

IMMORTALITY IS CERTAIN, DECLARES DR. WILLIAM HUFF

"There is that in every human breast which makes us factors in the universe of God somewhere forever."

These were the opening words of Dr. Wm. H. Huff in a scholarly sermon which was heard by a packed house at the First Methodist church revival service last night.

"God has left the footprints of deity in the soul of man."

"When God did His best, He made a man."

"All our sorrows and sufferings are because of the lack of something. The suffering and sorrow and hell of a lost soul is the lack of God."

"There are soul capacities for suffering beside which a lake of fire would be cool."

"There is something about a man that makes God want to be neighborly with him."

"God's estimate of the value of the human soul is seen under the shadow of the cross."

"What shall it profit a man if he gain the whole world and yet his history become an eternal blank and he leave God out of his prospectus?"

The appeal of the evangelist was not only to the heart, but to the mind. There is no cheap sensationalism about his messages or his methods.

NEW MEMBERS TO HAVE VOTE ON THE C. OF C. DIRECTORS

Elections to the board of directors of the Chamber of Commerce which heretofore have been held in March, have been postponed this year until after the end of the present membership campaign in order to allow the new members to have a voice in the selection.

In previous years the contests for directorships have not been spirited. Candidates have been selected from the full list of members under no set rule.

This list of thirty-two will be sent to every member of the chamber, who will vote for sixteen names to appear on the final ballot.

The sixteen names receiving the highest vote in the primary will be printed on the final ballot and eight directors chosen from that.

The eight directors whose terms will expire on April 1, are: J. W. Wakefield, Lewis Ulrich, C. E. Gates, George L. Treichel, Earl C. Gaddis, John C. Mann, Mrs. Rose Scheffelin and Frank P. Farrell.

The primary election will be held as soon after the membership campaign is ended as is convenient.

We will soon know whether Medford is a community that believes in law and order under the constitution or whether it believes in invisible government or maybe whether it believes that this man Hale gathered a hooded mob together and took them to the country to witness how nearly he could commit suicide by hanging without breaking his neck.

The girls' basketball team of the local high school defeated the Roseburg girls' team last Friday night by a score of 35-10.

KLOCKERS TO HAVE FLOWER PRESERVE

Mr. and Mrs. A. J. Klocker have purchased a two acre tract on the north side of the Rogue river near the Crater Lake highway.

Later an artificial lake will be developed along the river front for the propagation of the various water plants.

The land is especially well suited to this purpose, the range of soil and conditions being adapted to every form of growth from the water fed ferns and orchids to those of the semi-arid type.

TO BUILD A CITY "So long as there is a margin in any American city between what it is as a place to work in, and what it may become, there is work for the modern Chamber of Commerce. There is no dark mystery about the successful organization of such a chamber. There must be simple machinery, frequent consultations, a short, definite and practical program, officers who inspire confidence, and an efficient and adequate provision for revenue. A Chamber of Commerce is not a debating society or a training school for orators. It is a project organization. Its committees must be workers instead of talkers." COLVIN B. BROWN, Manager Organization Service Bureau, U. S. Chamber of Commerce. Chamber of Commerce Days March 20-21-22
