The following is from an article concerning the Salem basketball team recently appearing in the Salem Capital-Journal.—"The southern trip while not counting towards the championship of the state interscholastic league in any way gives the Salem folks a fine line of dope on what to expect when the local team gets into the tournament, which, according to the present indications they will probably do. The games with Medford were quite a surprise as it was generally thought that the Medford five would take the locals to a drubbing. The victory for the Salem team can be attributed to a large extent to Coach Hollis Huntington. He acted as coach of the Medford five last year and as a result knew in a far way what to expect while Durno, the Medford coach, had no way of knowing of the work of the Salem team. Next Friday evening the Medford team will come to Salem to meet in what promises to be a whirlwind of a match."
