and late, poring over the bills and carefully studying information that comes in concerning each and all. Both are accessible to anyone who has a righteous cause and desires to state it. Both listen patiently and attentively. Both ask intelligent and discriminating questions. Neither attempts browbeating or bulldozing.
