

CURFEW BELL TO TOLL HEREAFTER COUNCIL ORDERS

The ringing of the curfew bell to accompany the ordinance passed about a year ago, and which has been a dead letter for months past, now seems to know why enough that every one apparently forgot the matter, is still in effect, and the bell will be rung tonight and hereafter, and the ordinance will be enforced, if Mayor Gadsden and the city council have their way.

The boys and girls of the city under 17, found in the streets after the curfew time will be taken home by the police and turned over to their parents, and their parents or guardians are likely to be arrested and fined at police court. The ordinance provides that the curfew bell be rung at 7:30 p. m. from October to March 1st, and at 9 p. m. between April 1st and Sept. 1st, and that all under the age of 17 must obey it, except those youths between 15 and 17 at certain social functions or public entertainments, may remain out an hour after the curfew time.

Of course, boys and girls under 17 may be out on the streets if accompanied by their parents, or legal guardian, or other proper adult person, after curfew hours. When a boy or girl is found on the streets after the curfew hour it is the duty of the police to take him or her home and notify the parents. The same can be charged with a misdemeanor and fined in police court from \$1 to \$5.

The matter of the curfew bell having been rung for months has brought to the attention of the city officials last week by the parent teacher associations, who were responsible for the measure having been passed in the first place. The mayor had questioned favor enforcing the ordinance and so does Chief of Police Adams.

Mayor Gadsden at last night's council meeting instructed Chief Lawson of the fire department to see that the bell is rung by one of the firemen regularly.

It had been one of the duties of the firemen to ring the curfew bell since the ordinance was passed, and so one in authority has not changed the order. Not a single arrest has ever been made since the ordinance became effective, and neither has any youth ever been conducted home after curfew hours.

It seems that the firemen on seeing this and boys and girls on the streets ordinarily after the curfew hour and not bothered by the police, ceased to ring the bell, especially as often they heard boys passing the fire station late at night who looked in with devious grins on their faces.

AIR PILOT LANDS IN WILLAMETTE

Lieutenant E. C. Mangham, international speed pilot and holder of the Pulitzer Trophy made a forced landing here yesterday afternoon near Eugene, according to telegraphic messages received here this morning.

Mangham was forced down by the fog near Eugene and landed in the Willamette River. He was uninjured and the plane was not badly damaged.

Lieutenant W. C. Goldborough, former Forest Patrol commander here, arrived yesterday afternoon at 2:30 from San Francisco and after inspecting a new oil ship in St. Mangham's machine, both planes left for Eugene. They left Eugene last night about 6 p. m. and with clear weather would have landed at Eugene before dark. The fog evidently hindered their landing at the time however. Lt. Goldborough returned to Tomalla where he made a safe landing.

RED PEPPERS STOP PAIN AND RHEUMATISM

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the best spot through and through. Frees the blood circulation, breaks up the stagnation—rids the old rheumatism nature is pure.

Now Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for rheumatism, neuralgic backache, stiff neck, sore muscles, colds, etc. Rub it on. Almost instant relief. Always get the genuine, with the name Ruben on each package. Ask

ANNOUNCEMENT

MR. R. R. SHREVE, who enjoys the reputation of being one of the best typewriter experts of the City of Portland, has joined forces with us and will move his family to Medford.

Mr. Shreve leaves the Royal Typewriter Co. of Portland after having had charge of their mechanical department for four years. Previously he had worked for the Remington Typewriter Co. as salesman and mechanic for five years, preceding that position with the Wholesale Typewriter Co. in their rebuilding department for six years.

Mr. Shreve believes in Medford and knowing the sales of the Royal in the cities to both the one machine user and those having a battery of a hundred in many cases, knows Medford can be Royalized. He is courteous, intelligent, a rapid and accurate worker, a great believer in service after a sale as well as a promoter of it before, and will be prepared to do every sort of typewriter repairing, adjusting, rebuilding as well as can be done in any of the cities with the exception of re-manufacturing which will follow later. With Mr. Shreve we hope to stop the wracking of typewriters, sealing of parts, architect charges, and loss of machines by the traveling tinkers.

