WORLD WIDE RED PROTEST FOR APRIL

Occupation of Ruhr and Conditions in General to Be Discussed By Leading Agitators of All Lands—After Italian Fascisti — Boycott Favored to Win Ends.

FRANKFORT ON THE MAIN, Germany, Mar. 22.—(By Associated Press). Communist demonstrations are to be held in all the countries of the world from April 15 to 22 as part of an international protest week program directed primarily against the occupation of the Ruhr, according to a resolution adopted at the closing session of the international communist conference here. This week, the resolution says, shall also include demonstrations against the treaty of Versailles, the danger of war and against fascism.

The resolution embodies 18 general principles with supplementary individual programs from the communists of the various European countries. It provides for an international committee of action consisting of 21 members. To this committee is assigned the task of uniting all political and economic organizations of laborers for "the battle against international imperialism," and the eventual summoning of an internationale congress of workers.

The German communists are instructed to work particularly for the downfall of Premier Poincare of France and the overthrow of the Cuno government in Germany.

Clara Zetkin, one of the speakers, denounced the fascisti movement and advocated boycotting the Italian fascisti. She declared that within a few weeks past 8000 workmen had been sent to jail by the fascisti. The most effective weapon, she argued, would be the prevention of Italian imports entering the United States and England, "without which Italy cannot exist.

BUER, Mar. 22.—(By Associated Press). Sixty persons are reported to have been arrested by Belgian patrols in Gladbach and Bottrop and imprisoned on charges of having in their possession copies of newspapers published in unoccupied Germany, the appearance of which is forbidden in the occupied area.

In German semi-official quarters it is stated that the arrests are in pursuance of a new order by the French authorities setting forth that certain German newspapers have been publishing false reports to the effect that the slayers of the two French officials recently shot here were not Germans but Alpine chasseurs.

The order provides for the arrest of any person selling or possessing a copy of such a newspaper. A Dortmund dispatch says two German newspaper carriers have been arrested there and transported from the city.

All traffic including pedestrian, between unoccupied Germany and the Ruhr is prohibited between 8 p. m. and 5 a. m., according to a regulation by the inter-allied Rhineland commission advices from Frankfort on Main state.

BAR TOURISTS FROM GERMANY

SAN FRANCISCO, March 22.—Tourists will not be allowed to enter Germany for six months because their lavish expenditures are believed to have helped raise the cost of living to a high point, it was announced today at the German consulate here. Persons whose presence is imperative in Germany will be allowed to enter the country.

The German vice-consul said the orders banning tourists had been sent to Germany's representatives in all foreign countries.

SUGAR PRICE BEING PROBED

(Continued from page one.)

timated world surplus," Mr. Hoover said.

"Mr. Manly is about a month behind the times in his proposed investigation into the rise in price. Under authority of congress to investigate combinations of foreign producers of import commodities, this department, as soon as applications were available on March 4, instituted an investigation into the situation in Cubar. As the department has no jurisdiction in domestic questions of the kind, I informally suggested to the chairman of the federal trade commission that it should undertake this end of the matter.

"I wrote to Senator Brookhart, republican, Iowa, on February 26, in this connection a letter which was read into the Congressional Record, as follows:

"'I am in receipt of your letter of February 23. The only laws at all related to the subject to which you refer, are the restraint of trade acts as well as all other war regulations have long since been repealed by congress. This department nessarily had no knowledge of any corner in sugar, as such matters are dealt with by the department of justice and federal trade commission. As to the question of sugar supply, a world survey made by this department showed that the stocks of sugar on hand from last year plus the production of this year were estimated at a total of 19,511,000 tons whereas the consumption for the year was estimated at 19,035,000 tons, leaving a probable surplus at the end of the year of 476,000 tons. Some misconception has arisen because the estimated surplus of the year showed a decrease from the abnormal stocks at the beginning of the year. There is obviously no shortage in sugar and moreover, an undue increase in price will decrease consumption.

"I would be delighted to see any impartial inquiry into the speculation which has brought about a rise in the price of sugar or any other phase of the matter. There is nothing that the federal administration wishes more than to see a reasonable price and a stable market in sugar and other commodities without speculation.

