While this is Lincoln's birthday and a legal holiday it is not observed by the postoffice department as a national holiday, hence the postoffice was open today as usual, but the banks and city and county offices were closed. Tonight the ninth annual banquet of the Lincoln club of Jackson county will be held at the Hotel Medford with the usual large attendance from all parts of the county. The banquet begins at 8 p. m.

Two large audiences attended the Sunday special services at the Christian church and were delighted with the excellent music and the gospel sermons by Geo. F. Bradford. The music consisted of solos, anthems, quartets, congregational singing and music by the church orchestra. The latter is a big feature of the services every Sunday evening and their music is highly appreciated and heartily enjoyed by the people.

The morning sermon was "The World's Greatest Memorial," and Evangelist Bradford showed that with all due respect to the memorials in honor of Washington, Lincoln and others the one outstanding and overshadowing all is the memorial of the Lord's supper and that the Christian church follows the example set by the apostles and spoken of by Christ on the first day of every week.

In the evening he spoke on "Building the Home." He said the American home is the training school,—or should be—for all children, and thru the influence of this training depends the life of the state and nation. That no home is really what it should be unless it is a Christian home. That there are too many boarding houses or stopping places in this country and too few homes. That the home is the central radio station that reaches all over the world and if the children receive the proper training and treatment in the home they will never lose connection with and honor for the central station no matter where they are.