"Compare the work."

PEACE HOPE DIM

What one diplomat called a "patched up peace."

LONDON, Feb. 7.—By the Associated Press.—The British intend to pay to attention to the threatening Turkish ultimatum demanding that the allied warships leave Smyrna. It was stated authoritatively this afternoon. There is nothing in the armistice agreement prohibiting the presence there of allied warships. It was added, and the British do not intend to leave.

S. A. TREATY NOW HISTORY

What will pay the benefits of winning the happy results of this important conference. The success of your deliberations has opened "expectations," he said.

"You have furnished an agreeable and helpful example of the advantages of conference provided always that it is dominated by a firm determination to find the solutions of unity and be influenced by the belief that these will better serve the aims of security and progress than any possible strife."

"In these conversations you have recognized the fact that there is no ground for apprehension on the stability of our continuance which only reasonable adjustment and that is only an unwarmed intention, with each other's concerns which would destroy our peace and wreck your hopes of progress."

"At the beginning of this conference I stated the reasons which the United States contains in your opinion of our continuance to promote the general interests of peace in this hemisphere and to aid you in

peace no less effective than it would be if just British and American opposition to war were expressly agreed upon. It is a covenant of peace and cooperation, of respect and cooperation. It is a new element of financial and economic stabilization, when the world is sadly needing a reminder of the ways of peace. It is an example of enlightenment and inspiration, when the world is staggering in discouragement and bowed with the sorrows of war that were and does of wars which humanity is praying may be avoided.

"Ordinarily I should be reluctant to add this question to a congressional program which is already crowded in view of the short period remaining of your session. But it is of such vital importance to us and to the world that I should be remiss if I did not invite your attention even among crowded calendars and pending problems of great import. And I hope you will be glad to approve. If the dollar nation could decide to assume the great obligation in two calendar sessions, in the face of enormous financial and economic difficulties, surely the leading authority of the creditor nation will be ready to agree in a spirit appropriate to the great transaction and with a promptness which will convey beneficial appreciation."

I speak frankly, because the situation demands frankness. I am trying to emphasize a responsibility which cannot be met by one branch of the government alone. There is call for congressional expression, not mere avoidance. I am not seeking now to influence the senate's decision, but I am appealing for some decision.

There is time, abundant time, for decisive action on both these tremendously important questions. I have brought up the shipping bill because I can foresee the possible conflict for right of way, but it ought and can be avoided. There is time for essential debate on both and each carries its own appeal. Either is fit to be recorded a chapter in government achievement, both will mark a signal

CITY COUNCIL TO PROBE FRANCHISE J'VILLE RAILROAD

The city council last night voted to make the annual tax license \$14 per car, the same as last year, and it was decided to have the council license committee get together soon and check out a possible change in the annual license fee which must be paid by the commercial motor trucks. The fee charged last year was quite unsatisfactory to a number of the local commercial truck owners, who charge that many commercial truck owners evaded paying this license.

When Councilman Janney rather innocently inquired to learn the status of the Jacksonville railroad franchise to start something which would be trouble to the present lease of this road, but will bring much joy to the auto owners of the city if the road forces repairs to be made to the railroad crossings in the city.

All the councilmen and the mayor evidently wanted to learn the same information as Mr. Janney desired, for many complaints had been received for some time past about the deplorable conditions of the crossings.

Mayor Gadsden after stating that the trouble had existed for a long time past, announced that the franchise matter would be investigated and instructed City Attorney Means to look thoroughly into the matter.

The council transacted much routine business and passed a number of minor ordinances regarding different property settlements. Councilmen Alexander, Paul, Crowe, Jarobe and Janney were present.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair turned on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is money and out-of-date. Nowadays, by asking at any drug store for a bottle of "Witch's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. The simply drops a spoon or two through with it and draw this through your hair taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.