"I regret to see Mr. Manly circulating the legend that the department stated there was a shortage of sugar as this only tends to benefit the speculators and the department made no such statement.

Unfortunately one of the news agencies misinterpreted one of the usual semi-annual statistical statements of the department, but the moment it was brought to my attention it was immediately corrected in the press. Mr. Manly is rather captious in blaming a cabinet officer for the size of type which newspapers use in statistical tables.

"As to Mr. Manly's discovery of the supposed sugar conspiracy a year ago—on his own statements (which I confirm) my part was that I told the Cuban officials who came to Washington that if they wanted to set up a restriction in the then overproduction of sugar, jointly with American beet producers, they would have to get the approval of congress. Needless to say, this was never obtained.

WASHINGTON, March 22.—Demands now being made for an investigation of sugar price fluctuations "are about a month behind," Secretary Hoover said today, adding that "such an inquiry had been instituted by the government on February 21.

The secretary said he was convinced there was no economic justification for high prices of sugar and that the department of commerce and other government departments were investigating into conditions in Cuba, under authority of a law passed by congress authorizing inquiry into combinations of foreign producers of import codmodities.

16. Thierolf	5	.....
Total today	141	$586.00

Grand total	530	$4019.25

A prize of one gold pencil for each worker on the men's and women's teams bringing in the most memberships today was awarded to Hamilton Patton's and Mrs. Schieffelin's teams.

Inasmuch as the number of memberships fell short of the goal of 600 which the workers set yesterday, a discussion was held as to the means of making up the deficit. Thirty-five of those present said they would take out memberships for another member of their families, so that two members could pay $12.50 dues instead of one paying $25. Several others volunteered to give their time tomorrow to catching up the loose ends in the campaign and thus swelling the total.

Vernon Vawter pointed out the insufficiency of the budget which is at present about $2500 below the necessary amount to carry out the chamber's activities. He suggested that those who did not subscribe to the publicity and service fund be asked to make a donation for the sole purpose of getting out an elaborate Medford booklet.

The question of elections to the Board of Directors was brought up and Harry Wather asked that the new members get some new blood on the board. Two parties—each with a platform were suggested as a means of making the elections more spirited.

ARMY DESERTER IS PITCHING WONDER

ORLANDO, Fla., Mar. 22.—At liberty under bond on promise of the Cincinnati National league club to stand responsible for him, Danny Dever, youthful recruit pitcher, today awaited the next move to unravel the tangle in which he placed himself when he left the army at Fort McDowell, Cal., and came here to join the Reds.

Dever was arrested yesterday on charges of deserting the United States army and was being held for military authorities. Dever said he understood from a Cincinnati scout that he would be taken from the army and accordingly he left his post and came to the training camp.

Dever, according to baseball experts is rated as one of the most sensational pitching finds the Reds have disclosed in many years.

BELGIUM CONTROL KRUPP EXPORTS

DUESSELDORF, Mar. 22.—(By Associated Press). Belgian troops have occupied Krupp harbor at Hochemmerich on the Rhine near Duisberg for the purpose of controlling exports from this harbor and the collection of the ten per cent tax on goods shipped. All kinds of smuggling tricks have been resorted to by the Germans in bringing money from Berlin into the occupied area.

Various government officials, according to the French, are being used to further passive resistance measures The French claim the Germans are using the banks and postoffices as well as individuals, to bring money into the Ruhr. In Duesseldorf, the French seized at a postoffice 15,000,000 marks which had been sent there for one of the strike leaders to collect and distribute among the working men under government pay.

BRITISH ORATE ON AERIAL DEFENSE

LONDON, Mar. 22.—(By Associated Press). The debate on air defense in the house of lords last night attracted much interest from the press, most morning newspapers giving it prominence with some approving comment upon the concern voiced by various speakers over Great Britain's inferiority in the air.

The general conclusion is that there is ample justification for uneasiness in the country's defenselessness and that the inequality is too dangerous to be allowed to continue. Friendship with France, it is pointed out, will not be less sincere if Britain's air strength is put on an equal footing.
